Farming Ancanes
Farming Tonals
feeding helmirth
Feeding the Helmirth
Feld/Vacuum
Fenology enemy spans in low-level void relic missions. Interception, excavation and disruption nodes are particularly egregious for this. Drop more reactant.
Fireworks emoter
Focus cap
Focus Lens
Focus lens
Forced proc on stances
Forma
forma
Forma
Forma EPs as a drop chance from relics
Forma EPs as a relic reward. I could settle for fully built as a compromise.
Forma crafting time
forma for crafting weapons
Forma should take an hour to build not 23.
Forma taking 24hrs to complete. There are over 50+ frames and having 1 forma a day to level a frame that most likely needs more than 1 feels very bad.
Forma, its tedious and boring
Forma, I like experimenting with niche weapons and trying weird builds, and the cost to do so is frustrating.
Fortuna
Fortuna rep
Fortuna requirements to use the gravimig
Foundry
Foundry building limit only one team at a time
Free rain zone emagates (daynight cycles)
From memory I think at low levels the electricity DOT was really annoying to deal with
Gated stores
Gates that needs two players to open
Gauss Deluxe (his silhouette looks like the capital letter A)
Gauss' battery
Gauss/Gauss helmirth build
Glaive heavy attack throw explosion. Its just CP. Make the chain bounces better.
Grinding mastery, constantly playing hydron and SO gets extremely dull after many hrs.
Greener helmet models without the protective face-masks/visors. If there's one thing I hate more than host migration, it's seeing a pointless Greener with a black hole of a mouth.
Greener Rollers
Group only encounters
Guarder eximus passive damage reduction applying to overguard
Guns
Halted mod capacity on items without borderline PZV catalysts and reactors
Harmon Systems Farm
Havert run into anything that annoys me... yet :)
Having to remove all enemies in defense missions
Having to hit multiple keys to do a secondary to cancel void speed buff.
having to level up weapons/gear and reducing grind.
Having to re-level each of the rank 40 weapons FIVE times
Having to redo divet grove for those auto-mobs
Having to scan an enemy multiple times to learn about their weaknesses/drop tables.
Having to wait for 3 days to craft a Warframe that already has a prime version
Having to wait for the right bounty rotations.
Helmeth
Helmeth invigoration
Helmeth Invigorations
Helmeth System
Helmeth system.
hema coat
Host ability to drop there team to host migration
Host based matchmaking
host migration errors
Host migrations breaking/resetting aspects of the mission
host shenanigan
how the enemies scale in missions. I think it's inherently broken and has been for a very long time.
humus
Hydron
Hysteria self-damage immediately building to a lethal level. Instantly killing Valky if she is playing at a high enough level and, say, runs into Violence or gets jumped on by a nullifier from above (yes, this really happens) - please replace with draining to ZHP with shieldgate invulnerability period so there is at least a tiny bit of counterplay (as opposed to now, where she's instantly dead without recourse)
I feel like I'm always diagnosed with the way events are designed. It feels like the worst form of gambling. I'm generally just expecting to be disappointed with the results of the revealed mod. Coming back to the game after a couple of years being away, I found as well others that had extremely convoluted reveal requirements that I'd never opened. It feels a bit unnecessary to have to do something like "Yes" in the 7th largest pool on forums after having caught
I hate how every new update comes with a brand new crafting material. It feels very gmisssy
I hate the lodges on top of doors that I always end up standing on top of when I'm bullet jumping through rooms
I NEED BETTER FIELDWORK/UNRAVING/GENETIC CRACKING
I would change the Platinum cost to Credits for boosting the Forge.
