[1]

[2]

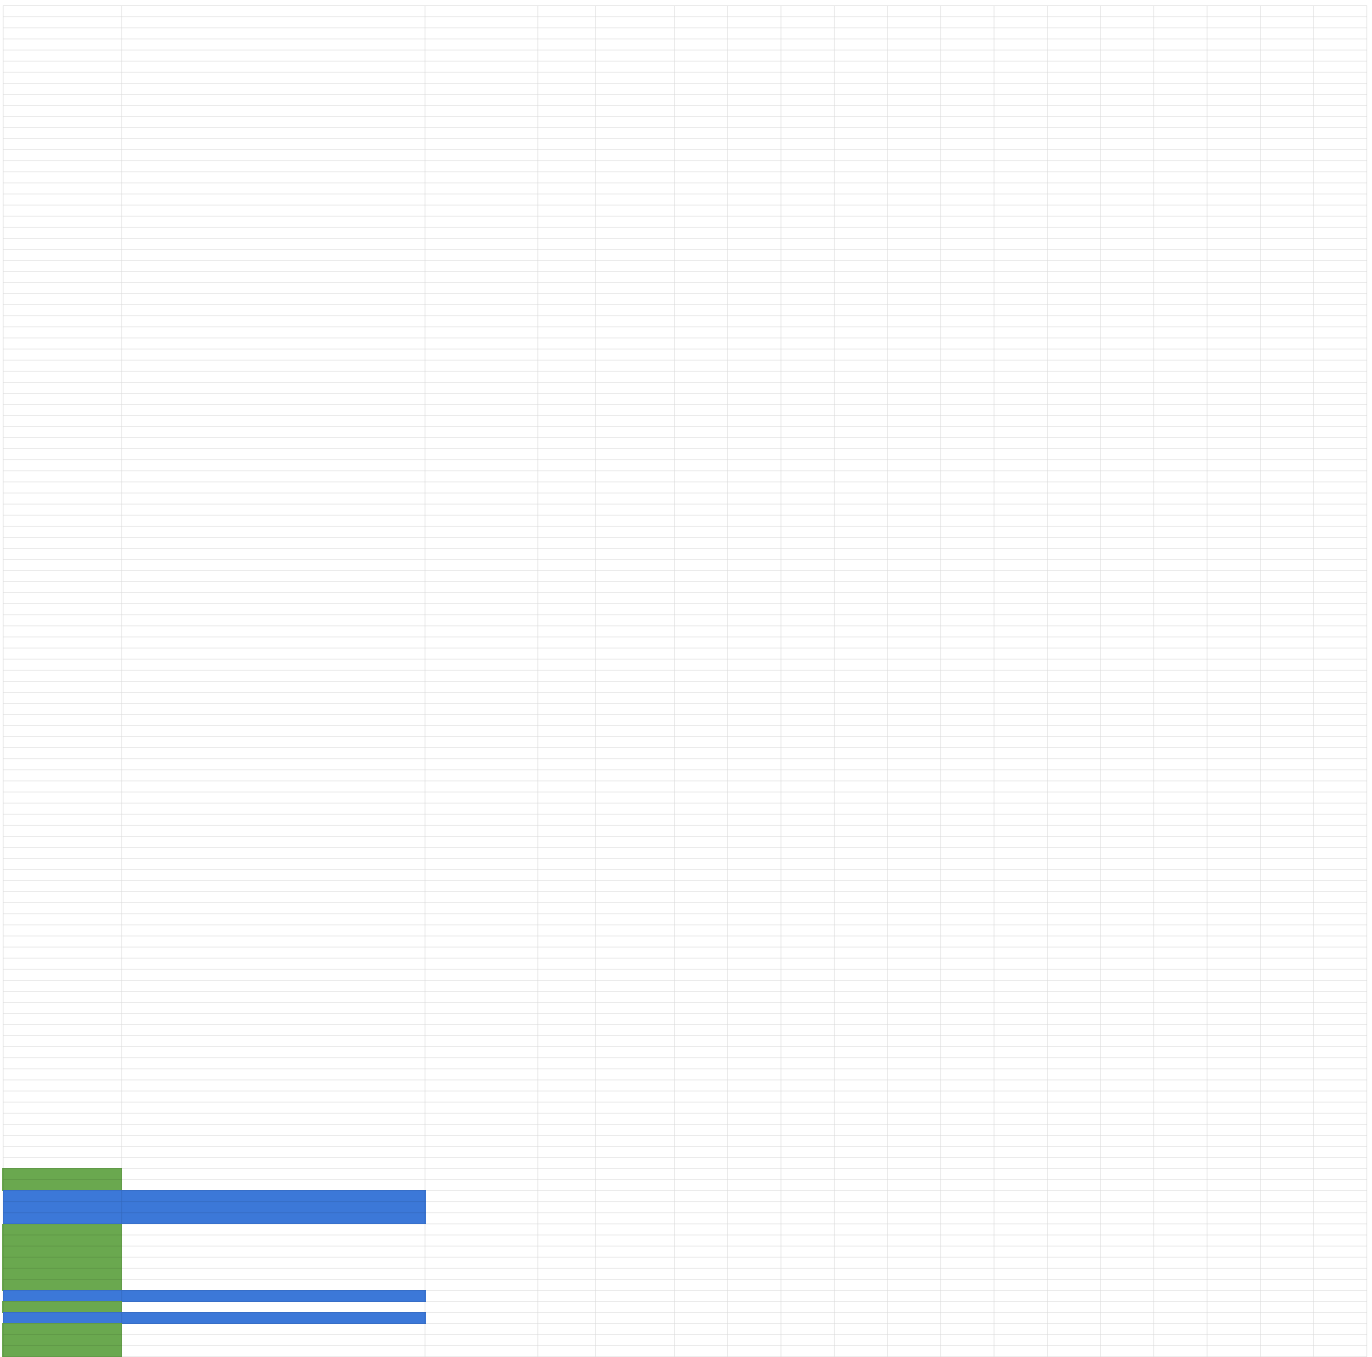

[3]

[1] Pretty hard on proxies but not dead -PRAGMA

[2] This API is super weird, sometimes you will get full retries, sometimes not, it could be a Combo with weird characters causing the website to error up (not sure) -PRAGMA

[3] This config is slow and does use a lot of CPU, this is due to the convoluted hashing process it requires the client to do. -PRAGMA

[4] Pretty hard on proxies but not dead -PRAGMA

[5] This API is super weird, sometimes you will get full retries, sometimes not, it could be a Combo with weird characters causing the website to error up (not sure) -PRAGMA

[6] This config is slow and does use a lot of CPU, this is due to the convoluted hashing process it requires the client to do. -PRAGMA
