

1-Click **Automated** Investments & Yield Farming for Everyone

Yield-generating indexes on  SOLANA and  Terra

Easily Invest & Yield Farm in 1-click

Discover top performing vaults that let you instantly invest & yield farm with profit-optimized strategies - on Solana & Terra. Maximize profits from asset gains plus yield.

Low fees, Deposit & Withdraw Anytime

Low fees are key to making DeFi accessible to Everyone. Start with as little as \$10 USDC, and join us on a mission to empower and "mint" the next 1 Million First-time DeFi users.

Secure & Non-Custodial

Users retain full ownership and control over investments in their own wallets. Hawksight's DeFi app is also battle-tested through internal audits, external audits, and will dedicate an insurance fund to protect users.

Our mission is to make **DeFi more accessible to Everyone** with yield-generating indexes for 1-click automated investments & profit-optimized yield farming on **\$SOL** and **\$LUNA**

HAWKSIGHT'S MISSION IS TO MAKE DEFI ACCESSIBLE TO EVERYONE

By making DeFi strategies >10x easier to execute

with  HAWKSIGHT

Manually investing & yield farming without Hawksight

VS

Deposit

1. Deposit USDC or UST

1. Study different DeFi projects
2. Identify which among the DeFi projects has the most powerful strategy
3. Make sure you get the correct link to that project, so you don't get scammed
4. Swap your USDC to get tokens of that project

Yield

(Automatically invest in SOL & LUNA and maximize earn from profit-optimized yield farming)

5. Search for other ways to gain more profit (e.g. staking)
6. Learn all about staking
7. Identify where to stake your tokens to get maximum rewards
8. Make sure you get the correct link to that staking platform so you don't get scammed
9. Stake your tokens

Withdraw

2. Withdraw USDC or UST anytime

10. Study when it is best to unstake your tokens
11. Unstake your tokens
12. Swap your tokens back to USDC

EXECUTIVE SUMMARY OF HAWKSIGHT

About Hawksight

1. **Hawksight** makes DeFi accessible to Everyone with 1-click Automated Investments & Yield Farming - on Solana and Terra. Our Yield-generating Indexes enable users to instantly and simultaneously invest and earn profit-optimized yield on both Solana and Terra. **Hawksight** is backed by Solana Ventures & Terraform Labs.
2. Beyond the DeFi app, **Hawksight's** has also incubated several highly-demanded projects to boost utility & demand for **\$HAWK** tokens and its ecosystem expansion, including 1) **AI Crypto Chatbot**, 2) **Twitter Analytics**, and 3) **DeFi-utility NFT**.
3. **\$HAWK** tokens are designed for long-term accrual value, through strategic token burning, protocol-owned-liquidity, unusually long lockups & vesting, and strong **\$HAWK** utility for token holders.

Key Features & **\$HAWK** Token Utility

1. Easily Invest & Yield Farm in 1-click
2. Low fees, Deposit & Withdraw Anytime
3. Secure & Non-Custodial
4. Strong **\$HAWK** Utility for Token Holders
 - **AI Crypto Chatbot**: Access to real-time AI optimized trading signals for **\$HAWK** token holders. Get technical and on-chain alerts for cryptocurrencies, DeFi assets, and even NFT floor prices straight from Telegram or Discord.
 - **Twitter Analytics**: Map NFT, Crypto, DeFi, and Web3 projects with top Twitter accounts by following, mentions, and engagement - and vice versa. Powered by social signals team & engine used by Amazon, Warner Media, BCG, and Bytedance.

STRATEGIC PARTNERS & INVESTORS

H1-2022 ROADMAP

2021

Q3

- Formed team of 15+ core and full-time contributors across Singapore, Philippines, Indonesia, India, and United States
- Launched Hawksight's AI Engine and Signal Platform with 500,000+ Signal Users Across Platforms, spanning Individuals to Institutions in 36+ Countries, including a Southeast Asian Tech Unicorn
- Finalized DeFi app Whitepaper, \$HAWK Tokenomics, and masterplan for product ecosystem on Solana & Terra

