Repository	Link	Category	Potential WG	Next Step	Initiator	Impl. Sponsor	Spec Sponsor	Date last revi	Discourse thread/Issue link	Repo-manager	Announced on public-new-work@w3.org	Date Added	Shipping in	Mozilla position	Description
aom	https://github.com/WICG/aom	Accessibility	ARIA WG		alice		Google			yes	n/a				Accessibility Object Model
accessible-loading-and-searching	https://github.com/WICG/accessible-loading-a	Accessibility	ARIA WG	Reach out to contributors to get la travis			Microsoft	2/9/2022		yes	n/a	September 27, 2019		https://github.com/mozilla/	Enable ATs to recognize and account for virtualized content when navigating a web page.
audio-focus	https://github.com/WICG/audio-focus	Media	Media WG	Reach out to contributors to get la mounir				2/9/2022		yes	n/a			https://github.com/mozilla/standards-positions/issues/203	
background-fetch	https://github.com/WICG/background-fetch	Networking	SW WG or WHATWG	Potential to upstream to SW WG Jake				2/9/2022		yes	n/a				API proposal for background downloading/uploading
BackgroundSync	https://github.com/WICG/BackgroundSync	Networking	SW WG	Working through Privacy concerns				2/9/2022		yes	n/a			https://github.com/mozilla/	A design and spec for ServiceWorker-based background synchronization
canvas-color-space	https://github.com/WICG/canvas-color-space	Graphics	WHATWG?	We pinged people again				2/9/2022		yes	n/a				Proposed web platform feature to add color management wide gamut and high bit-depth support to the <canvas> element.
construct-stylesheets	https://github.com/WICG/construct-stylesheets	Layout	CSSWG	Mozilla poised to implement				2/9/2022		yes	n/a		Chromium		API for constructing CSS stylesheet objects
container-queries	https://github.com/WICG/container-queries	Layout		Reach out to contributors to get latest status (last major update 2015?)				2/9/2022		yes	n/a				
controls-list	https://github.com/WICG/controls-list	Media	MediaWG	Reach out to contributors to get latest status (maybe coordinate with OpenUI				2/9/2022		yes	n/a				Customise browser native media controls buttons.
cookie-store	https://github.com/WICG/cookie-store	Storage	WebAppsWG	Appears actively maintained				2/9/2022		yes	n/a		Chrome		Sketching an asynchronous JavaScript cookies API for documents and workers
private-network-access	https://github.com/WICG/private-network-acce	Security	WebAppSec?	Appears actively maintained				2/9/2022		yes	n/a				
cq-usecases	https://github.com/WICG/cq-usecases	Layout		Reach out for latest update (needed separate repo?)				2/9/2022		yes	n/a				Use cases and requirements for standardizing element queries.
CSS-Parser-API	https://github.com/WICG/CSS-Parser-API	Layout		Reach out for latest update (Looks like a Houdini spec?)				2/9/2022		yes	n/a				This is the repo where the CSS Houdini parser API will be worked on
DataCue	https://github.com/WICG/DataCue	Media		Appears actively maintained	cwilso			2/9/2022		yes	n/a	March 14, 2019			https://github.com/chtml/datacue/blob/master/explainer.md
devtools-protocol	https://github.com/WICG/devtools-protocol	Testing		Reach out to contributors to get latest status		Microsoft		2/9/2022		yes	n/a				DevTools Protocol
display-locking	https://github.com/WICG/display-locking	Layout	WebAppsWG?	Appears actively maintained				2/9/2022		yes	n/a				A repository for the Display Locking spec
Element-Timing	https://github.com/WICG/Element-Timing	Performance	WebPerfWG	Appears actively maintained (when will this transition to Perf WG?)				2/9/2022		yes	n/a			https://github.com/mozilla/	Element Timing performance metric proposal
