

Category	Sub-Category	App / Package	Size (archive)	Size (disk space)	Reasoning	Site Distro	Other Distro		
Networking	Backup	rsync [1]	1,128	5,438	mentioned in gnome/bugzilla and was proposed in [2]	Linux Mint MX	Ubuntu, Ubuntu Mate		
	Clipboard Manager	clip-it-gnome [3]	178	1,418	has a V1 issue with clipboard clearing when closing an app and provides useful functionality	Mintplex, MX	Ubuntu, Ubuntu Mate		
	Clock	clock [4]	578	2,518	useful for those wanting to use a Mac OS styled clock	Ensis, Voyager, Enlightenment	Ubuntu, Ubuntu Mate, elementaryOS		
	Clipboard Manager	clip-it-gtk [5]	2,483	14,111	100,000+ downloads while mentioned having other alternatives in browser		Ubuntu, Ubuntu Mate, Ubuntu Budgie		
	Password Manager (POT)	libsecret [6]	262	3,431	most users who are making/keeping their POT or SDD keys	Linux Mint MX	Ubuntu, Ubuntu Mate, Ubuntu Budgie		
	Remote Desktop	remmina [7]	6,711	17,148	is used as a way to remote into other systems or systems of remote family members [8]		Ubuntu		
	Screen Reader	orca [9]	718	6,185	improves default setup for accessible users		Ubuntu, Ubuntu Mate, Ubuntu Budgie		
				18,370	38,178				
	Desktop	Clock	gnome-clock [10]	487	1,634				
		Font in a Row	font-viewer [11]	487	1,634				
News		news-viewer [12]	115	844	should be removed if SDD partner's News has the same features	MX	Ubuntu, Ubuntu Budgie		
Meeting		gnome-meeting [13]	2,534	2,441			Ubuntu, Ubuntu Budgie		
Calendar		calendar [14]	6,495	35,488			Ubuntu, Ubuntu Budgie		
Calendar		gnome-calendar [15]	163	1,434			Ubuntu, Ubuntu Budgie		
Sketch		gnome-sketch [16]	455	1,102	should be removed if SDD partner's Sketch has the same features				
Tasks		tasks [17]	103	882					
				36,461	68,881				
Graphics		Image Organizer	gnome-photos [18]	2,146	7,492	includes basic image editing features like crop, red-eye removal, and color adjustment, not any Linux Mint		Ubuntu, Ubuntu Mate	
	Internet	Chat	gajim [19]	1,148	5,545	IRC is our primary support medium, so having an IRC client pre-installed is useful	Linux Mint, Mintplex, MX		
		Chat	gajim [19]	18,748	141	highly used in FLOSS community and useful if Telegram is our secondary support medium, [20]			
		Chat	gajim [19]	15,527	19,848	is as useful as a text area with HTML and templates to longer writing	Mintplex		
		Multimedia	Music Player	gnome-music [21]	2,367	8,114	parties in a video player and can't be used efficiently as an audio player substitute	Linux Mint, Mintplex, MX	Ubuntu, Ubuntu Mate, Ubuntu Budgie
			Videocon	gnome-video [22]	2,918	5,195	has nice pics and videos from websites, parts of these are already bundled for thought	MX	Ubuntu, Ubuntu Mate
			Settings	Firewall	ufw [23]	864	3,518	useful as an entry to have in Settings Manager	Linux Mint, MX
Monitor Color Temperature				gnome-gtk [24]	384	1,482	wellness feature	Linux Mint, Arandri Linux	
System	Boot Repair			boot-repair [25]	1,403	4,789	fixes boot issues (only for live sessions)	Linux Mint, MX, Enlightenment, Ubuntu Mate	
	Backup			rsync [1]	648	3,332	really useful from system failures due to software installation / upgrading	Linux Mint, Mintplex, MX, Enlightenment, Ubuntu Mate	
	Disk Partitioning			gparted [26]	461	1,171	available in the repos and maintained in gnome/bugzilla		
	Disk Management			gnome-disk-utility [27]	375	1,189	provides partition auto mounting, ISO mounting, USB ISO writing	Linux Mint	Ubuntu, Ubuntu Mate, Ubuntu Budgie
	Disk Usage	gnome-disk-usage [28]		94	371	useful as a monitoring in gnome/bugzilla		Ubuntu, Ubuntu Mate, Ubuntu Budgie	
	Firewall	gnome-firewall [29]		37	161	useful as an entry to have in Settings Manager		Ubuntu, Ubuntu Mate, Ubuntu Budgie	
	Log Viewer	gnome-log-viewer [30]		102	712	useful as an entry to have in Settings Manager	Linux Mint	Ubuntu, Ubuntu Mate	
	Package Manager	dpkg [31]	2,362	6,246	gnome software is fine for beginners, though still quite buggy, but not useful for that package (Linux Mint, Mintplex, MX)				
	Package Info	gnome-software [32]	3,462	15,488	shows what version is currently installed				
	Theming	GNOME Theme	gnome-theme [33]	327	8,415	includes Gnome's official desktop theme (used for themes gnome-theme , gnome-theme)			
GNOME Theme		gnome-theme [33]	486	3,417	adds blue variant to the already shipping Yaru theme				
GNOME Theme		gnome-theme [33]	1,654	113	is second most popular theme, no longer supported and has large recommended dependencies				
GNOME Theme		gnome-theme [33]	314	7,132	is, instead of a theme, theme used by default in ubuntu studio				
GNOME Theme		gnome-theme [33]	1,188	22,786	is the most popular theme, but not supported in gnome/bugzilla				
GNOME Theme		gnome-theme [33]	11,494	147,849	very popular icon theme, 1st on GNOME				
GNOME Theme		gnome-theme [33]	1,476	6,486	replaces the already installed yaru-gtk theme and is a popular icon theme, 2nd on GNOME				
				28,411	375,174				
Others		Compression	zip [34]	45	118	to be able to open .tar files (it's a "bug" package for a ZIP file)			
		Tracer Plugins	gnome-tracker [35]	41	274	available in the repos and very useful as a search engine gnome/bugzilla			
	CJK Keyboard Input	ibus [36]	5,140	48,748	makes it easy for CJK users gnome/bugzilla , gnome/bugzilla to get up and running and used by apps like Zoom [14]				
	GNOME Theme	gnome-theme [33]	15,498	68,881					
	GNOME Theme	gnome-theme [33]	282	1,141	helps make it easy for users to customize the appearance of Gnome (if we ship any or user install any)		Ubuntu, Ubuntu Budgie		
	GNOME Theme	gnome-theme [33]	384	1,482	wellness feature		Ubuntu, Ubuntu Mate		
	GNOME Theme	gnome-theme [33]	18,370	38,178					
	Help	Handbook	gnome-help [37]	264	467	requested to be installed in gnome/bugzilla for enabling federation			
		Power Management	gnome-power-manager [38]	148	768	highly installed app based on popularity of other distros like KDE and conflicts with I3			
Power Management		gnome-power-manager [38]	102	488	diagnostic tool for power consumption and power management				
Power Management		gnome-power-manager [38]	288	882	improves battery life		Ubuntu, Ubuntu Mate		
				812	2,188				