I would remove the Mastery Lock system. Why do we have to be a certain MR to create weapons? I know I am MR 30 and this no longer applies to me but it applies to my friends. I can't remember them strong weapons because they aren't close to being able to make them. I have a lot of other ideas that could go away or changed but this one is above all others in my opinion. It's an old idea that hurts the game for newer Tenno.
Igris
Igris Wrath
Igris wrath.
Important drops put in scramble and boring missions, e.g. survival and defense (farming for Ash in rotation C)
Inability to see others' trade attempt left
Inaros
Inaros
Inaros passive
Incarnon rotations
incarnon weapons
Incarnon being tied to headshot damage
Inconsistencies between similar abilities having caps or not
Incremental enemy scaling causing inconsistency in balance and enemy TTK for both incoming and outgoing damage.
Individual void traps pickup
infected ancient magnetic procs
Infested Salvage
infinite enemy scaling
Instakills with no mitigations (direct toxin damage when not a tank)
Instant death
Instant reload
Intentionally diluted drop table (i.e. Citrine's...)
Interact button reloads your gun
Intercept Missions
Interceptors
Invincibility
Invincibility, actually want it reworked cause enemies have no way to handle it.
Isolation Vaults. I just hate them.
Junctions
Junk resources
Jugler traps.
K drive achievement...
K-drive and archwings as individual gear replaced with a plexus for each
K-drives, they are absolutely useless. anywhere you can use a drive you can use an arching or karte more efficiently.
Kathe
Kuva
Kuva lich
Kuva lich RL mission
Kuva Lich's shattering Riven's
Kuva murmur
Kuva weapons
Kuva/Tenent element % rolls (I haven't had anything over 30%)
Kwabeet weapons
laser doors on corpus ships.
Laser on corpus like set Knockin you over
Losing the alliance as the alliance leader/creator disbands the alliance.
Lodges and obstacles that hinder you from climbing/jumping/Buddy
Lore - that bow killed me everytime I used it
Lose the time it takes to make a warframe. In this day and age a new player can find a different game and completely forget warframe exists during the 3 day wait period. Not needed anymore, you need to have new players constantly hooked on this game and having a half a week wait time for new players to experiences new frames doesnt work. Might of worked in 2012, not now.
Leveling up warframe/weapons after using forma on them
Leveling weapons
Liches
Liches and Sisters of Parvos
Liches/Sister
Lichessant Leech Kri's immunity
Lifestatus (from certain melee attacks & abilities)
limbo
Limit on how much kuva you can get from vendors (I have over 600 riven silvers, I can't use them fast enough)
Limit on number of Riven mods
Limited new player weapon/warframe slots. (Give a few more).
limited riven slots / inability to craft tau forged shards
Limited Time Cash Only Bundles
Limited time nightwaves
Larbs based on player MR (daily standing, trades...)
Lise support in survival
loading screens
Lockdown in missions
Locking things such as warframe parts or weapon parts behind rotation C of an urfun game mode that takes 20 min or longer for a 6% chance.
Loki
Long farms with no pity mechanics
loot enchanting abilities, remove them and buff base drop chance instead
Losing buffs if you fall off the map
Losing buffs on falling off the map
Losing mission progress when transferring hosts
loss of mod rewards on mission failure
low enemy count
Low HP defense objectives
Low percentage chance drops
Lusa puzzles
Lusa Stry
Lusa charging with vomitball. I think they are harder to find this wpa, annoying.
magnetic eximus
Make Demos standing farm and Ernst Larbom farm easier
make generic farm more accessible, a better tooltip/info for raijack/dwain (still just sad with both)
Make rotations ABC instead of AABC
Make the invigoration upgrade permanent after 10remove the bile cost from anchor shards
make the game back to a second job after a while warframe felt like a second job to me
Make universal medalions universal. And offer more standing
mastery rank for weapons
Mastery Rank-based progression (not Mastery Rank itself)
Max enemy count at an instance
Maximum ammo
Magical debt for rank up
Make stances that stop forward momentum when you're using the WE+combs