encrypted-media	https://github.com/WICG/encrypted-media	Media	MediaWG	Reach out to contributors to get latest status (update this fork?)				2/9/2022		yes	n/a				A fork of Encrypted Media Extensions to add persistent-usage-record sessions
entries-api	https://github.com/WICG/entries-api	Sharing	WebAppsWG	Reach out to contributors to get latest status				2/9/2022		yes	n/a				Spec defining browser support for file/directory upload by drag-and-drop
event-timing	https://github.com/WICG/event-timing	Performance	WebPerfWG	Appears actively maintained				2/9/2022		yes	n/a				A proposal for an Event Timing specification
file-handling	https://github.com/WICG/file-handling	Sharing	WebAppsWG	Appears actively maintained				2/9/2022		yes	n/a				API for web applications to handle files
focus-visible	https://github.com/WICG/focus-visible	Accessibility	CSS?	Reach out and get usage stats--will the polyfil be needed for much longer?				2/9/2022		yes	n/a				Polyfill for `:focus-visible`
get-installed-related-apps	https://github.com/WICG/get-installed-related	Sharing	WebAppsWG	Reach out to contributors to get latest status				2/9/2022		yes	n/a			https://github.com/mozilla/standards-positions/issues/213	
hdcp-detection	https://github.com/WICG/hdcp-detection	Media		Reach out to contributors to get latest status				2/9/2022		yes	n/a				Incubation for HDCP detection feature in EME
import-maps	https://github.com/WICG/import-maps	Networking		Appears actively maintained				2/9/2022		yes	n/a				How to control the behavior of JavaScript imports
indexed-db-observers	https://github.com/WICG/indexed-db-observer	Storage	WebAppWG	Waiting for non-Chromium interest?				2/9/2022		yes	n/a				Prototyping and discussion around indexeddb observers.
inert	https://github.com/WICG/inert	Layout		Reach out to contributors to get latest status (heading for WHATWG upstrea				2/9/2022		yes	n/a				Polyfill for the inert attribute and property.
input-for-workers	https://github.com/WICG/input-for-workers	Input		DORMANT	yoav			8/1/2022		yes	n/a	August 30, 2019			Specification for exposing input events to workers
input-device-capabilities	https://github.com/WICG/input-device-capabili	Sharing		Reach out to contributors to get latest status				3/9/2022		yes	n/a				InputDevice API proposal
interventions	https://github.com/WICG/interventions	Meta	WebAppsWG	Wondering if this should move to Web Apps; ask contributors for latest status				3/9/2022		yes	n/a				A place for browsers and web developers to collaborate on user agent interventions.
is-input-pending	https://github.com/WICG/is-input-pending	Input	WebPerfWG	Shipped in Chromium; Waiting for other implementer interest				3/9/2022		yes	n/a				
is-self-profiling	https://github.com/WICG/is-self-profiling	Performance	WebPerfWG	Shipped in Chromium; Recent up yoav			Facebook	3/9/2022		yes	n/a	March 12, 2019			JS profiling in the wild
keyboard-map	https://github.com/WICG/keyboard-map	Input	WebEditingWG?	Appears actively maintained				3/9/2022		yes	n/a				API to get current keyboard mapping.
Layout Instability	https://github.com/WICG/Layout-Instability	Layout	WebPerfWG		yoav					yes	n/a	May 28th, 2019			
main-thread-scheduling	https://github.com/WICG/main-thread-schedul	Performance	WebPerfWG		yoav					yes	n/a	March 14, 2019			
netinfo	https://github.com/WICG/netinfo	Networking	DAS							yes	n/a				
open-ui	https://github.com/WICG/open-ui	Input			Greg Whitworth		Microsoft			yes	n/a	September 30, 2019			Standardize controls and components that ship natively within UAs.
