

Institution:	Role/Title:							
Georgia Institute of Technology (Georgia Tech)	Digital Collections Archivist							
University of Wisconsin-Milwaukee	Head, Digital Collections and Initiatives							
Grand Valley State University	Metadata & Digital Curation Librarian							
UChicago	IR Manager							
Rockefeller Archive Center	Head of Digital Programs							
The TriCollege Consortium: Bryn Mawr College, Haverford College, and State Archives of Florida / Florida Memory	Bryn Mawr Digital Collections Librarian (TriCo convener of digital asset management working group); Haverford College Archivist (member of working group)							
DePauw University	Education and IT							
University of Oklahoma	Systems Librarian							
University of Houston Libraries	Director of Repository Services							
CSU Northridge	Bayou City DAMS Project Manager							
Data Curation Experts	Systems & Emerging Technologies Librarian							
Boston College	Owner							
St. Lawrence University	Head Librarian, Digital Library Program							
Jesuit Archives	Director of Digital Initiatives							
Arizona State Library, Archives and Public Records	Associate Archivist							
CNY Library Resources Council/Empire State Library Network	Digital Content Coordinator							[1]
Library of Congress	Asst. Director/Manager, New York Heritage Digital Collections & Empire Archival Discovery Cooperative							
Cleveland Public Library	Chief of National Digital Initiatives							
SUNY Geneseo	Digital Library Strategist							
Lewis & Clark College	Systems Librarian							
American Museum of Natural History	Library Director							
BeyondRecognition LLC	CEO							
Duke University	Head, Enterprise Services & Portfolio Management							
Lorain Public Library System	Director							
Utah State Library	Director							
University of Illinois at Chicago	Digital Library Services Coordinator							
University of Arizona Libraries	Digital Services Librarian							
Linn-Benton Community College	Head, Office of Digital Innovation & Stewardship							
History Center of San Luis Obispo County	Electronic Resources Librarian							
Westfield State University	Executive Director							
Lafayette College	Librarian, Metadata/Digital Projects							
William Paterson University	Co-Director of Digital Scholarship Services							
Western New England University	Digital Initiatives Librarian							
Queen's University Library (Kingston, ON, Canada)	Metadata and Systems Librarian							
Beloit College	Systems Coordinator							
Museo de Arte Moderno de Buenos Aires	Digital Resources Librarian							
Royal Botanic Garden	Head of the Library							
Irish Traditional Music Archive	Marie Skłodowska-Curie fellow							
City University of New York (Central Office)	University Dean of Libraries and Information Systems							
Metro								
Bethel University	Digital Library Manager							
The Frick Collection	Digital Preservation Librarian							
Susquehanna University	Digital Scholarship Librarian							
University of West Georgia	Head of Special Collections

Contact notes	Communication notes	Institution	Level of interest	Willing to pay	Migration	Briefly explain how you see your institution contributing to the hosted service development by way of participating in the Hydra-in-a-Box pilot.	Contact Name	Email	Role/Title	Type of institution	Type of content	Timestamp	If yes, which repository platform?	
Contacted 2/23/17 "strongly interested" and need to talk to their Director re staff development. Community with possibilities to explore in more detail about how the pilot works for them. Technically would be a CONTENTdm migration at some point, willing to pilot as a proof-of-concept. Want to know what our plans are, want to share their plans.	2 - Public library interested in migrating from CONTENTdm. willing to pay	Cleveland Public Library	1 Hosted Service beta tester	Yes	Not sure yet	We are a unique institution with digital content of our own and digital content of partners that we'd like to explore preserving. We have several problems of public library digitization units and would make a good test case for a hybrid of potential users.	Chatham Ewing	chatham@cpclibrary.org	Digital Library	Public Library	archival material	9/14/2016 11:10	DuraCloud	
Contacted 2/23/17. Interested in beta only. Contacted 2/27/17. Beta only. Only if we have the information with beta and can back to you as we have all the beta to go to spread the information with March 31/17 - not ready to pilot, want to be kept updated on the project.	1 - Greenfield interested in piloting, but not able to do so until next year. We have a lot of digital content but not "IT support" of digital content but "not IT support"	John Andrews	1 Hosted Service beta tester	No	Not interested	We are a very small organization with no IT support, but a lot of digital content that has been created over the years and stored without much regard for its future. We are interested in exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Alexandra Bass	abass@jandrews.org	Associates Archive/Private archive	archival material	8/3/2016 13:27			
Contacted 2/27/17. Beta only. Only if we have the information with beta and can back to you as we have all the beta to go to spread the information with March 31/17 - not ready to pilot, want to be kept updated on the project.	2 - Indicated interest in DuraCloud but not on the beta. Great partners.	Duke University	beta	Yes	not sure	Per Hydra you are interested in local installation testing in Q4 2017.								
