@Naj33b	Create a platform like HackerOne - for white hat hackers & give bounties in HKN - if more people earn in HKN thus they will trade and we can easily hit 5BTC daily target.	najiburrehman@gmail.com		
@IICieco	Partnership with some related new project for aidropping if Holding HKN	blindcrypto@gmail.com		
Cryptofag	Use high-level hacks (like EtherDelta's) as marketing opportunities - contests / bounties etc.	@cryptowine (Telegram)		
Cryptofag	Open projects to the public (white hat hackers who may not be working for Hacken), and they are also rewarded HKN	@cryptowine (Telegram)		
Cryptofag	Bug-hunting partnerships with top exchanges (in return for reduced or free listings) + protection of hot ICOs (reward: airdrops of the ICO tokens to HKN holders)	@cryptowine (Telegram)		
@Prizmm	https://steemit.com/fr/@prizmm/fr-la-solution-de-securite-pour-la-blockchain-hacken-zappingtoken	prizmzer@gmail.com		
Cryptofag	Hack Bittrex, deface the webpage with "You have been hacked by Hacken". To restore service, airdrop 100 BTC to all HKN holders	@cryptowine (Telegram)		
Cryptofag	Organizations using Hacken's services must display in bold letters, font size 36, "PROTECTED BY HACKEN"	@cryptowine (Telegram)		
Doiman	It seems that HKN require trade volume , problem: it seems alot of holders are not selling as they bought HKN (albeit at a discount) when etherum was at around $300, in the later days of ICO It was at $600, so they got double the HKN , so in effect people are reluctant to trade unitl they get at least a return that refelct the ethereum price of today ...lets say 100%. Currently HKN trading at $1.7, so peolpe prefer to wait and see....hence the smaller volume. As a minimum , try to get it listed on coinmarketcap.com (i imagein it deo not cost alot if anything, it is the main reference site for comaring investment in coins. One goes there to see what is going up /down / volume / trends etc. etc..	@doiman (Telegram)		
Doiman	Work on McAfee hacked twitter account ..some PR ?	@doiman (Telegram)		
RickJamesBitch	Reachout to popular crypto youtubers for interview/promotion	@rickjamesbitch (Telegram)		
@kaspher	offer some public advisory services via blog or your website for people Who are getting scammed or hacked will spread the Hacken word. giants like Google. FB Yahoo beca	A		
@SunnyJ1	Fixed price offerings - Such as Contract Audit, Site Audit, Module Audit etc. Branding, such as Secured by Hacken. Unhacked by Hacken! etc.	@SunnyJ1		
Cryptofag	Be specific about the value proposition. Nobody cares about Hacken being "just any other cybersecurity company". It needs to be BLOCKCHAIN SPECIFIC	@cryptowine (Telegram)		
Cryptofag	Guerilla marketing - cheap banner ads on (1) Coinmarketcap, (2) Blockfolio....... and get featured on Coin Telegraph!	@cryptowine (Telegram)		
Jagath	No matter how hard the team is working to build the new products or something else, If you fail to do marketing it will not sell.	@jagadeesh_44		
Jagath	HKN didn't focus on building the community. There are only 974 members in telegram channel. And there has been no communication for a long time. No email, No announc	@jagadeesh_44		
Jagath	After adding HKN to major exchanges, Airdropping more HKNs for HKN holders would make a huge movement in HKN trading	@jagadeesh_44		
Jagath	The Idea of Hacken is excellent. But not many people know that Hacken even exists. Upload more videos in youtube.Do more interviews. Do more AMAs. Do daily announcements in twitter, telegram, facebook. Be active in social media. Other wise how will it reach out to new people? BE ACTIVE IN SOCIA MEDIA is the best way to make HKN popular.			
Dose	Hack Bounty introduction just like Bounty0x. None knews about Bounty0x until someone opened a bounty to find ETHERDELTA's hacker. The latter was found in 1 days and everyone at r/cryptocurrency was amazed by the speed at which this was solved. Hacken should clearly go this was too especially if the whitehats are skilled people.			
