Reentry Service	Cal Stat San Bernardino Reentry Initiative	Provides basic services to parolees returning to the Inland Empire from California prisons thus reducing recidivism, increasing community safety and breaking the cycle of incarceration. CSRI operates under contract from California Department of Corrections and Rehabilitation (CDCR), the University Enterprises Corporation at California State University San Bernardino, and partnering agencies.	(909) 327-2981	https://www.csricenters.org	COVID-19 Update: CSRI continues remote operations during the COVID-19 pandemic. CSRI staff attempt to contact all students every week and provide a variety of remote classes via Zoom technology.
Reentry Service	Female Offender Treatment and Employment Program	The Female Offender Treatment and Employment Program (FOTEP) is designed to reduce recidivism through intensive substance use disorder treatment, family reunification, vocational training, and employment services. Focusing on gender-responsive counseling services, the program is intended to provide a smooth transition for female offenders from custody to the community. A comprehensive case management component is used to assess the needs of the female parolees to help determine the services and programs to assist in their recovery and future employment. FOTEP allows female parolees to have their children reside with them as they progress through their treatment and recovery.
