Teesside University August 2020 Graduate Internships

The following is a list of internships listed on Teesside University's Student Future's website for graduate internships. All the listed internships are listed to begin this October. I've had a lot of people contacting me stating the game related jobs are quite difficult to find, so here is a list of them all!

To be eligible to apply, you will need to be a **2020 graduate of Teesside University, on either a post graduate or undergraduate course.** If you are a student who has deferred, **you are still eligible provided all your modules have been submitted by the October start dates!**

To apply, you will need to sign in at the Student Future's website with your student email address and password. However, if you have any issues with this feel free to contact me directly at k.stevens@tees.ac.uk ! The full list can be found at https://studentfutures.tees.ac.uk/student/jobs.html?execution=e6s1

Game companies, if your intern position is missing from the list, please let me know using my email above!

The deadline to apply for these positions is Aug. 7th, so make sure you get your applications in fast!

Name	Organisation	Reference Code [1]	Link	Subject Area
