#	Skill Name**	Hidden?	Skillbook(s)?	Comments			
1	ArtisanSkillStore		None - to fix	Can't be added in v2, see asterisks below	Comes with the Store item Artisan's Glassblowing and Jewelry Making Station		
2	CastingStore	Y	None - to fix	Can't be added in v2, see asterisks below	Spellcasting skill exclusively linked to the Store's items Lady Ravendancer Goth's Book O' Spells and Lord Vladimir's Magic Cauldron . Skillbook testing notes: the game does not send notifications when the sim levels up in the CastingStore skill. Only using Nraas MC or DebugEnabler allows to see which level the sim currently has reached in the CastingStore skill.		
3	DanceSkillStore		None - to fix	Can't be added in v2, see asterisks below	Comes with the Store Item Stiff As A Board, Light As A Feather Dance Collection		
4	GamblingSkillStore		None - to fix	Can't be added in v2, see asterisks below	Comes with the Slot Machine and the Blackjack Table of the store set The Lucky Simoleon Casino		
5	SurfingSkillStore	Y	None - to fix	Can't be added in v2, see asterisks below	Came with the store item Surf's Up Sun & Fun Wave Station Skillbook testing notes: the SurfingSkillStore seems to simply be used to trigger the 3x different wave station notifications? Couldn't get any special data about this. Seems more a technical/functional feature than anything.		
6	ViolinSkillStore		None - to fix	Can't be added in v2, see asterisks below	Comes with the store item Fit as a Fiddle Violin		
Extra notes:							
**					Exceptionally in this tab, Skill Names do not follow their CommodityKind format (usually "SkillCooking" for instance). The reason is simple: no CommodityKind could be found for store skills in the game's code as of today. Townies reading these skillbooks will only do so randomly , no way to push them to pick specifically the "store skills" skillbooks as of today. EXTRA NOTE: I tried adding "Skill" in front of all the above skill names and townies still didn't bother picking up the store skills custom skill books. So it'll take more to push them to pick these books. Script modding maybe? Or maybe not. To be continued...		
X	SkillGambling	Y	See comment	To be removed in v2, see comment	Skillbook testing notes: I tested the "Complete Skill: Gambling" book inside of Mikey's mod here , and my sim could loop through reading animation with a progress bar above his head. After a while, he received a game notification congratulating him for mastering the "Gambling" skill. No new skill was visible in his Skill panel. He had not either progressed in the GamblingSkillStore skill mentioned above, that is a completely separate skill. Conclusion: this skill is leftover code by EA and technically "junk code". It is advised not to use this specific skill book in your world , unless you want to see townies reading a book infinitely to learn absolutely nothing whatsoever. You do you.

CREDITS (SPECIAL THANK YOU)							
For Skill Names: MissyHissy exhaustive and up-to-date list of BG + EPs + Store + Custom skills here .							
For Lot Names + Trait Names: NonaMena's tuning mod tutorial & full list of patch 1.67 CommodityKinds here .							
<ul style="list-style-type: none">- Buzzer for his incredible mod, Moar Interactions, without which this tuning mod would not be possible: download here.- sittingbear (over at Nraas forum) for revealing the potential of Buzzer's mod for my gameplay needs- Nraas website and forum, for providing insights over the years on how to help townies autonomously gain skills- Flotheory (at MTS), fellow french simmer, for pushing me to launch stuff publicly (which is no small feat for a pathological perfectionist like moi)- radicalchick (at MTS) for requesting this tuning file for her "Nothing is Free Challenge". It pushed me to *finally* share it publicly. Also, thanking her for making me giggle when she shared some of her sims' misfortunes (are there better laughs than that? Nah, I don't think so.)- enablellama (at MTS) for indicating that I could package the mod as a tuning file to put inside the "Mods/Overrides" folder all while keeping Buzzer's mod in the "Mods/Packages" folder. Brilliant!							

ABOUT THE NAMES

The "Trait Names" follow the format of their CommodityKind

The "Skill Names" follow the format of their CommodityKind (except for Store Skills)

FUTURE / POSSIBILITIES

May or may not happen. I like to keep my options open.

