Disclaimer: Ult Weapon is 15 times the price of a single NS XI. 7.5 times the price of a set. It does not do 7.5 the damage of a NS XI x2 geared dps character

You should not attempt to build an Ult Weapon during your early progression (qvic-anguish), IT IS NOT WORTH YOUR TIME until you can pull whole zones.

It will only take you a few days once you get past the t5 speedbump to get Ult Charm 2 on your warrior, sneak into someone's T7 mini, grab some T7

weapons and dual wield Anger 6's. This is a MAJOR set of upgrades for your warrior.
