

## 2022 MASSACHUSETTS A.T. MANAGEMENT COMMITTEE WORK PARTY SCHEDULE

<https://www.facebook.com/MassachusettsAT>

Work projects are open to all--no prior experience is necessary. Please note that some projects require a moderate hike to and from the work site, and others will be off-trail adventures.

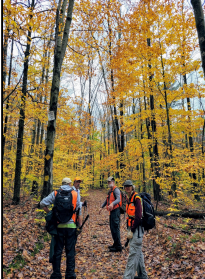

**All participants must sign up at [outdoors.org](https://www.outdoors.org). A link for each project is also usually provided below. We generally meet at the trailhead at 9am and are headed back to arrive at the trailhead no later than 4pm. If you only have a partial day available, we'd be happy to accommodate you--just let the project leader know.**

**Note: Projects for the season will conform to AMC and ATC Covid-19 work requirements. At present (March 2022), Face coverings are not required for outdoor activities. This may change, so register for the project for the latest info.**

**Dress appropriately for the weather, wear sturdy shoes, bring lunch and plenty of water to drink.**

**Note: This document was originally created on March 15, 2022. We will be making some changes as the season develops. The live, up-to-the-minute version of this schedule can be found at the link below (hover, then click the text that appears):**
