

Timestamp	Slide No.	My Question
8/25/2021 11:51:58	8	why Yukawa terms each need one right-hand and one left-hand particle coupling with Higgs
8/25/2021 12:08:26	20	B-anti-B in pp collision. Is there a (small) component that is coherent?
8/25/2021 12:11:58	25	Can you explain what is R(D) and R(D*)? Sorry if I missed it.
8/25/2021 12:17:55	34	Please explain the different lines in the figure.
8/25/2021 12:27:29	42	Does 3.5-sigma significance refer to the significance of observation or is it referring to distance from expectation? What is the SM BR?
8/25/2021 12:30:47	51	Can you explain the two scatterplots? I don't know what I am looking at.