Q4

- Won 1st-place in SCB10X Global DeFi Hackathon - in partnership with Terra & Polygon
- Scale AI chatbot to reach and empower 1,000,000+ Individuals and Institutions globally with technical and on-chain trading signals for crypto, DeFi, and NFTs
- Complete \$HAWK private token round with strategic backers, including Solana Ventures & Terraform Labs
- Devnet platform testing

Q1-2022

- \$HAWK token launch IDO in March 2022 onwards in partnership with Solanium, DEXes, and CEXes
- Mainnet launch of Solana DeFi app in March 2022 onwards
- Implement Protocol-owned-liquidity (POL) for \$HAWK tokens
- Kickstart development of Terra-native DeFi app
- NFT launch focused on utility and DeFi use-cases
- Early access to Hawksight premium features for \$HAWK token holders (Real-time trading signals and Twitter social analytics for NFT, crypto, DeFi, and Web3)

Q2-2022

- Accelerate TVL growth of Hawksight Solana & Luna strategy vaults through ecosystem incentives
- Gradual rollout of Hawksight premium features to \$HAWK token and NFT holders
- Integrate with more DEXes and CEXes
- Early testing for Terra-native DeFi app
- Catalyze ecosystem growth through DeFi and NFT partnerships in the Solana & Terra ecosystem
- Progressive decentralization of AI engine and on-chain trading signals

