NA - Not applicable

NR - Not releasable due to confidentiality requirements. Totals include NR data.

<sup>1</sup> Tax remitted includes marijuana tax, license, and fee revenue received as well as penalties and other adjustments in a given month.

<sup>2</sup> Retail marijuana, retail marijuana products, and retail marijuana concentrates sold beginning July 1, 2017 are exempt from the 2.9% state sales tax; however, products that do not contain marijuana (i.e., accessories) are still subject to the 2.9% state sales tax. The first revenue month that reflects this exemption is August 2017.

<sup>3</sup> These values represent the state's share of the total retail marijuana sales (RMS) tax collected, which was 85% of the total RMS tax collected through July 2017, and 90% of the total starting August 2017. The remaining RMS tax collected is distributed to local governments. The RMS tax increased from 10% to 15% beginning July 1, 2017. The first revenue month that reflects the 15% rate is August 2017.
