Peran Penulis/Pembaca

Membandingkan Topik

Membandingkan=mencari kesamaan

Tipe Pertanyaan menanyakan Topik Teks

1. What is the text about?
2. The text is about ...
3. What does the text tell us about?
4. The text tells us about ...
5. The text mainly discusses about ...
6. The text mainly talks about ...

Compare the topics of the following texts (Bandingkan topik teks berikut)

Kedua teks tersebut memuat langkah-langkah (steps). Teks A memuat langkah-langkah menggunakan setrika listrik, sedangkan teks B memuat langkah-langkah mengoperasikan rice cooker. Baik rice cooker maupun setrika listrik termasuk kategori peralatan elektronik. Jadi kedua teks tersebut memuat langkah-langkah untuk menggunakan/mengoperasikan peralatan elektronik. Dengan kata lain, kedua teks tersebut membahas langkah-langkah menggunakan peralatan elektronik.

Text A

We use the heat of an electronic iron to remove wrinkles from fabric and get our clothes tidy. In order to do so, we need to follow these following steps.

1. Prepare the iron, the clothes, a place mat or any flat surface board, some clothing hanger.
2. Plug the iron cable into an electricity socket and wait until the iron get warmer.
3. Place the clothes on the place mat.
4. Apply the iron on the clothes surface evenly.
5. Flip the clothes and apply the iron on the other side of the clothes evenly.
6. Put the clothes on the clothing hanger
7. Continue with another clothes.

Text B

Nowadays cooking is no longer a complicated things. Especially when it comes to cooking rice, there is an electronic device designed specially for this. We know this device as **Rice Cooker, Magic Jar or Magic Com**. The following steps will show you how to **operate a Rice Cooker properly**.

1. Wash the cooking pot and make sure the inner side is clean.
2. Measure the rice by using the measurement cup and put the rice into the cooking pot. Make sure to give space for the rice, water and the expansion.
3. Insert the rice so that we can remove the pesticides that may be present.
4. Add some water into the cooking pot, usually we need to see the water is 1cm above the rice surface.
5. Soak the rice for about 30 minutes in order to make the cooked rice stickier.
6. Put the cooking pot along with the rice and water into the Rice Cooker.
7. Close the Rice Cooker lid and then plug the cable into the electricity socket.
8. Start the Rice Cooker by pressing the Cooking/Timer Button.
9. Wait until the cooking process is over.
10. Open the lid and the rice is ready to be served.

Maka, pertanyaan-pertanyaan yang menanyakan topik pada slide sebelumnya dapat di jawab dengan: . **The ways/steps/procedure/process of using/operating electronic devices**

Membandingka n tujuan penulisan

Tipe Pertanyaan

- What is the communicative purpose of the text?
- The communicative purpose of the text is ...
- The writer's intention in writing the text is ...
- What is the writer's intention in writing the text?
- The writer's purpose in writing the text is ...
- What is the writer's purpose in writing the text?

Bandingkan Tujuan penulis menulis teks berikut

- Pada slide sebelumnya kita sudah menemukan topik dari kedua teks, yaitu langkah-langkah menggunakan/mengoperasika peralatan elektronik. Dengan demikian, penulis menulis kedua teks tersebut bertujuan untuk mendeskripsikan/menjelaskan/menunjukkan/memberitahukan langkah-langkah menggunakan/mengoperasikan peralatan elektronik

• Text A

• We use the heat of an electronic iron to remove wrinkles from fabric and get our clothes tidy. In order to do so, we need to follow these following **steps**.

1. Prepare the iron, the clothes, a place mat or any flat surface board, some clothing hanger.
2. Plug the iron cable into an electricity socket and wait until the iron get warmer.
3. Place the clothes on the place mat.
4. Apply the iron on the clothes surface evenly.
5. Flip the clothes and apply the iron on the other side of the clothes evenly.
6. Put the clothes on the clothing hanger
7. Continue with another clothes.

• Text B

• Nowadays cooking is no longer a complicated things. Especially when it comes to cooking rice, there is an electronic device designed specially for this. We know this device as **Rice Cooker, Magic Jar or Magic Com**. The following **steps** will show you how to **operate a Rice Cooker properly**.

1. Wash the cooking pot and make sure the inner side is clean.
2. Measure the rice by using the measurement cup and put the rice into the cooking pot. Make sure to give space for the rice, water and the expansion.
3. Insert the rice so that we can remove the pesticides that may be present.
4. Add some water into the cooking pot, usually we need to see the water is 1cm above the rice surface.
5. Soak the rice for about 30 minutes in order to make the cooked rice stickier.
6. Put the cooking pot along with the rice and water into the Rice Cooker.
7. Close the Rice Cooker lid and then plug the cable into the electricity socket.
8. Start the Rice Cooker by pressing the Cooking/Timer Button.
9. Wait until the cooking process is over.
10. Open the lid and the rice is ready to be served.