TOKENOMICS & STRONG \$HAWK UTILITY DEMAND

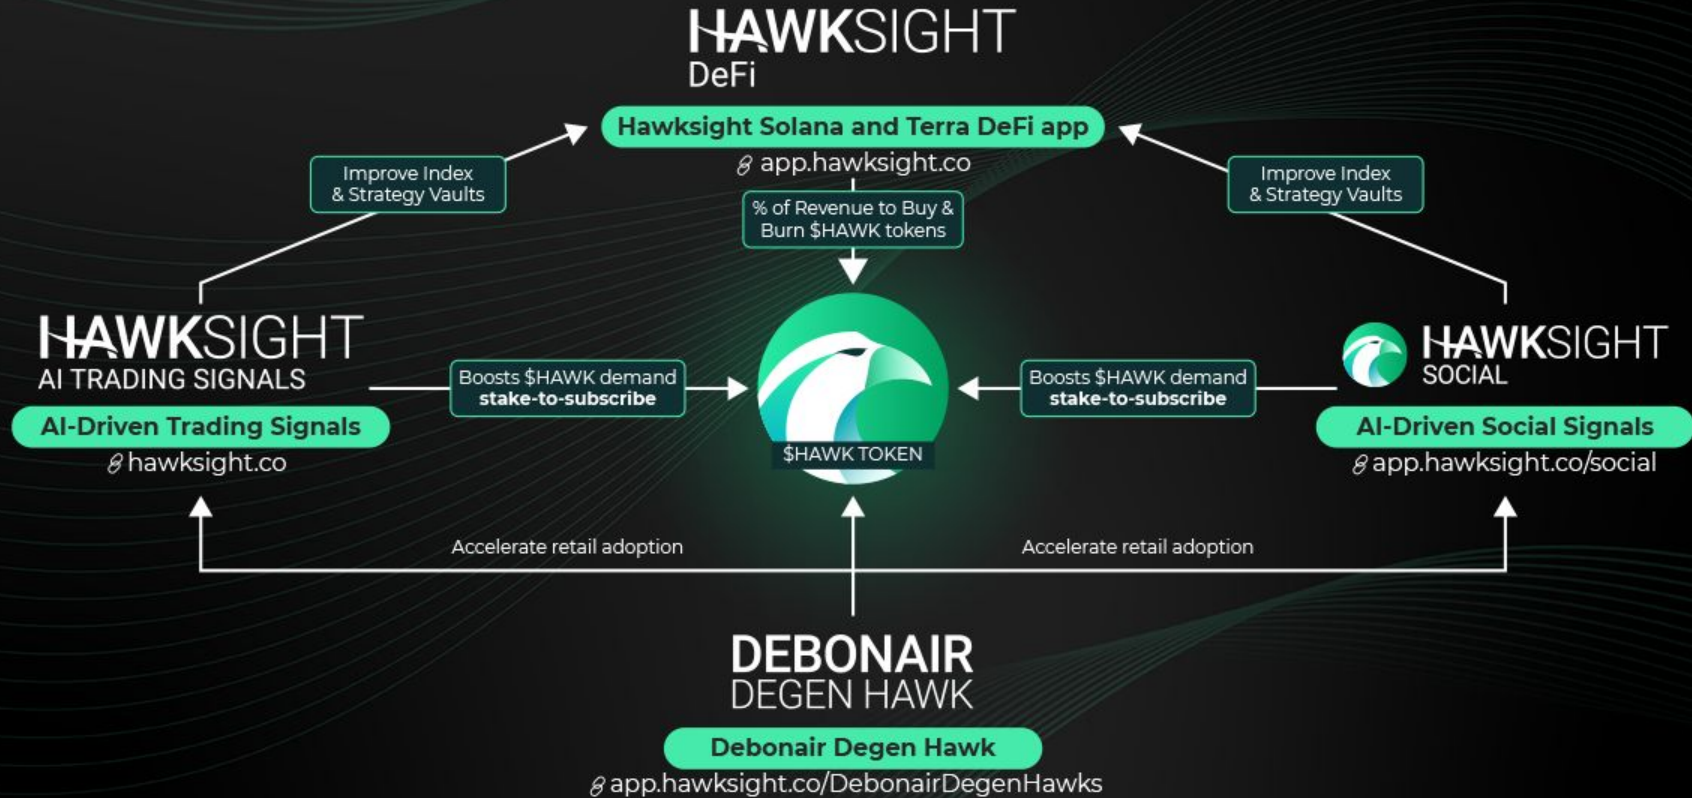

INITIAL CIRCULATING SUPPLY = 3-5% OF TOTAL TOKENS

- Team: Token allocation for core contributors of Hawksight, with unusually long lock-up and vesting schedules to align with Hawksight's long-term growth
- Fundraise: Token allocation for strategic partners in Solana and Terra, with unusually long lock-up and vesting schedules.
- Ecosystem Incentives: Project initiatives* and marketing budget to generate demand for \$HAWK utility token, TVL growth, and protocol revenue, all of which contribute to Hawksight's \$HAWK token accrual value

 * Project initiatives: Creating strong use-cases and demand for \$HAWK token by launching high-demand products that are only available to \$HAWK token holders. Hawk Labs is already incubating and giving early-access to premium features such as real-time trading signals, and Twitter analytics for NFT, Crypto, DeFi, and Web3 projects

\$HAWK ECOSYSTEM: FLYWHEEL OF VALUE & UTILITY

BEST-IN-CLASS \$HAWK TOKEN UTILITY & ACCRUAL VALUE

5 Reasons to Buy & HODL \$HAWK

1.  \$HAWK token burning for long-term token accrual value
2.  Unusually long vesting & lock-ups for early investors
3.  Protocol-owned-liquidity (POL) for reduced price volatility and selling pressure
4.  Strong utility with Hawksight premium features for token holders, such as real-time trading signals and Twitter social analytics for analyzing Crypto, DeFi, NFT, and Web3 projects
5.  Decentralized governance

THE BENEFITS OF POL (PROTOCOL-OWNED-LIQUIDITY)

1. 💰 Stable long-term liquidity to avoid token price volatility or price deterioration
2. % Better entry-price for community to buy tokens at a discount via token bonding
3. 📉 Mitigate selling pressure and impermanent loss

TEAM

Enzo Ampil - Co Founder | Dev
Built AI/ML for Global Financial Institutions

FastQuant | Creator of global open-source algo trading tool on Github with 61,000+ downloads and 795+ stars

Thinking Machines | Spearhead document AI productization and ML modeling for global financial institution and enterprise clients, including >US\$250B AuM private equity fund

Vanta Analytics | Founded data science consultancy to build AI machine learning models for SE Asian financial institutions

Bradian Muliadi - Co Founder | Growth
SaaS Global-scaling Experience | 1x Exit

Analisa.io | Founder of social analytics SaaS, scaled growth profitably to 57+ countries (Key clients: Warner Media, BCG, Gojek, Prudential)

IconReel | Co-founded Indonesia's largest creator platform, acquired in 2019 by SE Asia publicly-listed consumer goods company

Finance & Investments | Experience in *J.P Morgan & Chase*, *LVMH Group's L Catterton*, *Tempo Scan Pacific M&A*
