Open Science Prize Potential Resources

This spreadsheet provides an initial of potential data resources which Open Science Prize entrants may seek to utilise in their platforms and innovations. Users should always be aware of the licence terms and conditions under which data is accessed and used. The community is invited to edit and add to this list with other resources which have the potential to be utilised for open science.

Key for data access column: F = Free access; L= Login registration required; D = Data use certification; I = IRB approval; H = hybrid mechanism