Awesome survey

Boop

The game at the start is enjoyable once you get the basics figured out, but when you master it all (frames, weapons... etc) it gets boring, just waiting for events or updates.

I wish I can contribute to someone or my clans. People love to be doctors, police officers, nurses, firefighters. Like a hero in our community!

Clemius Crakatus Maximus

I've started playing the game when the old starchart was still there, but took a giant break and restarted playing the game seriously when a friend mentioned it in 2019, been playing on and off since then

All your base are belong to us.

Ordis knows the secret to happiness. Also Octavia needs more song customization.

Keep doing what ya doing tenno

These are always a joy to fill out.

Thanks

Keep up the good work

I liked this one

Beans

Endgame depends on what kind of player you are. I'm a collector so I aimed to get every frame and weapon and when I did last year I think it was I felt like I completed the game and went elsewhere. Now I only check in few times a month to farm new primes and so on.

?

thanks for all the great work

next things that the dev should consider: an editor and a better match making (MMO)

gl hf as always

Remove Eidolon Lures, please just let me kill that thing with maximum rewards.

Was surprised there was nothing about the most important part of being a veteran - helping newbies.

Camera shake is accessibility, not a preference.

I would've brought up something that more personally affects me for "Which feature would you remove?" part, but given the recent story slip debacle, I opted to nominate the removal (or at least, tuning down) of a feature to increase the pacing of early-game WF, so newbies can more easily get a more exciting loadout. Subsequently this could fix some pacing issues in progression and increase retention

Current/Future Lore survey?

Good Luck everyone!

If I win anything in the giveaway, I would like you to give it to the 3rd reply in your results post, or a random low r/r player of your choosing. Cheers.

Thanks

10/10 survey, would take again

hello there

hello there

Disruption is the best mission type in this game

I didn't even notice that there was some kind of giveaway here imao

Thanks for the survey

Thank you!

Liked this survey

I want more mechanically difficult content. Not bullet sponges or player limitation

Limiting power is accepting that the game is unbalanced: I'd rather the power be entirely removed instead of it being disabled in one instance. Unless the power is a gimmick such as FFXI's blue mage.

forsen

DE should add rewards to certain game modes to encourage players to play

really though, fortuna was rough, still is

Hope this helps

It's a great game, with which I've had many beloved memories, will continue to have as well.

Hi :)

Hope you get the data you need.

Thanks for the survey!

none

Yard is meta

This is a sick giveaway.

Interested to see the community results

Endurance=teamwork=competitive but I'd just prefer "enjoyable". Endurance means spending alot of time which I have less and less of everyday, teamwork requires others but if optimized to be with less people or alone I'd always take the latter. Competition, I'd rather not deal with at all.

I hope all this data will be posted, been playing for a while but would love to know how other veterans treat the game compared to me

Hard questions! Love it, but I have to think more on what would be a feature that might be better off removed

I think players should be incentivised to interact more in clans and alliances

I enjoy these surveys even without the giveaways keep being awesome

Thank you all for the amazing job so far. Keep it up.

Over my long time of playing Warframe I feel that it has gradually drifted away from the more physical and meaningful matters the setting provides. For the last several updates we've gone from meaningless infested holes to a ship that may not even exist in physical space to whiplashing Serenitea conquest that isn't covered to literally a dream. It's all so meaningless feeling and I fear we'll never get back to trying to handle actual matters in the Origin system

Cheers as always

Thanks a lot for this survey

Hello

I love all of you at DE. Please keep up the amazing work Tenno. <3

I just hope Warframe gets some difficulty in it as for now everything is just a paperthin layer of resistance

I would love to see an Inaros rework in the future. He's my favorite frame but I feel like I'm throwing when I pick him in a hard mission

TE AMO BOCCA JUNIORS

Reworking old stuff it's easier than making a whole new thing. I hope DE reworks frames and some gameplay stuff like Railjack as a whole... PS. I drew the pink Rhino the other day. If yd ever need art, or stuff of the likes, I can help with that!

Thank you!

thank you!

I don't know at what point someone can be considered a veteran TBH, but in my opinion even though I've played this game for years, I still haven't done certain things in-game, neither can I confidently say I know everything there is to know about it.

Congrats on getting the Data of Hundreds, maybe even Thousands of Players. Digital Extremes will get in touch.

The question about endgame player level was unclear to me

Response

Thanks as always!

this was cute, and a nice way to see the WF community is as lovely as ever, thank you.

this survey is a not bad different view about older player, when you know much more about the game. you will find out it's really simple different with meta weapons/frames and off-meta, after years it still not change. so it's good that DE make a frame like Clogoth, and Hydroid rework, Hydroid might not actually be popular after this rework. atleast it's playable. Digath have great skill interaction, ex. like reworked sayrn.

Yes

Warframe is my main game with over 2k hours the only thing i dislike about it is how lucky you need to be with rng, like the survey says i'm a L3 player with literally everything mastered with the exception of the war and that's only because of rng and paying 516 platinum for a mele weapon that's not even considered as just "OK" is a waste. All in all it's a great game

Would love to help with giveaways although my luck isn't good. Just do what you do best and keep up the good work!!

