Map	Author	Theme (20p)	Creativity (10p)	Fun (10p)	Detail (10p)	Feedback
MTC - Do The Snake Dance	X3kuba3X	19	7	6	6	Some parts are hard to get smooth.
Power Slides through the cold MTC	evo somesybmo	17	10	5	4	Creative route. It's too bad the fog makes it almost impossible to see.
MTC Putting Things Together	sonixerik	20	5	6	6	That's a LOT of rollercoasters. But it's an interesting way to connect everything.
It's Snow Desert (mtc)	pjw	17	8	7	8	The finish is a little wonky. But mostly pretty fun!
It's Always Aliens (mtc)	pjw	20	10	10	9	My favorite of the two you made. Creative turnaround after the bumper.
MTC Conjunction	Citoxe	20	10	10	7	A little confusing at first. But really fun once you learn it.
MTC - Bucklige Welt	bcs JR1988	20	6	8	8	Overall fun map! Could have had a right arrow above the drop after CP3.

MTC - Do The Snake Dance	X3kuba3X	20	9	9	8	This track showcases a perfect example of transitional and tech track in one. Good calculated jumps and turns mixed all with rollercoaster parts. For me the track is a bit too fast near the end, but still - good job on it. Really digging the part after rollercoaster - driving on the road under constructions.
Power Slides through the cold MTC	evo somesybmo	20	8	6	4	Interesting idea for the map, really. For me the track doesn't quite flow well, and the fog isn't really helping while driving. Scenery.. well, there's really not much of it. As for the route again, roulette boosters are not too good of a choice for such map, as they're well.. random. Overall "weird" track but in a good way, just not quite in my taste.
MTC Putting Things Together	sonixerik	20	6.5	6	6	Not much going on on this track. Repetitive rollercoaster sections are a bit boring and there's just nothing too interesting about the track sadly. Scenery could be improved on. The only thing about the map that I personally like is the part with city loop.
It's Snow Desert (mtc)	pjw	20	8	9	8	Another EnvMix track by you, nice. This one is pretty much enjoyable on the same level as your previous track. I just don't understand the tube at the end. Track flows nicely and is a nice one to hunt.
It's Always Aliens (mtc)	pjw	20	8.5	9	8	Caught me by surprise with snow car in desert. Pretty good track with nice usage of jumps and transitions. Track flows really nicely with such high speed in few spots. I enjoyed it quite a lot. Also - damn aliens.
MTC Conjunction	Citoxe	20	9	8.5	8	I usually don't like stadium tracks but this one is pretty neat. Really good transitions and usage of ideas. Jump through a sculpture could be more easy to see with a sign added, but besides that well done on the track.
MTC - Bucklige Welt	bcs JR1988	20	7	6.5	7	Overall not a bad track but 90 degree turns don't make it too enjoyable to play or hunt. Cool idea with a dropdown from the bridge though, it's smooth but part after it it's not. Could use more details added around and signs to indicate sudden turns.

Average	7.00	2.75	6.50	9.20	9.20	4.65	7.45
vee somesymbolsandontdisplay	really really solid no auto/diffs, cool and double route. 7.00		8.00	this is a winner for me! great scenery fantastic curves and features. I like weird loop out but the fit is right think so fit all good. 10.00	nice clean route, awesome control of terrain only the signs dont really let u what to do. 9.00	a really strong map but the route is unforgoing imo and the plots are badly calculated, getting a clean run requires hitting a lot of random bounces which is really annoying on a high map. fantastic horizontal tho but that's not the map to do. 3.00	obviously weird ambience, superb route and cool mod. fits well together, great map. 9.00
X3hub31X		The buglides are a very fun idea, but badly executed. The route is made out of chaotically placed items using the free item mode. There's barely any scenery and I got lost a bunch of times while trying to drive this map. I don't really enjoy playing this track for long. Scoring between CPs is also bad. 2.70	Overall its a simple but very fun track. Map is pleasant to drive and look at. The somewhat basic scenery looks pretty good. Some outpouster sections that repetitive but the route is still nice. You probably wouldn't even be able to tell that there was a theme for this, which is a good thing. 7.60	Pretty hard technical track. Loved the route, except for the last landscape section which felt awkward to play. This particular environment is perfect - felt like the desert was intended to drive on those blocks. Scenery is awesome, too, and I don't have any trouble finding my way through the track. 8.40	Probably the best track out of the 7 in this MTC. The track isn't too hard, has a couple of stunts - bonus points for that - but is love with the start. It's such a cool element. Only problems I had were with the snowfall, but it's not that much of a big deal. Could use some more scenery too. 9.50	Something about this map just feels off. The route is pretty average. Scenery is my favorite part of this track. Some of the jumps feel very janky. Didn't really like the sequence of the CPs. 6.30	Tough technical track. The dirt sections of the map were very enjoyable, even on keyboard. Some of the road turns felt awkward and the track lacks a bit of scenery. Don't have much to say for this track. 5.90