Contacted 2/27/17. "We are in the midst of meeting with library directors from across the state to discuss the pilot. If we have the information with beta and can back to you as we have all the beta to go to spread the information with March 31/17 - not ready to pilot, want to be kept updated on the project."	1 - Greenfield interested in testing and willing to pay. Building a DPLA service hub. Have many other institutions with digital resources ready to launch.	State Library Archives of Florida/Florida Memory	1 Hosted Service beta tester	Yes	Not interested	The State Library Archives of Florida acts as an archive capacity to libraries and archives across the state. We have several institutions ready to launch digital resources. At the same time, we are building a DPLA service hub. We would like to investigate whether Hydra-in-a-Box could be the best option.	Katrina Hartmann	khartmann@flda.org	Statewide Digital/ Government	archival material	1/17/2017 13:23			
Contacted 2/27/17. "I'm part of working group that is testing different options. We will talk that to them and see what other options. I will get back to you after we have that report."	1 - Identified by Hannah	Lebanon Public Library	1 Hosted Service beta tester	Yes	Not interested	We are in the very initial stages right now. My institution doesn't have a digital repository at all. A couple of the universities in the state have decent collections (JHU and Dartmouth) which our hub would want to aggregate, but we also want to host a repository so that smaller institutions (like the University of North Carolina, etc.) would have to host their own. We'd like to know if it will cost us to go with Hydra-in-a-Box. We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Jill Morris	jill@lebanonlib.org	Program Officer	Consortium				
Interested in local installation	1 - Identified by Hannah	University of Houston Libraries	1 Hosted Service beta tester	Yes	Not interested	The University of Houston (UH) Libraries are committed to migrating the content in the UH Digital Library (UHDL) Hydra-in-a-Box in a three phase project (dubbed the Hydra-in-a-Box Project). Our implementation team consists of digital archivists, librarians, librarians, one digital collections librarian, and one digital librarian. Phase One, scheduled to conclude at the end of 2016, is creating an evaluation to support digital content preservation and access (Hydra-in-a-Box). Phase Two, scheduled to begin in early 2017, will focus on preparing digital content and migrating content from CONTENTdm to Hydra-in-a-Box. Phase Three, the implementation of the Hydra-in-a-Box project for the UH Libraries, the State Library Archives of Florida, and the State Library of Ohio, will begin in late 2017. We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Andy Wender	awender@uh.edu	Bayou City DMC/ College or university	archival material	7/11/2016 12:06	CONTENTdm		
	2 - Displace DuraCloud migration, very interested in hosted service, willing to pay. Understood the need to contribute time and participate in evaluation. Local beta an immediate candidate for a content migration pilot.	Georgia Institute of Technology (Georgia Tech)	1 Hosted Service beta tester	Yes	Displace DuraCloud	The Georgia Tech Archives would be very excited to participate as a Hosted Service beta tester. We have been following the Hydra-in-a-Box project and are very interested in exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Wendy Hagerman	whagerman@gtlib.org	Digital Collection/ College or university	archival material	6/13/2016 10:51	DuraCloud		
	2 - Not yet. Dates and interested in piloting.	SUNY Geneseo	1 Hosted Service beta tester	Yes	Not sure yet	I can talk the lines for a smaller installation, and can probably get testing from admin for beta, who are VERY EXCITED about Hydra-in-a-Box. Not sure yet. I like the idea of exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Angela Grant	grant@geneseo.edu	Systems Librarian/ College or university	article, books	10/24/2016 6:52	Not sure how much material we have in displace, or how much of it we want to move		
	3 - ContentDM AND DuraCloud migration, willing to pay. Interested in beta testing. Might be a better beta testing option?	CUH Northridge	1 Hosted Service beta tester	Yes	ContentDM / DuraCloud	We have three digital archives as well as a metadata/linked data specialist who would be able to help with the Hydra-in-a-Box project. We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Lucian Magpason	lucian@cuhnorthridge.edu	Digital Library	College or university	archival material	7/11/2016 14:48	CONTENTdm / Displace	
