Hopefully we will uncover the secrets of the mountain. Gameplay wise we are protective group and potentially we will become a merchant hub. Our stance on nukes are they should only be used to protect the greater good or the Mountain itself.
M.A.D (Mutual Acquistioners of Destruction)	https://discord.gg/3XxMjA	1-2	Unknown	We are the Little Rock Saints. We lost Superboil CXXII to the Anaheim Jets in a hailshut call from the ref that kicked all of our players off the field, and lead to Joe Montana IV running it down to score a touchdown, in the final seconds of the game. Our objective is to search and collect all balls and ball-like objects in West Virginia.
New Republic of Virginia	https://discord.gg/0vFZZT	1-2	Unknown	Organization of ragtag adventurers based upon acquisition and guarding all the nuclear missile site codes in a "mutual" agreement with the world. Not interested in the apparent squabbles of the rest of the wasteland and sees that keeping the codes protected is the only way to ultimately help the wasteland, thus disregarding small tasks as irrelevant.
SplitStream	https://discord.gg/WaSA4B	1-2	Unknown	The New Republic of Virginia is a group dedicated to picking up the pieces of America, starting with rebuilding what once was... it's going to take a lot of work - more than walls and buildings we have to rebuild the American spirit from the ground up, starting here in West Virginia.
The 7th ward Rangers	https://discord.gg/V7JvWh	1-2	Unknown	Our main objective is to push the human race towards the future, no matter the cost. If we see you as a threat towards the future we set, we eliminate you, otherwise we have a truce. Anybody from any race, most factions, or age are welcome, so long as you respect our goals.
The American Preservation Society	https://discord.gg/DK4A4j	1-2	Unknown	We are a ranger group based from the 7th ward of New Orleans. We spread across the us and are now based within West Virginia. We take what we need to survive and we look after our own. Justice isn't a priority. Minutemen are seen as an enemy they are KOS.
The Cold Unforgiving and Nefariously Threatening Mafia (C.U.N.T. Mafia)	https://discord.gg/3Y3dHw	1-2	Unknown	Purpose: To archive and protect any information and artifacts from the pre-war America we all know and love. Also to reclaim and establish settlements on American Historical sites, such as the Greenbriar.
The Federal Emergency Management Association	https://discord.gg/shUNYH	1-2	Unknown	The Cold Unforgiving and Nefariously Threatening Mafia is a faction of wanna-be raiders that have some semblance of class. I have posted a set of rules earlier and I plan to flesh out the discord server soon. Our main focus is to play the role of classily dressed mafiosos that, while evil, aren't the type to ruin other players fun. We focus on carrying out activities commonly associated with organized crime while still following a rule set that ensures we don't act in bad taste.
				If you decide to join this faction, you will have to engage in combat, build, gather resources, and loosely follow orders. This faction is open to new and experienced players alike. Racism of any kind will result in an immediate investigation and possibly expulsion. Oh, and we strongly want to capture those nukes.

We want this to be a group of function towns. We will help, harm, trade, and play as we want.
