

Interledger

Interoperable, Streaming Payments

Stefan Thomas

@justmoon

Agenda

1. The Need for Interoperability
2. Background: How Interledger Works
3. Demos: Streaming Payments

The biggest problem in
payments is the
lack of interoperability

The Payment Space is Highly Fragmented

PROBLEM

To pay someone, you need to use
the same payment network

PROBLEM

To accept payments, you need to support many different networks

Accepting Payments Online

Payment Methods Accepted By Prineta.com

Payment Handler API

W3C Working Draft 08 January 2018

This version:

The Core is the Packet and Address Format

3.1. Internet Header Format

A summary of the contents of the internet header follows:

```

      0             1             2             3
    0 1 2 3 4 5 6 7 8 9 0 1 2 3 4 5 6 7 8 9 0 1 2 3 4 5 6 7 8 9 0 1
+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+
|Version| IHL |Type of Service|           Total Length           |
+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+
|           Identification           |Flags|   Fragment Offset   |
+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+
|   Time to Live |   Protocol   |           Header Checksum     |
+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+
|           Source Address           |
+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+
|           Destination Address      |
+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+
|           Options                   |           Padding        |
+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+---+
```

IP Packet

```
InterledgerPrepare ::= SEQUENCE {
  -- Local amount (changes at each hop)
  amount UInt64,

  -- Expiry date
  expiresAt Timestamp,

  -- Execution condition
  executionCondition UInt256,

  -- Destination ILP Address
  destination Address,

  -- Information for recipient (transport layer information)
  data OCTET STRING (SIZE (0..32767))
}
```

Fixed Costs Make Micropayments Unviable

The Internet Economy is Incomplete

Today: The Web is a **Barter Economy**

Barter is Extremely Inefficient

“

There may be many people wanting, and many possessing those things wanted; but to allow of an act of barter, there must be a **double coincidence**, which will rarely happen.

- *William S. Jevons, 1875*

So We Use Hacks to Get Around the Problem

Hacks: Ads, Surveys, Bundling, ...

Dominance of Marketplaces

When an online service is free,
you're not the customer.

You're the product.
