3/6/2023	Moncton	PLAEX Building Systems Inc.	Mechatronics Engineer		Requirements: Post-secondary degree in Mechatronics or a closely related field. Proficient with Fusion 360, Experience with programming of robotics (work experience in school experience), Experience with 3D printing, Experience and passion in environmental sustainability, Strong analytical, organizational and creative thinking skills. Proficiency with computer software. Attention to detail, Results-driven personality, Strong interpersonal and leadership skills. Exceptional time management and ability to problem solve under pressure, and Strong oral and written communication skills About PLAEX: PLAEX is creating a meaningful impact on global waste issues while building communities around structures that will last generations. Our unique building system is fully interlocking, mortarless, and made from over 90% recycled materials. Lab testing has shown that this material is more impact, water, and crack resistant than traditional brick or concrete. Builders will enjoy the simple design and familiar and fun nature, and together, we will revolutionize the building industry while greatly reducing the amount of waste going into our oceans and landfills. Please send a cover letter, resume, references, and any supporting documents to humanresources@plaex.ca
