Berry seed	A berry seed. Found near a river.	Sustain Plant until Visually Complete			2	Healthy, Fertilized	Sunlight	Berries. Berry Bush.
Countryberry seed	A Plant Created from the乡道 berries and Berries.	Sustain Plant until Visually Complete			2	Healthy, Fertilized	Sunlight	???Countryberries???
Iron + Platinum Mine	A makeshift Mine Created under the Foundations of the castle. It is located in the surface safely and is connected to the castle.	Miners Bring Materials	NA	Searching	1 Shovel Blight, Iron, Platinum			
Excavation	An Escape route being developed through the castle walls, leading out of the castle walls.	Excavator	Wait 2 Days		1 Shovel Blight 1 Big zombie, lagepus	New Passageway, Rubble		
Crafting Operations	Operations which require Direct Action on Vectors part	Completion		2	Nearing Completion			

Project	Completed?	Staled for removal?
> "Another" idea. This time for giant atom, although hopefully smaller for normal matter as well. With a really more or less formulaic design approach "not" a true one with big enhancements directly attached to it like the other two I guess. The main idea is to have a giant atom with a small central core, and then lots of experimentation or very small scale effects, and also tools for rapidly test large amounts of materials. Like a giant atomic lab. It would be a real "Alchemical Equipment - 1" botter with Engraved Runes of Sustain Spell in order to self-repair and self-reinforce itself. It would be a giant atom with a bunch of alchemy bottles, and jugs, and probably some other Alchemical Equipment. It may also have a huge array of materials, and various holders and such to place them in, bound to the giant atom, and then move it through them. Some "Samples" in the KifKrahnium Ord		
Iron Ore		
Iron - 1 wheel metal		
Pure Platinum		
Steel		
Silver		
Copper		
Iron		
Gold		
Shimmering scales		
Rings		
Several of various types of "feath" issues		
Concentrated		
Red Ruby Stone		
Blue Stone		
Int		
Phoenix Juice		
Fusion Fuel		
Super Fertilizer		
Plants		
glass		
100 mm		
Dragon's Serum		
Dwarf's Wealth		
Mithril		
Purple Gem (probably less destructive to use a whole one than take a sample and then cut)		
wood		
[purple]		
Large compatible to the tubes and valves presumably already in the schematic kit, of Fusion Sigil (two inputs, one output).		
1 or 2 small compatible to the tubes and valves of both Crucible Sigil and Crucible Sigil III that can be switched between, with a recharging column with like 10 outlets.		
* Some animated bone parts to automate stuff like stirring things for long times.		
* Some animated bone parts to automate stuff like stirring things for long times.		
Burner burner		
* Some animated bone parts to automate stuff like stirring things for long times.		
An "undead" "fangs", fused with identification scroll, and probably melted to different metals to make them look like fangs. They will be fused to the bone at the end of an arm that can reach everywhere and also put a pier on that arm so it can pierce.		
Giantic Man using Crucible mace as a base		
Two legs for Travelling hand lantern		
Man with a sword and shield from enchanted and enhanced Mantis Blade		
Cataclysm Arm		
Phoenix's Flame Crest		
Internal Outfit/House Field Fix Providing mana to other Objects		
Armed with Steel or Strong Silver-Infused Material		
Power Armor		
The fat zombies won't die in the muscles themselves		
From the zombies pluck off the muscles themselves		
stainless steel chairman on the outside of everything		
and then the inside of the chairman is filled with mana		
An incredible durable Glass casing for the head.		
On the back of the head there is a small teleportation device that can teleport to one of the arms		
A new awesome idea!		
Make the shape something like a four pointed star like the below like a cube, with a vaulted top and bottom and a ring of bone, and a "tiny" hole with a valve in it, to minimize the energy needed to maintain the vacuum.		
The main idea is to have a giant atom to be able to exhale the pressure.		
Also needed is some kind of railway thing to seat the seat from the lid.		
With a small amount of mana you can open the seat and the seat will move like it might be best.		
Shaping Sigil, Changing Sigil, and a potion can will be installed in it.		
There's also a large melting tool to the side with a valve into the mana cage and a small amount of mana to melt the cage and the cage will melt away, and the cage of each arm are a pair of rats are sharpened to be more human for the purpose of manipulating small delicate things.		Yes
The Hyper Train Choco		
Can be controlled by mana		
Is continuously accelerating to a certain limit.		
Will be able to travel underground		
Possesses special Displacement Discards at the front such that it cannot crash.		
Is able to travel in the air and land on the ground and gently landing.		
If it needs tracks then it will create tracks of a good distance before it.		
Good Death magic battery, made of bone and using the mana draining machine to drain mana from the user.		
Made of bone for safe containment.		
Sunlight crystals to light up the parts of our cities away from the light.		
For underground places or areas with lots of tall buildings.		
Will be able to travel in the air and land on the ground and gently landing.		
Sky illusions that replicate what the skies look like. To give the illusion of open space.		
Good for psychological health.		
Create growing houses. Where you grow vegetables and various plant life in vertical layers on the outside.		
Allows for controlled sunlight.		
Can be controlled by mana.		
The floor deals in common tools. Another in magical etc.		
Good for sealed experiments on plants.		
Can be controlled by mana.		
Energy reactors capable of powering entire cities such as our future capital.		
Harmless electricity is used then no nuclear. Sealed source of clean energy there is apart from fusion power.		
Should give radioactive material for experiments and weapons.