Thankyou for the surveys. They're really nice to take part in

Hoping for bright Warframe future, sincerely, community partner

Just an addendum to this, I feel that for every Prime that DE releases there should be a rework of an older frame. The Hydroid rework was phenomenal and there are a ton of older frames that could use a new coat of paint.

Thanks for creating a great game. This keep help me through my depression after losing my mother. Proud to see this game is still going strong.

my longtime clan is pretty much dead. among the almost 200 members, a dozen-ish logs in everyday. When i play, most of the time i'm the only online member. On the other hand though, the only thing i can provide to another clan are resources for research, as i can't use voice chat, can't dojo-build for crap, and don't want to create my own essentials-only clan...

I've won in one of your previous giveaways so i just wanted to thank you! ☺ *_* 'D

Warframe sometimes feels like there is too much to do just to get to what you want. I understand platinum exists but the grind is ridiculous.

No comments at this time.

Interesting selection of questions! Really made me think about how i interact with the game.

Thank you for your time and efforts

Thank you for your time

Warframe is one of my favorite games and I am honestly so much less picky than a lot of other people are about it. I can have fun just playing railjack with my friends or doing whatever. I really do like "sidequests" like doing railjack because they give a sense of teamwork, but don't require like an insanely specific meta like most people require for eldion hunting parties and such.

Warframe rules

Game gets exponentially easier as you progress, to the detriment of long term replayability

I love this game, and from the mastery rank up tests, there's clearly mechanics the devs could use to make an interesting and engaging raid. I'd love to see it. But they have already said they have the next 5-6 years of content planned.

Thanks!

I hope DE does more quality of life updates like AOD.

Hope this was helpful

Thanks for the surveys!

I hope that Warframe gets raids/dungeons or any kind of end game

I want raids back, in a way that actually encourages teamwork

;)

Cheers! ^^

Keep up the good work

Cool survey, thanks for the work

I don't want raids, nor similar "endgame" content

Although interesting, I wish more surveys won current hot topics (e.g. the P25kip scheme) being discussed.

Thanks for the survey! Have a lovely week!

Curious to see the results

Cool survey idea

I'm psyched for Whispers in the Wall

Thank you for doing these. The results are quite often interesting to see.

Love that you do these! Really brings the community together and the results are always interesting.

Now, survey for new players

Please convey the need to the developers for the game to have a functionality that enables blocking of griefters in matchmaking, i.e. I don't want to be grouped with them again.

Thanks for the survey.

my guess is the average veteran will be ~4 years and MR25 :) too bad it wasn't a poll question (what we would consider a veteran). Would've liked to have known the community's consensus on that.

Thanks for doing these surveys, they're really cool

I love Warframe, I don't know if its either the depth touch in community with DE or if it's that there is always something to do, like farming more weapons or mods or improving my builds.

These are good fun to see results from

Best thing the game could do is a SIGNIFICANT seasonal.

Hoping this surveys will be relevant for the future contents of the game.

Thank you for posting surveys and results to domi.zone

It used to be my main game. It is not anymore.

Gotta get those weapon/loadout slot man

all these square make a circle - fat dude from diagonal Z

Response

There are many other things that could be better, real bosses with good mechanics, phases, skill checks and AI are on the top, worth doing endless missions are the second thing that comes to mind, then enhancing the modding system with more synergies, more sets that interact with abilities and so on. After that, reworking what's left off the old tower void times to bring them up to the new standards and that's it, you would have a much better game.

No idea what to put here so hi?

Hello

Franks for these surveys

Teamwork should not be required or severely limited for new activities as it creates toxic behaviour when the objective goes badly (think Agri with screening for the grineer raid vs half pub squad for the Infested raid). Low stakes and low expectations for pub matchmaking is what made the community great mo. I picked "endurance" for future more as a vote against "competition" and "teamwork". I'd like to be challenged on core mechanics (parkour, resource

I love participating in these quizzes when other Tenno make them, it makes me think back through my thousands of hours on Warframe.

Bugs and "features" aside I love this game and plan on playing it for years. This community is unmatched and the devs actually care (see Meghan responding to Twitch chat in a recent Devstream) which means a lot to me.