Cryptofag	Contact Forbes (Elaine Pofeldt) who wrote an article on Bounty0x0. Marketing means the difference between a $10m and $100m valuation.	@cryptowine (Telegram)		
	Hacken REALLY needs to learn marketing tactics from Asia/the West. Marketing is the biggest weakness I have seen across 90% of projects from Russian bloc.			
Cryptofag	First idea by IICieco is EXCELLENT. Offer upcoming ICOs protection services (payment = token airdrops to all HKN holders). This makes HKN a token that "accumulates" ot	@cryptowine (Telegram)		
Lost Knight	First idea by IICieco is EXCELLENT. Offer upcoming ICOs protection services (payment = token airdrops to all HKN holders). This makes HKN a token that "accumulates" other ICOs for free.			
Andrey	I will trade hacken only when it is convenient to trade - so better excahnge first - Kucoin will be fine.	@AndreyDeJong (Telegram)		
Andrey	Target upcoming ICO for partnership.			
Andrey	Perhaps members of your community can represent Haken on different events around the world (if they qualified to do so of course).			
Andrey	Call Snovio and ask them what they did.			
Jagath	Guys. Start posting the updates in social media. Even the HKN holders don't know what you guys are upto. You guys are completely failing to stay on top of the mind of crypto enthusiasts. No one knows in the world that you exist. Let the world know first.	@jagadeesh_44		
Jagath	Get it listed on CoinMarketCap first	@jagadeesh_44		
BTCMiner	Give us our money back			
Arunabha	Start a simple sample public blockchain and hack it or spam it for demo. Then exhibit how some HACKEN security product can safeguard it			
@fchakhovskoy	Create a competition with proven rules of evaluation to elect the Bests hats teams online. Wich team is the best ? The anonymous, The chaos computer club, a new challeng	@fchakhovskoy (Telegram)		
@fchakhovskoy	Question hats and let them explain how did they success to penetrate a system, is this so hard to penetrate a blockchain company ? What are the weaknesses of actual com			
@fchakhovskoy	I dont know how far its possible, choose a project which was audited by QSP or Crypto Ninja or someone else and try to find if they have missed any open security threat. This is a double edged sword an		<- killer idea ("steals market cap" from a big project)	
	If you find threats, with word of mouth will bring lot of investors and customers.			
@cau		@urocky13 (Telegram)		
@cau	If there any special tool or software being developed by the team, just go for patent and announce in twitter and other medium that you guys have filed patent.	@urocky13 (Telegram)		
@cau	Paid articles in CT and other prominent crypto related sites.	@urocky13 (Telegram)		
@fchakhovskoy	contact cryptobanks (omise go, bankex, utrust, bancor...,) and fiat banks, offer partnership			
@fchakhovskoy	John Mcafee advises Universa blockchain and will be releasing Mcafee coin on it, Hacken could help and test their security			
@fchakhovskoy	hack (if legal) bounty0x :D and leave them a HKN logo near to their logo :p			
Cryptofag	IMPORTANT - DIRECT LINK TO THE TELEGRAM [[CHAT]] GROUP ON THE WEBSITE OF HACKEN AS WELL (the current one links to the announcement channel)	@cryptowine (Telegram)		
Cryptofag	Update Circulating supply on CMC so people can see how low our market cap is	@cryptowine (Telegram)		
Jagath	Please work on adding HKN to atleast 2 major exchanges.	@jagadeesh_44		
Jagath	Datadash, Suppoman, Ian Balina,... Invite famouse Youtubers and discuss the roadmap and achivments with them and boom.	@jagadeesh_44		
Jagath	HKN is still under the radar. Act fast before some one comes with the same Idea with huge marketing.	@jagadeesh_44		
Jagath	Use some 25 to 30 BTC to bring the price above 10$ in Yobit in one day. You'll get all the attention you need. This will also benefit the ICO investors, they will start selling their HKNs.	@jagadeesh_44		
yuvadeep	Conduct Social Media Bounty (Twitter and Facebook) the best way to spread word about Hacken as very less people are aware of even Hacken exists and plan for more exc	@yuvadeep(Telegram)
