This is for all please save a copy and edit how you feel. I will try to keep this updated as new items are released.

This spreadsheet has been worked on for the past couple of month's and is designed to be able to let you keep track of all items available.

To use just check or uncheck the box beside/ under the applicable item and all tables will be updated.
There are boxes on the left side to collapse tables/sections of tables. Use these to show only what is important

For event items past their unlock stage, they should be marked as "LOCKED" and will no longer be counted as available.
    -To mark an item as "LOCKED" first **DELETE** the checkbox from the cell (copying and pasting over checkboxs gives an error) then type LOCKED
    -To mark a "LOCKED" item as owned, select the desired cell → Insert → Checkbox or copy and paste one

Items with "SPECIAL" tags are not available through drops, this includes Daily Order/ Social Rank/ Community Events/ Division Unlocks
Items that are only available through collections will be counted in the "COLLECTIONS" box and are not available until all items are obtained in that collection
    -Uniforms unlocked via Division Prestige will be counted under "COLLECTIONS"

To change the "Chrome Count" to a "Chrome Tiger Count" replace the "P" with "U" in the formulas on the "WEAPONS CHALLENGES" page.

Please message me with suggestions, any wrong information, or items currently hidden that are missing.
