# MOVING TEACHERS TO OTHER COUNTRIES HELPS!

**THE TEACHER  
CAN OBSERVE  
OTHER WAYS OF  
TEACHING AND  
LEARNING IN  
EUROPE**

**THE TEACHER CAN  
SHARE HIS/HER  
OWN GOOD  
TEACHING IDEAS**

**THE TEACHER  
CAN LEARN  
FROM OTHER  
EUROPEAN  
COLLEAGUES**

# PROJECT INFORMATION

Identifier: 2017-1-ESO1-KA101-03766

- Start date: June 1, 2017
- End date: May 31, 2019

# OUR EUROPEAN PARTNERS

1.-Pikkiön Yhtenäiskoulu (Finland)

2.-Liceo Darwin (Italy)

3.-Aust-Lofoten Videregaende skole (Norway)

4.-Paimion Lukio Paimion kaupunki (Finland)

# TOPICS INVOLVED:

- Teaching and learning
- Quality improvement
  - New methodology
- Use of ICT in the classroom

LET'S TALK ABOUT WHAT WE WANT  
TO ACHIEVE

**IMPROVING THE TEACHERS'  
AWARENESS OF HIS/HER  
OWN TEACHING METHOD**

**COMPARING THE  
TRADITIONAL METHOD OF  
TEACHING: THE TEACHER GIVES  
ALL THE INFORMATION, WITH ....**

**THE INNOVATIVE APPROACH OF  
THE TEACHER-COACH, WHO  
GUIDES STUDENTS TOWARDS  
LEARNING HOW TO LEARN,  
LEARNING BY DOING**

**OPENING OUR SCHOOL  
DOORS TO OUR PARTNERS'  
TEACHERS SO THEY CAN  
COME AND OBSERVE US**

**IMPROVING THE TEACHERS'  
KNOWLEDGE AND PRACTICE  
OF ENGLISH**

**STARTING EXCHANGES  
BETWEEN OUR STUDENTS  
AND OUR PARTNERS'  
STUDENTS**

IMPROVING AS A SCHOOL: THE  
TEACHERS DOING THE  
MOBILITIES WILL TEACH  
THE REST OF US WHAT THEY  
HAVE LEARNED

**WE WILL START GIVING STEPS  
TOWARDS APPLYING INNOVATIVE  
TECHNIQUES IN OUR SCHOOL:  
COACHING, PROJECT BASED  
LEARNING, MORE ICT IN THE  
CLASSROOM, USING RUBRICS TO  
ASSESS**

**WE WILL SHARE WHAT WE HAVE  
LEARNED AND WHAT WE ARE DOING  
WITH OUR COMMUNITY**

# WHAT THE MOBILITY HAS MEANT FOR THE PARTICIPANTS

"My course meant updating and sharing knowledge and experience with other European teachers. I can now see that collaborative students group working in the class is needed, even mixing different subjects in the same project." Carmen Esperante

"In Finland, I could observe more flexibility in the classroom, new ways of teaching and learning: the students can use their smartphones in class!" Patri Barrientos.

"In Norway teachers work in pairs in the classroom, so they can really attend to diversity. Students feel comfortable at school: wearing slippers in class, not having a teacher supervising them all the time during breaks. There is a 10' break every 45' lesson!!" Temi Madarnás

In Finland the teacher is a guide and helps the student get the knowledge. Technology is comfortably used in the classroom, the students are sitting in groups not in rows so they can work together cooperatively. the focus is on THE POSITIVE, not the negative" Eva Dios.

"In Italy I could observe that the relationship between teachers and students is very friendly. I could teach Spanish for a week and the method was less based on grammar and more on reading Spanish and Galician books and then learn about our culture, customs, history, comparing it with the Italian ones, in a very respectful way!!" Luz Díaz.

"In Finland teachers are less worried about perfection and give students freedom to experiment their techniques: failing is a way to learn: Finnish great idea: I give you trust and you give me responsibility" Iván Capón

**TWO STUDENTS' EXCHANGES HAVE ALSO BEEN POSSIBLE THANKS TO THIS PROJECT!!**