- Create missing custom skill books (including toddler skill books versions & ~~child skill books versions~~ there is no child skill book in the game, just general children fiction books)
- Create tuning to push townies to autonomously "put away" skill books in their inventory (*exclusively* pushing for skill & career books)
- Create tuning to push townies to autonomously pick up skill books from their inventory (*exclusively* pushing for skill & career books)
- Create toddler-sized bookshelf that automatically populates all existing toddler skills upon object placement on house lot & on community lot alike

NO COMMODITYKINDS FOUND FOR

Human sims trait "Shy" (only found: TraitShyPet)

Human sims trait "Vehicle Enthusiast"

Human sims hidden traits: Burglar, Can Apprend Burglar, Can Salute, Immune To Fire, Makes No Messes, Pizza Appreciator, Rocker, Private Eye.

Technical hidden traits (see SimsWiki): Simbot, Genie, Wished for World Peace, Wished for World Misery, Wished for Long Life, Wished for Beauty, Wished for Large Family, Wished for Happiness, There and Back Again, Advanced Art Training, Advanced Art Training Brilliant, Advanced Art Training Masterpiece, Kraken Cooldown Trait, Descendant Hidden Trait, HoverBot, BipedBot.

COMMODITYKINDS INTENTIONALLY NOT ADDED

Mainly because these EA traits and skills are focused on types of sims who I think, from my gameplay perspective, should not be busy reading skill books (human sims in robot mode, occult creatures, uni mascot, future world sims, Servobots, Pets - pets don't have an animation to browse bookshelves anyway).

Technical hidden traits: BePlantSim, TraitLycanthropyHuman, TraitLycanthropyWerewolf, BeMummy, TraitImaginaryFriend, BeGhostly, BeUniversityMascot, ServoBot, TraitRobotMode, TraitRobotModeOn, TraitWonderlandSim, TraitStinkySim, TraitFutureSim, BeTimeTraveler, BeAZombie, BeFrankenstein, TraitFairy, TraitImaginaryFriend, TraitVampire, TraitWitch, BeBonehilda, BeBonehildaGoofOff.

Occupation-related hidden traits: BeAFireFighter, BeGhostbuster, BeAGhostHunter, BeBartender, BeButler, BeDancer, BeMaid, BeRepairman, BeResortMaintenance.

All ServoBot trait chips, including hidden Servobot trait chips - if they exist.

List: ServoBot, ServobotAbilityToLearn, ServobotAfraidOfHumans, ServoBotChef, ServoBotCleaner, ServoBotEmotion, ServoBotEvil, ServoBotFisher, ServoBotFriendly, ServoBotGardner, ServoBotHandiBot, ServoBotHumor, ServoBotLove, ServoBotMusician, ServoBotMoodAdjuster, ServoBotNanny, ServoBotPainter, ServoBotSentience.

All Pets traits, including hidden pet traits - if they exist.

All Pets skills, including hidden pets skills - if they exist.

CUSTOM SKILLS INTENTIONALLY NOT ADDED

Mainly because these custom skills fit violent, adult or occult gameplays. Studyholics caters to vanilla gameplay.

"Assassination" custom skill by Twallan

"Ghost Catching" custom skill by Kolipoki

"KamaSimtra" custom skill by Twallan (adult)

"Vampirism" custom skill by Pudding Face (see "Enhanced Vampire" mod description)

OTHER STUFF I DID NOT INCLUDE & WHY

Mostly because they didn't make sense to me, but if I get requests, I'll add them.

Skilling up at parties, since you hardly read at those (*some of us wish we could, though*).

Skilling up at protests.

Skilling up at funerals.

Skilling up at bake sales.

Skilling up at picnics.

Skilling up underwater (on Diving Lot).

Skilling up at Swimming Pool Lot (might change my mind about that).

Skilling up at bar lots (I **might** change my mind about it, though, if I get requests).

Skilling up at the Arcade community lot (will add it if I get requests).

Skilling up inside rabbitholes (there is likely no bookshelf inside of rabbitholes so that would not work anyway).

Skilling up for pet traits / pet skills (it is not realistic for townie pets to learn from skill books - they don't even have the interaction to pick up a book from the bookshelf).

Skilling up for townies with any Lifetime Rewards trait (townies who would have such traits, would already have regular traits that are affected by this tuning, so it seems unnecessary to target specifically Lifetime Rewards traits with this tuning mod).