• Jadi pertanyaan tentang tujuan penulisan teks prosedur dapat dijawab dengan:

- To describe the steps /ways of
- To explain the steps/ways of
- To show the steps/ways of
- To tell the steps/ways of

Membandingka n Alasan penulisan

Tipe Pertanyaan

- Why does the writer write the text? Mengapa penulis menulis teks tersebut?)
- The writer writes the text in order that ... (Penulis menulis teks tersebut supaya .. .)
- The writer writes the text so that ... (Penulis menulis teks tersebut agar ...)
- The writer writes the text, because ... (Penulis menulis teks tersebut, karena ...)

Bandingkan alasan penulis menulis teks berikut

- **Mengapa penulis teks tersebut? Tentunya adalah supaya pembaca tahu, lalu memahami, dan akhirnya dapat menggunakan kedua peralatan elektronik tersebut dengan benar. Jadi, the writer writes the texts in order that the readers are able to use/operate the electronic devices properly. Maka :**
- **Why does the writer write the text?**
 - **Because he/she wants to make the readers able to use/operate the electronic devices properly**
- **The writer writes the text in order that**
 - **the readers are able to use/operate the electronic devices properly.**
- **The writer writes the text so that**
 - **the readers are able to use/operate the electronic devices properly.**
- **The writer writes the text,**
- **because he/she wants to make the readers able to use/operate the electronic devices properly**

- **Text A**
- **We use the heat of an electronic iron** to remove wrinkles from fabric and get our **clothes** tidy. In order to do so, we need to follow these following **steps**.
 1. Prepare the iron, the clothes, a place mat or any flat surface board, some clothing hanger.
 2. Plug the iron cable into an electricity socket and wait until the iron get warmer.
 3. Place the clothes on the place mat.
 4. Apply the iron on the clothes surface evenly.
 5. Flip the clothes and apply the iron on the other side of the clothes evenly.
 6. Put the clothes on the clothing hanger
 7. Continue with another clothes.
- **Text B**
- Nowadays cooking is no longer a complicated things. Especially when it comes to cooking rice, there is an electronic device designed specially for this. We know this device as **Rice Cooker, Magic Jar or Magic Com**. The following **steps** will show you how to **operate a Rice Cooker properly**.
 1. Wash the cooking pot and make sure the inner side is clean.
 2. Measure the rice by using the measurement cup and put the rice into the cooking pot. Make sure to give space for the rice, water and the expansion.

 4. Add some water into the cooking pot, usually we need to see the water is 1cm above the rice surface.
 5. Soak the rice for about 30 minutes in order to make the cooked rice stickier.
 6. Put the cooking pot along with the rice and water into the Rice Cooker.
 7. Close the Rice Cooker lid and then plug the cable into the electricity socket.
 8. Start the Rice Cooker by pressing the Cooking/Timer Button.
 9. Wait until the cooking process is over.
 10. Open the lid and the rice is ready to be served.

Membandingkan manfaat/dampak membaca

Tipe Pertanyaan

- What is the benefit of reading the text? (Apa manfaat membaca teks tersebut?)
- After reading the texts, what will the readers likely do? (Setelah membaca teks tersebut, apa yang kemungkinan akan dilakukan pembaca?)

Bandingkan alasan penulis menulis teks berikut

- Apa dampak/keuntungan membaca tersebut? Tentu, setelah membaca teks tentang langkah-langkah menggunakan/mengoperasikan setrika listrik dan rice cooker, para pembaca akan menggunakan/mengoperasikan kedua alat tersebut dengan benar. Dengan demikian, pertanyaan:
 - What will the readers likely do after reading the text? Dapat dijawab dengan : the readers likely use/operate the electronic devices properly.

- **Text A**
- We **use the heat of an electronic iron** to remove wrinkles from fabric and get our **clothes** tidy. In order to do so, we need to follow these following **steps**.
 1. Prepare the iron, the clothes, a place mat or any flat surface board, some clothing hanger.
 2. Plug the iron cable into an electricity socket and wait until the iron get warmer.
 3. Place the clothes on the place mat.
 4. Apply the iron on the clothes surface evenly.
 5. Flip the clothes and apply the iron on the other side of the clothes evenly.
 6. Put the clothes on the clothing hanger
 7. Continue with another clothes.
- **Text B**
- Nowadays cooking is no longer a complicated things. Especially when it comes to cooking rice, there is an electronic device designed specially for this. We know this device as **Rice Cooker, Magic Jar or Magic Com**. The following **steps** will show you how to **operate a Rice Cooker properly**.

 7. Close the Rice Cooker lid and then plug the cable into the electricity socket.
 8. Start the Rice Cooker by pressing the Cooking/Timer Button.
 9. Wait until the cooking process is over.
 10. Open the lid and the rice is ready to be served.