;)

That

hi :)

You're the real MVP

I can't believe I've been playing this game for 10 years

I'd like more teamwork and endurance, but I chose endurance for solo players.

Poor kava sources, need more weapons and warframes

how are the give aways announced? never seen an announcement in the reddit posts

didn't really understand what the competition/teamwork/endurance question was asking for so I just went for vibes

Finally managed to join one of your surveys. I was starting to feel depressed having missed so many of your surveys.

Thanks for the survey boss :)

Thank you for continuing to support the community and collect useful informations from the players

Thank you for your incredible work for the community! <3

Thanks for doing these surveys. Love seeing the results

If you do end up sharing this with DE, tell them to rework Oberon and Valkyrie! And be sure to say pretty please with sugar on top

Im not sure what to put here lol.

Ratjack is a tagfest. But I love ratjack. Please fix.

Would I be considered a veteran?? Sure I have 1000+ hours logged, but I've only been playing since last year... I'm not sure.

keep up the good work ^^

To hell and back with anyone who disagrees with me

I'm a Switch Player and intend to move to PS5 the moment I can. If you'd rather not wait that long to distribute rewards, then go ahead and leave me out of the giveaway.

I think people are way too hung up on endurance stuff, and a lot of advice is very poor for mid or low tier play.

Thanks for the giveaway

Have a great day :)

Give frost a rework. Make his snowglobe pickup able like the eximus do or like bott. Also needs a buff as it gets 2 shotof in steel path even with high strength.

I honestly forgot about the clan thing, so I wasn't sure what to put for the equivalent of I don't know. When I read the linked post, it seemed cool. Thanks for the survey!

Answer

I'd also like DE to rework Uranus spy mission. Like... come on, I'm 99% sure nobody has ever once said "Oh, wow, today's surtle mission is on Rosalind! That's so cool!"

It is ironic how we're asked when we joined the game, and yet that information has not been easily accessible for a long time now, which is especially frustrating for those who join well over 5 years ago. We should be able to access our statistics on the dedicated website.

While I would enjoy if the player's were made slightly weaker I dislike doing quests or KAH stuff because I feel the gameplay is too slow and I'm too weak.

Good survey

Thanks for taking the time out to host these surveys, I've been around to see the results for a while but I haven't really participated until now.

we have almost 55 frames already, DE needs to start releasing new frames like once a year or two and start reworking old ones.

Limbo players are evil

Wish warframe did some collab with other games

I want more music frame (shawzin needs a friend)

if I will be chosen for giveaway, better give it to some newbie instead

Thank you

Have a nice day!

I love this game and the people it led to me, I really do not get all of the negativity in the community, but, it's the internet, it's inevitable. Plus the "one mechanic you would like to remove" question is from a friend of mine, I don't like them seeing suffer and I don't see many other flaws overall.

hf gf

mostly just an endurance runner who has nothing better to do but kill lvl cap enemies with dumb weapons in the game would love more complex bosses/dungeons or raids and maybe instead of reducing power expand on it although I don't know how well that would go considering how easy you can get absurdly high numbers in the game

I recently revisited Cetus, and I forgot how terrifying the Chryms looked... they look like load people.

As a 2nd thing I'd remove from the game: The complete lockout from playing Warframe while you're stuck in the New War. That's an unforgivable game stopper. Also, I intentionally left the question about what I want most in the future blank, as I don't want any of those 3 options... I want solo content, not group competition/teamwork/whatever. (I've already won from this before, so I left my name/platform blank)

I started this game years ago when it came out and cleared a few planets before putting it away. I came back nearly a decade later so I am pretty unexperienced with later game content. This may make my survey submission null as I am not a veteran.

Thank you for this survey!

comment

Despite when I started the game, I stopped playing when the planes of eiddon came out. I started playing again during operation: orphix venom because friend recommendation

For context I played around 280hours and the New War is my only main quest remaining

There should have been an option for a solo clan. Your question on new frames vs reworks to me underlines the importance that each has, both are necessary to keep the game feeling fresh. You can't abandon old content otherwise new players can't enjoy it, but you also need new contents for long time vets players. Thank you always for these surveys. It's always extremely interesting to see the results.

is nice

Keep doing a great job, cheers!

thanks

Thank you!

