- Possible
- Only possible via a glitch
- Possible w/ the questionable Flash Projector quality glitch
- Impossible
- Impossible, but worth looking into
- Possible, but unused in a full run
- Inputs restricted due to category restraints
- The achievement doesn't exist in this version
- Once thought to be impossible, but is possible

Welcome to the Goime 500 Input Challenges spreadsheet!

Here, you can find how many of the 500 achievements are possible to get if we restrict which buttons can be pressed.

This spreadsheet is constantly updated as new discoveries are found, and I will also continue to add more features as I deem necessary.

[1] As of right now, this is the most difficult achievement to get by a very large margin, but it is confirmed to be possible. <https://www.youtube.com/watch?v=2hWcZpfCwXs>

[2] NOTE: The maze duration achievements have to be gotten LAST in this category for a full-game run, because once you enter the maze, you can't go back.

[3] Unlike in the the V1.14 category, there is a glitch that can be used to get out of the maze in this category, which means that this achievement can be gotten whenever without restrictions.

[4] If not for the quality glitch, this achievement must be gotten LAST in a full-game run, because otherwise, there's no way out. With the quality glitch, though, it's possible to escape just fine.

[5] If it's possible to do the race skip and land just far enough to the right when you reach the end of the race so that you can hit the end button, then these achievements would be possible to get. However, I've never been able to get it in practice.

[6] In order for this to be possible, you need to pull off the same strategy used in the V1.14 category. The glitch used to get the rest of the achievements involves hitting the end button immediately, with no time to wait.

[7] If not for the Quality glitch, this would not be gotten in a full-game run.

[8] If not for the Quality glitch, this would not be gotten in a full-game run.

[9] If not for the Quality glitch, this would not be gotten in a full-game run.

[10] If not for the Quality glitch, this would not be gotten in a full-game run.