Membandingka n Peran pembaca

Tipe Pertanyaan

- Who will be likely interested in reading the texts? (Kemungkinan siapa yang tertarik membaca teks tersebut?)
- Who will be the potential readers of the text? (Siapa yang akan kemungkinan menjadi pembaca teks tersebut?)

Bandingkan alasan penulis menulis teks berikut

- Teks tersebut membahas langkah-langkah menggunakan peralatan electronic, yaitu seterika listrik, dan rice cooker. Kedua peralatan tersebut banyak digunakan dalam rumah tangga. Jadi, kemungkinan pembaca yang tertarik membaca teks tersebut adalah ibu rumah tangga
- Dengan demikian jawaban Pertanyaan:
 - Who will be likely interested in reading the texts? (Kemungkinan siapa yang tertarik membaca teks tersebut?)
 - Who will be the potential readers of the text? (Siapa yang akan kemungkinan menjadi pembaca teks tersebut?)
- Adalah housewife (ibu rmh tangga)

• Text A

- We **use the heat of an electronic iron** to remove wrinkles from fabric and get our **clothes** tidy. In order to do so, we need to follow these following **steps**.
1. Prepare the iron, the clothes, a place mat or any flat surface board, some clothing hanger.
 2. Plug the iron cable into an electricity socket and wait until the iron get warmer.
 3. Place the clothes on the place mat.
 4. Apply the iron on the clothes surface evenly.
 5. Flip the clothes and apply the iron on the other side of the clothes evenly.
 6. Put the clothes on the clothing hanger
 7. Continue with another clothes.

 6. Put the cooking pot along with the rice and water into the Rice Cooker.
 7. Close the Rice Cooker lid and then plug the cable into the electricity socket.
 8. Start the Rice Cooker by pressing the Cooking/Timer Button.
 9. Wait until the cooking process is over.
 10. Open the lid and the rice is ready to be served.

Membandingka n Peran Penulis

Tipe Pertanyaan

- Who likely writes the texts? (Kemungkinan siapa yang menulis teks tersebut?)
- Who is likely the writer of the text? (Siapa yang kemungkinan menjadi penulis teks tersebut?)

Bandingkan alasan penulis menulis teks berikut

- Teks tersebut membahas langkah-langkah menggunakan peralatan electronic, yaitu seterika listrik, dan rice cooker. Hanya-orang yang paham bidang elektronik lah yang kemungkinan dapat menjelaskan langkah-langkah penggunaan peralatan elektronik. Jadi, kemungkinan penulis teks tersebut adalah ahli elektronik/spesialis elektronik/pembuat alat elektronik tersebut
- Maka jawaban pertanyaan-pertanyaan:
 - Who likely writes the texts?
 - Who is likely the writer of the text? (Siapa yang kemungkinan menjadi penulis teks tersebut?)
- adalah:
 - Electronic expert, atau
 - Electronic specialist, atau
 - Electronic device producer/maker

- **Text A**
- We **use the heat of an electronic iron** to remove wrinkles from fabric and get our **clothes** tidy. In order to do so, we need to follow these following **steps**.
 1. Prepare the iron, the clothes, a place mat or any flat surface board, some clothing hanger.
 2. Plug the iron cable into an electricity socket and wait until the iron get warmer.
 3. Place the clothes on the place mat.
 4. Apply the iron on the clothes surface evenly.
 5. Flip the clothes and apply the iron on the other side of the clothes evenly.
 6. Put the clothes on the clothing hanger
 7. Continue with another clothes.

- **Text B**
- Nowadays cooking is no longer a complicated things. Especially when it comes to cooking rice, there is an electronic device designed specially for this. We know this device as **Rice Cooker, Magic Jar or Magic Com**. The following **steps** will show you how to **operate a Rice Cooker properly**.
 1. Wash the cooking pot and make sure the inner side is clean.
 2. Measure the rice by using the measurement cup and put the rice into the cooking pot. Make sure to give space for the rice, water and the expansion.
 3. Insert the rice so that we can remove the pesticides that may be present.
 4. Add some water into the cooking pot, usually we need to see the water is 1cm above the rice surface.
 5. Soak the rice for about 30 minutes in order to make the cooked rice stickier.
 6. Put the cooking pot along with the rice and water into the Rice Cooker.
 7. Close the Rice Cooker lid and then plug the cable into the electricity socket.
 8. Start the Rice Cooker by pressing the Cooking/Timer Button.
 9. Wait until the cooking process is over.
 10. Open the lid and the rice is ready to be served.

□ Kesimpulan: Dengan mengetahui

Topic of the text

Dengan mudah dapat diketahui

Communicative purpose/tujuan penulisan

The reason of writing/alasan penulisan

The effect of reading/dampak membaca

The writer/penulisnya

The reader/pembacanya

Write

what should **NOT** be forgotten

Tuliskan apa yang seharusnya tidak dilupakan

Isabel Allende – Chilean Writer