Check please whether include apps that have to be added
 Please remove the apps that are recommended by others
 SDD gives entries includes apps that are good to be added
 Red entries include apps that are recommended to be removed
 Need that install in some distros
 Apps that install in space from 10 to 30 mb

[1] alternative - luckybackup (mentioned in docs)

[2] alternative - dockbarx (not in repo but also includes a xfce panel plugin to replace window buttons)

[3] alternative - keepassx (hasn't been updated since Oct 2016 - archive 10.8mb, disk space 46.5mb)

[4] includes 2 qt libs not in qt5-style-plugins

[5] provide a suitable equivalent to Microsoft's RDP app

[6] alternative - pysolfc - 11mb (archive), 42.1mb (space)

[7] alternative - nomacs (includes qt5 libs) and is 14.5mb (archive) and 63mb (space)

[8] includes 2 qt libs not found in qt5-style-plugins

[9] alternative

* audacious (used in Manjaro) is 1,835kb (archive) and 9,258kb (space)

* pragra (used in opensuse) and is 2,293kb (space)

* clementine (used in MX) is 18.2mb (archive) and 76.4mb (space) and uses libqt5 libs

[10] alternative - guvcview (has more options that can be controlled by the user - archive 1.2mb, disk space 4.2mb)

[11] without Recommended packages (chafa) its 339kb (archive) and 77.5kb (space)

[12] requires fonts-noto (18k), fonts-roboto (3k), fonts-roboto-unhinted (2,376k).

If recommended is enabled, the size increases to 225mb (archive) and 646mb (space). It also includes noto-cjk-extra (131mb), noto-color-emoji (10mb), noto-extra (69mb), noto-ui-extra (12mb), and noto-unhinted (253k).

[13] elementary-xfce-icon-theme only takes up 19.3mb

[14] includes the numix-icon-theme package which is 2mb (archive) and 49.7mb (disk)

[15] compared the manifest file of ubuntu 20.04 with the japanese 20.04 and here are the additional main packages

IME: mozc-utils-gui

Qt libs: libqt5network5, libqt5svg5, qt5-gtk-platformtheme

Localization: firefox-locale-ja, fonts-noto-cjk-extra, gnome-getting-started-docs-ja, gnome-user-docs-ja, language-pack-gnome-ja, language-pack-gnome-ja-base, language-pack-ja, language-pack-ja-base, libreoffice-help-ja, libreoffice-l10n-ja, thunderbird-locale-ja, ubuntu-defaults-ja (not in main repo)

main packages needed to be installed by xubuntu to support japanese: ibus-mozc (brings in ibus), mozc-utils-gui, fonts-noto-cjk-extra (brings in fonts-noto-cjk)

ubuntu-defaults-ja is found on in ppa:japaneseteam/ppa and it depends on

language-pack-ja

language-pack-gnome-ja

firefox-locale-ja

fonts-noto-cjk

fonts-noto-cjk-extra

poppler-data
cmap-adobe-japan1
ibus-mozc
mozc-utils-gui

<https://linuxfan.info/ubuntu-18-04-ja-remix-compare>

https://qiita.com/outou_hakutou/items/f6529f2abc31d3b11d3c
mentions installing fonts-takao as it was the default in 16.04, installing NT UI JP fonts, and ubuntu-defaults-ja from PPA

<https://sicklylife.jp/ubuntu/2004/settings.html>
mentions decompressed windows zip files have problems and installing the PPA solves this issue (link above also mentions this)
