	65% of the waste for remodels or tenant improvements, and 75% of the waste for new construction generated on a job site, excluding asphalt and concrete debris, of which 100% must be recycled.	Projects valued at \$100,000 or more. -New commercial buildings (regardless of valuation) or any covered project valuing \$1,000,000 or more require a performance security deposit.	The City of Dublin has entered into an exclusive solid waste franchise agreement with <u>Amador Valley</u> . <u>Industries</u> (AVI) for the removal of all solid waste in the City. Exception if removal is conducted by licensed demo contractor through the use of a fixed body vehicle	Utilize city forms	City forms and program overview.	Environmental Services 925-833-6650		
	100% of all Portland cement concrete and asphalt concrete; 65% excluding Alternative Daily Cover (ADC) of remaining C&D debris (per CALGreen), excluding hazardous materials.	 Projects are subject to the Nov 2, 2017 City of Emeryville ordinance, which exceeds Cal Green requirements. -All new construction and demolition projects that require a permit. Exemptions: Projects generating less than 2 lbs per sq for waste; or residential remodel projects that don't increase livable space. 	Licensed franchised collector, Waste Management of Alameda County (WM), is required for mixed debris recycling bins brought onto site. Self-haul can go to any facility, must meet ordinance requirement for entire project to divert GS% or greater diversion rates without Alternative Daily Cover activities. Bins for single materials cardboard, metal and wood, are not required to be WM bins. Contractor-owned bins are allowed to haul.	Plans to be submitted to: https://emervville. wastetracking.com/	City of Emeryville Program. information page	Matt Anderson Environmental Programs Technician zerowaste <u>@emeryville.org</u> 510-596-3795		
City of Fremont	100% of concrete and asphalt 65% of remaining waste generated 100% of plant debris must be composted	Projects are subject to the most recent CALGreen requirements: - all new construction, - all residential additions, - all demolition projects - all commercial alterations with a value of \$200K+ - all commercial additions over 1000 sf	anoved to hau. 1. Republic Services must haul all debris boxes. Exceptions for source separated boxes of only asphalt, concrete or dirt. 2. Contractor can self-haul to approved facilities using their own equipment and employees.	Plans to be submitted to https://www.fremont. wastetracking.com/	https://www.fremont. gov/government/departments/envir onmental-services/construction- demolition-debris	Lori Marra environment@fremont.gov 510-494-4581 LMarra@fremont.gov		
	100% of asphalt, concrete and similar material (dirt, inerts) 65% of remaining waste generated (not inerts)	Eollow CALGREEN CODE requirements	Only Waste Management of Alameda County (WMAC) is authorized to provide roll-off (drop-box) service in Hayward. Debris that is not hauled by WMAC must be loaded onto a fixed body vehicle and hauled directly to a city authorized facility. Weight tags are required to be turned in at the end of the project. Starting 2018, all materials sent to mixed CaD facilities need to be third party certified.	Plan can be submitted to <u>City of Hayward Waste</u> <u>Tracking</u>	City Program Information	leff Krump (510) 583-4725 Jeff Krump@hayward-ca.gov		
City of Livermore	Follow CALGREEN CODE requirements	Follow CALGREEN CODE requirements	Contact the permit center.	Directly to city	Contact the permit center.	Permit Center 925-960-4410		
City of Newark	Follow CALGREEN CODE requirements	Follow CALGREEN CODE requirements	Franchise collector, or self-haul of own debris.	Plans to be submitted to https://www.newark. wastetracking.com/	New forms being developed. Plan to implement fee deposit program in July 2024.	Jim Scanlin james.scanlin@newark.org		
	100% Asphalt, Concrete and other inert materials; 65% of remaining debris generated. Alternative Daily Cover (ADC) is counted as disposal.	All new construction, demolition, mixed use, & historic resource removal. ADD/ALT-SPD, Duplex Conversion, Increased Volume or Conditioned Space ADD/ALT-Non-Residential regardless of size or value Projects w/ Design Review & Landscape Plan, >500 sq. ft. of total floor area	Non-Exclusive Franchised (NEF) Haulers may collect, transport and dispose of MIXED C&D materials. Source separated, single commodities may be collected, transported and disposed through private arrangements between generator and collector or licensed contractor as part of service or self-haul. As of 1-1-2021 Affected Projects expanded by OMC 15.34 to exceed requirements of CalGreen.