origin-policy	https://github.com/WICG/origin-policy	Security								yes	n/a				
overscroll-scrollend-events	https://github.com/WICG/overscroll-scrollend-	Input			yoav					yes	n/a	June 11th, 2019			
page-lifecycle	https://github.com/WICG/page-lifecycle	Performance	WebPerfWG							yes	n/a				Lifecycle API to support system initiated discarding and freezing
permissions-request	https://github.com/WICG/permissions-request	Sharing	WebAppSec							yes	n/a				Incubation for permissions.request()
permissions-revoke	https://github.com/WICG/permissions-revoke	Sharing	WebAppSec							yes	n/a				Incubation for permissions.revoke()
portals	https://github.com/WICG/portals	Performance								yes	n/a				A proposal for enabling seamless navigations between sites or pages
priority-hints	https://github.com/WICG/priority-hints	Performance	WebPerfWG							yes	n/a				A browser API to enable developers signal the priorities of the resources they need to download
sanitizer-api	https://github.com/WICG/sanitizer-api	Security								yes	n/a			https://github.com/mozilla/standards-positions/issues/106	
requestPostAnimationFrame	https://github.com/WICG/requestPostAnimatio	Performance	HTML		yoav					yes	n/a	May 2nd, 2019			
savedata	https://github.com/WICG/savedata	Performance			yoav					yes	n/a	September 6th, 2019	Chromium		A browser API to make developers aware of user preferences with regards to data savings
Scroll-to-text-fragment	https://github.com/WICG/Scroll-to-text-fragme	Layout			yoav		Google			yes	n/a	July 23rd, 2019		https://github.com/mozilla/standards-positions/issues/194	
serial	https://github.com/WICG/serial	Sharing	DAS							yes	n/a				Serial ports API for the platform.
shape-detection-api	https://github.com/WICG/shape-detection-api	Media	DAS							yes	n/a				Detection of shapes (faces QR codes) in images
spatial-navigation	https://github.com/WICG/spatial-navigation	Accessibility								yes	n/a				Directional focus navigation with arrow keys
sw-launch	https://github.com/WICG/sw-launch	Sharing	ServiceWorkerWG							yes	n/a				Service Worker Launch Event
trusted-types	https://github.com/WICG/trusted-types	Security								yes	n/a				A browser API that aims to prevent DOM-Based Cross Site Scripting in modern web applications.
ua-client-hints	https://github.com/WICG/ua-client-hints	Networking								yes	n/a				Wouldn't it be nice if `User-Agent` was a (set of) client hints?
Virtual Scroller	https://github.com/WICG/Virtual-Scroller	Input			yoav					yes	n/a	April 19,2019			
visual-viewport	https://github.com/WICG/visual-viewport	Layout								yes	n/a				A proposal to add explicit APIs to the Web for querying and setting the visual viewport
web-locks	https://github.com/WICG/web-locks	Sharing								yes	n/a				Cross-tab resource coordination API
web-transport	https://github.com/WICG/web-transport	Networking			yoav					yes	n/a	May 29th, 2019			
WebHID	https://github.com/WICG/WebHID	Sharing			cwilso					yes	n/a	March 6, 2019			Human Interface Device protocol support
webpackage	https://github.com/WICG/webpackage	Networking								yes	n/a				Web packaging format
webusb	https://github.com/WICG/webusb	Sharing	DAS							yes	n/a				Connecting hardware to the web.
file-system-access	https://github.com/WICG/file-system-access	Sharing								yes	n/a				Allowing sites to interact with local files more seamlessly.
