Notes on the columns, etc.:
- The "Year" is the year of enrollment (e.g. 2020 refers to students entering freshman year in fall 2020)
- A weighted GPA is where classes' grades are weighted on a 4.0 scale (A=4, B=3.0, C=2.0, D=1.0). A weighted GPA is where honors/AP classes get an extra point, therefore bumping up the grade point percentage and allowing for a GPA of more than 4.0 (an A becomes a 5.0, B becomes 4.0 etc.)
- Percentage of in-state enrollees for 1994 and 1997 calculated through dividing CA resident admits by all admits.
- Used GPA of enrolled students (as listed in common data) and some more actions provided that data, but I used GPA of admitted students for those that did not.
- UC Irvine's 2013 and 2015 data is blanked due to no data found on average GPA.
- UC of Houston's 2011, 2015, 2017 data is blanked because of the lack of GPA info.
- AA = Affirmative Action
- All races are non-Hispanic numbers except for Hispanic/Latino and Chinese/Latino.

Any other content that you think would help students or teachers?
