The aim of this spreadsheet is to collect the history of single segment speedrun world records of all categories in Sonic Adventure 2 (Battle) as complete as possible. This also includes runs that do not have a video, such as if the video has been lost or if the run has never been published. If there is clear data available proving the existence of a run with an exact time and a date, it will go on this spreadsheet.

The spreadsheet was started some time in 2016, and I haven't been around the speedrunning community for nearly as long as this spreadsheet goes back. Therefore a lot of the data was put together long after it happens, which eventually means that it was not possible to 100% accurately collect information, since info on very old runs have been lost or never were published. Many runs from very far back do not have a video linked to them are times I have gathered from SRL. Whether they actually represent the best runs of that category at that time or not I can't guarantee, but they are the fastest within all the data I could gather in retrospective. Categories like All Stories, any% or NG+ haven't been well documented, therefore I had to rely on a few old races that I found on SRL.

Therefore, if anybody has any info to add or correct, knows about runs that I missed, please contact me via one of the ways listed above and let me know. Thanks!
