

Web3 team management self-assessment

Question → Download the template to do your self-assessment

- 1 How confident are you in your ability to effectively use Web3 tools, such as blockchain-based team management platforms?
- 2 How well do you manage asynchronous communication within your team, taking into account different time zones?
- 3 How skilled are you at managing team members to make decentralized decisions while ensuring alignment with overall objectives?
- 4 How effective are you at managing digital assets within the Web3 ecosystem?
- 5 To what extent has your organization embraced a company culture aligned with Web3 principles, such as decentralization and transparency?
- 6 How well informed are you about key Web3 concepts, and how effectively do you share this knowledge with your team?
- 7 How effectively can you adapt to rapid changes in the Web3 environment, such as new technologies or policies?
- 8 To what extent do you actively engage with the Web3 community to build connections and opportunities for your team?
- 9 How adept are you at your ability to effectively manage an asynchronous workflow that accommodates flexible working hours?
- 10 How confident are you in your ability to unite your team around a common Web3 vision?