Thank you for the survey! I wouldn't mind a more thorough exploration of this topic, especially since I'm one of those "veterans" who still don't have everything maxed out (not to mention tons of plat), or who either don't care about some content (Eldons, liches/sisters, rivens) and/or who still don't have a nuke/immortal build for every occasion and who still think that yes, Warframe can be hard (e.g. Steel Path)

So many good memories from this game

IMMR cuz lost access to old account, now i have to register for sheer :(

Whooot!

Sorry for the short and uninteresting answers i just woke up.

Reducing 'endgame player power level' could be a nice part of making new content, but it would also make some existing endgame content (levelcap runs) less flexible

Cross-Save is highly relevant to my answers, as my main account is on PS4, and I've been taking a break since mine broke just after TNW. I do have a PC account, but I mostly use it to claim logins and events in preparation for account merge. I simply don't care about the new clan event, since I probably won't be able to play it anyway.

Sopranos was great.

Thanks for the survey! Have a lovely week!

Never give up on this game please!!!

the 'remove an item/milestone' question threw me for a loop, I think there are few things worth removing, but there are a huge amount that need touched up or balanced for current game (foot grind for frames is: Dagath taking 2hrs while Cithine takes 6hrs and Ivars -100 perfect spy missions)

Playing this game for years for its content, without even chasing mastery. I find the power creep a bit out of control these days. Players hardly co-operate, as the pace and scale of the game requires everyone to be running around and killing in their own little pocket of space. Four solos, working next to each other, and not towards common goal. Also pls fix tyndal.

Nice work with the surveys :D

I would have put Chains of Harrow as an answer for when did I start if I could have

keep up the great work, perhaps with this veteran insight DE might actually listen and fix a thing or two that are pet peeves of us veterans

Thanks for the survey and giveaway. Shows how good the community can be

Thank you for your polls, they're much fun and very well made :3

Bro, I'm so happy! I loved looking at your surveys and this is my first time taking one!

This survey was interesting to think about since I'm a self-imposed MR 4 Pre-Quills Hydroid only player.

Appreciate you. Have enough plat. If I win, please give to a more needy respondent.

Nice

Thanks for this!

make a frame with a revised Channelling concept.

Messed up an answer, had to re-submit survey. Very important how much I hate daily standing caps. Please count this one instead of my last one. Actual comment: Former Frost main. Frost rework when? Also, as a Vauban main, his 2 is clunky. Jump pads have no practical use. Tether can be put somewhere else just to make it binary for laphold functionality. Flechette/overdriver would be great. Unrelated pipe dream, I'd like for the game to support no-re

Car crashes but the victims are cheese.

I hope they release some real new content soon, new weapons and warframes aren't entertaining at all

keep up the good work

tyty

I hope they make the game more balanced instead of everyone running 2 or 3 missions for efficiency sake.

coolio

Thanks for doing things like this

thank you

Just as a note, it'd be nice to add that although I burn out occasionally from Warframe, its still fun and away the best iteration in its genre.

Hi

I like hours I do not know what I am doing

I don't want the giveaway reward I just like taking surveys

It's super cool that you're doing this, thanks

I don't really need the plat. Feel free to select someone else if it lands on me.

Thanks for doing this!

We all sit together, Tenna.

Great survey especially for returning player like me. Thank you! :)

Thanks

Playing on and off since the founder days, it's been one hell of a trip watching the game, the team behind it and the community grow. Looking forward to more.

My answer

Honestly, the overguard/eximus rework should be reverted or nerfed in a way that doesn't kill CC and stealth Warframes

Nice

New enemy types for factions, mini bosses, is what I would like to see

Raid's are necessary (old and new ones)

]

I've been playing for YEARS with maybe a couple year break. My main systems were Xbox and currently switch. I am more than excited for cross save as I'm sure anyone else is. (bad times are not great)

With regards to rework/new frames, it highly depends on what is going on. Looking at Saryn, Grendel and the newly reworked Hydroid, I'll take one of those over a new frame because it helps close in the gaps between all the different frames (Bless Pablo)

nice survey!

Hi

Keep getting better

Thank you for taking the time to make these polls, looking forward to seeing the results!

I wish there were more enemy types so the missions didn't feel as samey [?]

