What is Fyrus?												
what is rystiff												
Fyrus will be a community of crypto-enthusiasts, and a trusted exchange platform that	gives back to the very same community that uses it.											
Get rewards for being active												
On Fyrus, everytime you have to pay transaction fees you will be rewarded at least 809	in Furnis takens with reference to the average orice											
Rewards programs are also being devised to reward users for providing liquidity, encountries	raging growth of the platform and other actions that support the community and its decentralized governance as a whole.											
Limited supply of Fyrus tokens												
Pyrus tokens are limited in supply. Once tokens are fishly distributed, was token when it -	quired for use on the platform will have to be bought from the market. No new tokens will be created.											
Currently we are finalizing on a quarterly token burning program, which will further lim	it the amount of tokens in circulation.											
Best of All												
Fyrus aims to integrate the best parts of others combined with solutions to problems,	while incorporating blockchain technology and decentralized governance, in order to provide low cost, fast and secure transactions f	or end users.										
Secure and Trustworthy												
for the form where to be reliable to the form of the f	ty features such as multi-signature, offiline signature, and a secure and reliable layered architecture.											
security for an exchange is a top priority, as such, Fyrus will be intorporated with secur	ty reatures such as muti-signature, omine signature, and a secure and renadie layered architecture.											
Fyrus will store as much digital assets in cold storage as possible while still maintaining	a functional exchange.
