## **About the Data**

In an effort to track the state of school reopening against the backdrop of an ever-changing pandemic, the <u>Center on Reinventing Public Education</u> reviewed the fall 2021 reopening guidance for all fifty states and Washington, D.C. Our review includes an analysis of the most pressing indicators that state and local leaders are facing in reopening schools this fall, including state policies on masking, vaccines, full in-person instruction, virtual learning options, and continuity of learning plans.

We strive to provide information that is accurate, complete, and current. If you have questions or see information in our database that should be updated, please contact us at crpedatabase@uw.edu.

State	Summative Assessment Scores Released	Participation Rates Reported	Details
AK	<u>Yes</u>	64% overall	N/A
AL	<u>Yes</u>	93% overall	"Superintendent Dr. Mark Sullivan said the scores revealed a mix of successes and challenges for the school system. Sullivan said the school district anticipated some learning loss attributed to the COVID-19 pandemic and has developed a framework for recovering that loss and raising student achievement."
AR	<u>Yes</u>	97% overall	N/A
AZ	<u>Yes</u>	84% ELA 86% Math	"Results released by the department Friday showed that 38% of students got "satisfactory" grades on the language test and 31% passed the math test in 2021, compared to 42% for both tests in 2019, the last year for which test results are available."
CA	<u>Yes</u>	All grades	"Grade-level Smarter Balanced results in math and English language arts generally show academic progress but at a slower rate than in prior years. The scores also show a widening of achievement gaps between student groups."
со	<u>Yes</u>	51% to 88% across the state	"Students of all races and ethnicities who tested in each grade and subject area on CMAS saw decreased performance, with Black and Hispanic students tending to be more impacted across all grades than their peers from other race/ethnicity backgrounds. Results for students with disabilities and English learners continue to be significantly lower than other subgroups, with the gap actually increasing in some cases. Male and female scores decreased in math and English language arts CMAS tests, with females showing greater drops in performance than males. "These CMAS results indicate that the demonstrated performance in math has dropped to the lowest it has ever been and in English language arts has dropped to 2017 levels."
СТ	Yes	93.5% overall	"The results reveal that achievement in 2020-21 for these matched students was substantially lower than in 2018-19, especially in Math, and especially for those who learned in hybrid or remote models. This pattern is seen for students with or without high needs. Similar patterns of greater declines among remote students are seen when data are disaggregated by race/ethnicity. Black/African American and Hispanic/Latino students experienced the largest gaps in proficiency rates pre- and post-pandemic. For all race/ethnicity groups, gaps were larger in math than English language arts (ELA)."
DC	No	NA	The US Department of Education granted Washington D.C. a waiver from the annual assessment for the 2020-21 school year.
DE	<u>Yes</u>	60% overall	N/A
FL	<u>Yes</u>	93% overall 96% ELA 93% Math	N/A
GA	<u>Yes</u>	55% to 79% across high schools	N/A
HI	<u>Yes</u>	N/A	N/A
IA	<u>Yes</u>	93% overall	" increases and decreases in English language arts proficiency when compared to last year, the variances of which are similar to those from prior years.  Proficiency increased for students in grades 4, 6, 8, 10 and 11. Third grade results declined the most, dropping 14.8 percentage points. ISASP results in mathematics show a 1 to 7 percentage point decrease in the percent of students scoring proficient when compared to last year for all grade levels assessed."
ID	<u>Yes</u>	N/A	N/A
IL	<u>Yes</u>	N/A	"The data show larger decreases in proficiency among younger students, who may have struggled more to engage in remote learning than their older peers."
IN	<u>Yes</u>	95% ELA 98% Math	"Mathematics: Indiana students in elementary and middle school experienced significant academic impacts (ILEARN). English/Language Arts: Indiana students in elementary and middle school experienced moderate to significant academic impacts (ILEARN). English Language Proficiency: English language learners in elementary and middle school experienced significant academic impacts (WIDA ACCESS 2.0). Other Subject Areas: Likely that similar academic impacts extend to other content areas"
KS	<u>Yes</u>	N/A	N/A
KY	<u>Yes</u>	88.9% Elementary 84.1% Middle 76.4% High School	"'We knew these results would not be what we wanted to see, but the previous two school years saw extreme challenges,' said Education Commissioner Jason E. Glass. 'We can use this information to address the gaps caused by COVID-19 disruptions and provide our students with the supports they need to be successful. This is one of a variety of tools our districts use on a regular basis to gauge where our students are."