Thank you for doing this Giveaway

forsen

Thank you for these! Always fun to see :)

No.

On the new warframe or a rework, I choosed "unsun" cause I want new frames but that comes with decent lore and no lazy copy pasted designs like the "New" mission type in the abyssal zone which is just the grineer ship and if thats what DE is gonna keep doing then I rather get reworks.

take care of yourself

Thanks!

I'm grateful for all the changes that have been made. The quality of life has gone up tremendously and things flow together more easily. The game is beautiful and fun. If I could add anything to the game, I would say bring back Excelsior Prime. It's been 10 years and most people that have him that still play have mentioned they wouldn't mind him coming back even after having to pay to get him. He's a figurehead in early content and his non-Prime version is

I find myself taking longer and longer breaks from warframe due to me lacking the time required to improve my frame as well as do the required content to get the resources I need the path to improvement in warframe seems to keep getting longer and longer and I feel less and less motivated to play the game as the mods seem further and further out of reach.

my warframe is strong

Comment.

Never thought I would get this far but its been a ride and im here for it

I think WF is in the best place its ever been atm

I love answering surveys. 3333

Well Hello There

Thanks for the survey! Always interesting to see the results! (I'm not a "hardcore" veteran, but I'm still a "veteran"!

You make me feel old :-o

Have a great week ahead!

Thanks and good luck with the study.

10/10 survey, please give me slots

surprised you guys don't add a "what feature would you most want added to the game?" question

Thank you

would like to see void dash back again

Umm... Comment?

warframe seems to be in a good place honestly other than the rail I'm pretty happy with how things are

like and subscribe

my wishlist for the game is to have an extra school for operator/drifter to switch between frames, like if we can bring 4 frames in battle and switch on the fly, that would be fun

I have Covid. On the 9th of September I ordered SUBWAY I didn't get the subs I paid for and they also didn't bring the drinks. I tried calling back that night and they hung up twice. Called DoorDash as thats who delivers thru THE SUBWAY APP. They said it has to be taken care of By SUBWAY themselves. I called Subway and they said just call back another time to get the order fixed. So I called today and the "SM" manager tells me it's not our fault and we

Frame is a good game. A really good game. But I don't think scaling back endgame power limits is strictly the right call. And by that I mean endgame endgame. Let the optimizers have their big numbers. And keep doing the split between steel path and standard play. That's all you guys really need I think.

Hope the answers are helpful

Thanks for your work!

Warframe is a treasured game of mine. I am always invested in it, even if I'm not actively playing.

It's been so long but I'm still breathing Vay Hek's air and I'm loving every second of it.

Gauss wears lightning McQueen crooks

so tth forma should be reduced to a 2-4 hour craft time instead of 23 hours. its such a needed material and it really should just be faster to craft.

Thank you for this wonderful game and all the memories I have made with it :D

I just did this for fun, give the plat to someone who needs it

Didn't play much in 2013, really only got into the game around the end of 2014. Hope that still makes me a vet.

fun

Have a great day!

The written sections of this are some hard choices, narrowing down the answers, I could probably write a whole paragraph on some of this stuff.

People will be pretty saty if charm gets nerfed but I feel that it would be healthier for the game overall. I also feel that with companions being made immortal across the board and most companion aspects buffed, the sore points of charm being nerfed are made significantly more takeable.

dayo

Good luck!

thanks for the links for context in survey questions

My answer

Thank you for these community surveys.

Fashion is the end game. I need more CORPRA skins in my life! 3 IS NOT ENOUGH! Also hope you are having a good day survey creator person :)

Thank you for the opportunity

Thank you for the survey!

cheers

You guys are doing great. I've been a Tenno for 5 years, MR 30, and Warframe is my most played game to this day. At first I fell in love with the game, then I fell in love with the community, finally the Dev team. Hands down DE cares about their players than most AAA game studios. I can't wait for the next 5 years.

fun survey

I also don't like overguard on eximus, lol

Hello

Make the 10 years I've been playing worth something L.O.L.

Just wanted to say Warframes a pretty cool game with a cool community. Everytime I take a break and come back to it there is usually new content and something new to play/grind for.

I haven't played in a long time because im on PC now, waiting for cross save so I can transfer my PS account. PLEASE add cross save asap I really want to play again T_T

Far game :)