	3 - ContentDM migration, willing to pay. Very good conditions with their understanding of the need for staff support and any commitment to the pilot.	Arizona State Library, Archives and Public Records	1 Hosted Service beta tester	Yes	CONTENTdm	ASLP is a compilation of digital collections contributed by institutions throughout Arizona. ASLP contains nearly 120,000 digital objects, across 200+ collections, contributed by approximately 100 institutions (e.g. libraries, archives, historical societies, museums, government agencies, nonprofits, etc.). ASLP has plenty of content and variety to choose from for a pilot, and its focus has always been on providing access to users.	Ryan Ehrhart	erhart@aslp.org	Digital Content / Government	archival material	8/4/2016 11:24	CONTENTdm		
	3 - ContentDM and possibly Shelf Space willing to pay. On beta beta, very interested. Willing to conduct any beta if that is useful.	St. Lawrence University	1 Hosted Service beta tester	Yes	CONTENTdm	We are very interested in participating in the pilot and would be willing to provide feedback in whatever manner and frequency that would be most helpful. Additionally, we would also be willing to conduct our own survey of our students, faculty and others of your institution.	Eric Williams	ewilliams@stlaw.edu	Director of Digital Content or university	archival material	11/14/2016 11:41	CONTENTdm and possibly Shred Shelf		
	3 - ContentDM AND DuraCloud migration, not willing to pay. Interested in beta testing. We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	TCU (Tommy Bart, Howard, Stormont)	1 Hosted Service beta tester	No	Not interested	We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Gina Swamy	gswamy@tcu.edu	Director of College or university	archival material	10/4/2016 10:22	CONTENTdm and Displace	Other possible platforms to explore in the near future	
	3 - Interested in hosted though a complex migration solution with CONTECM and other options, willing to pay. Interested in beta testing.	ONY Library Resources	1 Hosted Service beta tester	Yes	Not sure yet	AMP is a compilation of digital collections contributed by institutions throughout Arizona. AMP contains nearly 120,000 digital objects, across 200+ collections, contributed by approximately 100 institutions (e.g. libraries, archives, historical societies, museums, government agencies, nonprofits, etc.). ASLP has plenty of content and variety to choose from for a pilot, and its focus has always been on providing access to users.	Daniela Joyce	djoyce@ony.edu	Archivist/ Director	Ma/ non-profit	audio, books	6/18/2016 12:45	CONTENTdm (and others)	
	4 - Displace beta testing interest. Interested in evaluating beta in which it integrates with other systems such as ArchivalSpace through a microservices API will be testing beta.	Routledge Archive Center	2 Beta tester	Yes	Not interested	We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Hilal Ahmad	ahamad@routledge.com	Head of Digital / Private archive	archival material	6/16/2016 6:52			
	4 - Displace beta testing interest. Interested in evaluating beta in which it integrates with other systems such as ArchivalSpace through a microservices API will be testing beta.	University of Wisconsin-Milwaukee	1 Hosted Service beta tester	No	CONTENTdm/ shared information	We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Ann M Thorton	thorton@uwm.edu	Head, Digital Col/ College or university	archival material	6/11/2016 13:62	CONTENTdm (and possibly beta)		
	4 - Displace beta testing interest. Interested in evaluating beta in which it integrates with other systems such as ArchivalSpace through a microservices API will be testing beta.	Boston College	2 Beta tester	Yes	Digital/ overvalued testing	We have an able and motivated staff, a strong need to migrate to a new system, and a large variety of materials that could be used for testing. Our materials archive is BCCO. While we do have some digital, we would also provide a large body of sample objects for testing.	Betsy Pratt	bpratt@bc.edu	Head Librarian, / College or university	archival material	7/11/2016 12:32	Digital/ eventually migrate as well		
	4 - ContentDM, Preservica, Omeka, not willing to pay. Hannah identified as a good potential partner.	Grand Valley State University	1 Hosted Service beta tester	Yes	Not interested	We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Mark Schultz	mschultz@gvsu.edu	Metadata & Digital/ College or university	archival material	6/15/2016 4:21	Preservica, Omeka, CONTENTdm		
