

Team:	Spurs
Season:	2005-06

Player 1:	Kobe Bryant
Player 2:	Smush Parker

	Possessions [1]	ORTG [2]	DRTG [3]	Net Rating [4]
Both On:	0	#DIV/0!	195.3	#DIV/0!
K. Bryant On:	0	#DIV/0!	195.3	#DIV/0!
S. Parker On:	0	#DIV/0!	195.3	#DIV/0!
Both Off:	0	#DIV/0!	195.3	#DIV/0!

Ratings are luck adjusted

DIRECTIONS:

1. Select a team
2. Select any season from 2000-01 to 2017-18
3. Adjust the range based off the listed potential range and what you want to see
4. Give it a second to load the team's data, and then select any pair of teammates.
5. Try to share! If someone is using it, either **wait them out** or **make a copy!**

[1] Total Offensive + Defensive Possessions for the specific player combination over the given game range

[2] Luck adjusted offensive points scored per 100 offensive possessions for the specific player combination over the given game range

[3] Luck adjusted defensive points allowed per 100 defensive possessions for the specific player combination over the given game range

[4] Luck adjusted net rating per 100 total possessions for the specific player combination over the given game range

Net Rating = $ORTG - DRTG$
