Title	Description	Type												
Open Source	Software with its source code made available with a license in which the copyright holder provides the rights to study, change, and distribute the software to anyone and for any purpose. May be developed in a coflaborative public manner.													
Freemium	Software provided free of charge, but money is charged for additional features and/or access.													
Proprietary Software	Software for which the software's publisher/ developer or anothe person retains intellectual property right to the source code and patent rights.	*												

Title	Description	Type										
Non Profit	Not for profit organization that works for social good, that is funded by donations, sponsorships or other philanthropic resources.											
Social Enterprise	A business for a social purpose: using a business strategy to achieve a social, cultural or environmental goal or another kind or community benefit, rather than for the economic benefit of its shareholders or owners.	4										
Public Agency	Organizations that are owned and operated by the government and exist to provide services for its citizens.											
Donor / Investor	Organizations that provide regional and international development aid or assistance											
Faith-Bassed	An organization whose values are based on faith and/or beliefs, which has a mission based on social values of the particular faith and which most often chave its activists (leaders, staff, volunteers) from a particular faith group.											
Project	A project that's not necessarily an organisation but could be classified as group working towards a common goal.											

Title	Description	Types												
Crisis Response	Tools created to help mobilize aid or track events as they unfold during crisis situations in a country or community e.g. [Ushahidi] (https://www.ushahidi.com/)	Conflict Migration Natural Disaster												
Education	Educational institutions like universities or groups that have created tools for otizants and school-going children to easily access educational information e.g Tanzania's [ShuleDirect] (https://www.shuledirect.co.tz).													
Governance	Tools created to increase citizen participation in governance of their countries or communities and keep governing bodies in check e.g. Code for Kenya's [Tax Clock] (https://laxclock. codeforkenya.org/)	Accountability Civic Engagement Elections Service Delivery Finance												
Health	Organizations that specialize in aiding delivery of vital health services and provide citizens with knowledge of health service providers or gloods for Fanzania's [Hospital Locator][http://htpois- tz-health-facilities.dokku-1.codefortanzania.org).													
Natural Resources	Todis used to map for risk and monitor change for environmental change e.g (Code for Afficia). Climate Change Projections}(https://climatechange.codeforafrica.org/map.html).	Climate Conservation Extractives Land Renewables												
Transparency	Tools used to promote citizen reporting, and fact checking/ verification of news information e.g. Code for Africa's [Citizen Reporter]/http://citizenreporter.codeforafrica.met/ mobile app.	Access to Informal Media Fact-Checking	ion											

- [1] Country in which the primary/target users are or project has been deployed.
- If multiple countries, should be comma separated e.g Kenya, Tanzania, Ghana.
- [2] Brief explainer of what the project/ tool is used for.
- [3] Is the project Open Source, Freemium, or Proprietary Software
- [4] Website, where available
- [5] Link to repo where the source code is available for sharing
- [6] Country in which the primary/target users are or project has been deployed.
- If multiple countries, should be comma separated e.g Kenya, Tanzania, Ghana.
- [7] Brief explainer of what the organisation does
- [8] What type of organisation is it: Non Profit, Social Enterprise, Public Agency, Donor/Investor, Faith Based
- [9] What type of work does the organisation mainly focus on: Governance, Health, Natural Resources, Transparency
- [10] Website where available
- [11] Projects associated with the organisation. Should be included in the "Projects" tab.
- [12] Any links other than website and main source code relating to the organisation