	4 - Good beta testing candidate, not willing to pay. Interested in beta testing. We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	University of Oklahoma	1 Hosted Service beta tester	No	Not sure yet	We have a large beta testing candidate, not willing to pay. Interested in beta testing. We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	David Conroy	dconroy@ou.edu	Director of Digital Content or university	archival material	6/3/2016 9:57			
	4 - Interested in beta testing. Migration from Omeka, willing to pay. Small digital archive.	Lewis & Clark College	1 Hosted Service beta tester	Yes	Omeka	We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Mark Durr	markdurr@lewisclark.edu	Library Director / College or university	map, photographs	11/10/2016 10:10	DuraCloud		
	4 - Interested in beta testing. Not much information.	CSULB	2 Beta tester	No	Not sure yet. ETRM	We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Tom Adams	adams@csulb.edu	Archivist/ Technical/ Private archive	archival material	7/28/2016 12:10	CONTENTdm		
	4 - CONTENTdm, Digital Commons, not willing to pay.	Duquesne University	1 Hosted Service beta tester	No	CONTENTdm	We are currently exploring the Hydra-in-a-Box pilot as a way to explore preserving our digital content.	Brooks Cox	cox@duquesne.edu	Systems Librarian/ College or university	archival material	6/3/2016 5:27	CONTENTdm, Digital Commons		
	4 - Possible hosted option for a museum, not in development.	American Museum of Natural History	1 Hosted Service beta tester	No	Not sure yet	Feedback support for variety of digital material. Interested in beta testing. Interested in beta testing.	Ken Lee	kenlee@amnh.org	Chief of Information Systems	Commercial	will not sure yet	7/26/16 9:24		
	5 - Only interested in information, not in development.	Library of Congress	2 Non-beta tester	No	Not interested	Not interested in beta testing.	Kate Oswald	oswald@loc.gov	Chief of Information Systems	Commercial	will not sure yet	10/21/16 9:26		
	5 - Beta testing potential hosting provider.	Duke University	2 Beta tester	No	Not sure yet	Interested in beta testing. Potential migration service consultant.	Mark Bayard	mbayard@duke.edu	Chief of Information Systems	Commercial	will not sure yet	7/26/16 9:24		
	5 - Beta testing potential hosting provider.	BeyondRecognition LLC	1 Hosted Service beta tester	Yes	Podcast	Auto-Classification via Visual Identification - not required.	John Marks	johnmarks@beyondrecognition.com	CEO	Commercial	will not sure yet	10/27/17 8:45	Podcast	
	5 - per Hannah this person is no longer at UChicago	UChicago	1 Hosted Service beta tester	Yes	Not sure yet. Displace/Dura	We are looking ahead at the possibility of migrating Florida Memory to the future, a future, numerous smaller libraries, archives, historical societies and museums in Florida have asked us to make recommendations for out of the box digital content management systems. We are very interested in using Hydra-in-a-Box as a beta tester for our needs while still being fully beta.	amy buckard	abuckard@uchicago.edu	IT Manager	College or university	journal, 6/16/2016 9:23	Displace/Dura		
	in/8 Second FL state archives entry	State Archives of Florida/ Florida Memory	2 Beta tester	Yes	Not sure yet	We are looking ahead at the possibility of migrating Florida Memory to the future, a future, numerous smaller libraries, archives, historical societies and museums in Florida have asked us to make recommendations for out of the box digital content management systems. We are very interested in using Hydra-in-a-Box as a beta tester for our needs while still being fully beta.	Katrina Hartmann	khartmann@flda.org	Education and IT/ Government	archival material	6/22/2016 13:47	DuraCloud		
	in/8 THDS second entry	The Historical Commission, Gray Man College, Hamilton College, and Swarthmore College	1 Hosted Service beta tester	No	CONTENTdm	We are a consortium of three small, liberal arts colleges that currently have a complex network of shared digital asset management systems. We are very interested in using Hydra-in-a-Box as a beta tester for our needs while still being fully beta.	Rachel Aygal	raygal@thcds.edu	Byrn Moor Digital/ College or university	archival material	6/20/2016 9:28	CONTENTdm, Displace, Inspec, EMARK, Omeka		
	in/8 2nd St. Lawrence entry	St. Lawrence University	1 Hosted Service beta tester	No	Not sure yet	We are a consortium of three small, liberal arts colleges that currently have a complex network of shared digital asset management systems. We are very interested in using Hydra-in-a-Box as a beta tester for our needs while still being fully beta.	Eric Williams	ewilliams@stlaw.edu	Director of Digital Content or university	archival material	7/25/2016 11:43