web-codecs	https://github.com/WICG/file-system-access	Media	Media WG	migrating to Media WG - see https	yoav					yes		September 13th, 2019		https://github.com/mozilla/	WebCodecs is a flexible web API for encoding and decoding audio and video
media-latency-hint	https://github.com/WICG/media-latency-hint	Media			cwilso				https://discourse.wicg.io/t/proposal-hint	yes	n/a	September 27, 2019			
trust-token-api	https://github.com/WICG/trust-token-api	Security			cwilso				https://discourse.wicg.io/t/proposal-trus	yes	n/a	October 2, 2019			
raw-clipboard-access	https://github.com/WICG/raw-clipboard-acces	Sharing			yoav				https://discourse.wicg.io/t/proposal-raw	yes	n/a	October 31, 2019		https://github.com/WICG/raw-clipboard-access	
compression	https://github.com/WICG/compression	Sharing			cwilso				https://discourse.wicg.io/t/proposal-com	yes	n/a	November 15th, 2019		https://github.com/mozilla/	Standard text for CompressionStream and DecompressionStream API
video-editing	https://github.com/WICG/video-editing	Media			yoav	Dormant	Microsoft			yes	n/a	November 19th, 2019			
custom-state-pseudo-class	https://github.com/WICG/custom-state-pseudo	Layout			cwilso				https://discourse.wicg.io/t/proposal-syst	yes	n/a	December 2nd, 2019			
keyboard-lock	https://github.com/WICG/keyboard-lock	Input							https://discourse.wicg.io/t/proposal-syst	yes	n/a				
crash-reporting	https://github.com/WICG/crash-reporting	Sharing			cwilso				https://discourse.wicg.io/t/proposal-crep	yes	n/a	December 13, 2019			
intervention-reporting	https://github.com/WICG/intervention-reporting	Sharing			cwilso				https://discourse.wicg.io/t/proposal-crep	yes	n/a	December 13, 2019			
deprecation-reporting	https://github.com/WICG/deprecation-reportin	Sharing			cwilso				https://discourse.wicg.io/t/proposal-crep	yes	n/a	December 13, 2019			
image-output	https://github.com/WICG/image-output	Media			ilya					yes	n/a	2019-12-24		https://github.com/mozilla/	Adds output options to HTML input elements
client-hints-infrastructure	https://github.com/WICG/client-hints-infrastru	Networking			yoav				https://discourse.wicg.io/t/client-hints-in	yes	n/a	2020-01-08		https://github.com/mozilla/	Specification for the Client Hints infrastructure - privacy preserving proactive content negotiation
periodic-background-sync	https://github.com/WICG/periodic-background-	Networking			yoav				https://discourse.wicg.io/t/proposal-peri	yes	n/a	2020-01-20			
video-requestAnimationFrame	https://github.com/WICG/video-raf	Performance			cwilso				https://discourse.wicg.io/t/proposal-vide	yes	n/a	2020-01024			
performance-measure-memory	https://github.com/WICG/performance-measu	Performance	WebPerfWG		yoav				https://discourse.wicg.io/t/proposal-web	yes	n/a	20200217			estimates memory usage of a web page including all its iframes and workers
origin-isolation	https://github.com/WICG/origin-isolation	Security			cwilso				https://discourse.wicg.io/t/proposal-orig	yes	n/a	2020-02027		https://mozilla.github.io/standards-positions/#domenic-origin-isolation	
web-otp	https://github.com/WICG/WebOTP	Authentication			cwilso				https://discourse.wicg.io/t/proposal-orig	yes	n/a	2020-03-05		somewhat related: https://gi One-time-password SMS API	
media-feeds-api	https://github.com/WICG/media-feeds-api	Media	MediaWG		beccahughes				https://discourse.wicg.io/t/proposal-mec	yes	n/a	2020-03-11			
beforeinstallprompt	https://github.com/WICG/beforeinstallprompt	PWA			cwilso					yes	n/a	2020-03-19	Chrome	https://github.com/mozilla/	Moved from Web Manifest spec
cross-origin-embedder-policy	https://github.com/WICG/cross-origin-embedd	Privacy/Ads			yoav				https://discourse.wicg.io/t/proposal-cros	yes	n/a	2020-03-20	Chrome		
conversion-measurement-api	https://github.com/WICG/conversion-measure	Privacy/Ads			cwilso				https://discourse.wicg.io/t/conversion-m	yes	n/a	2020-03-20			
sms-one-time-codes	https://github.com/WICG/sms-one-time-codes	Authentication			cwilso		Apple		https://github.com/WICG/admin/issues/	yes	n/a	2020-04-02			
local-font-access	https://github.com/WICG/local-font-access	Graphics			cwilso				https://discourse.wicg.io/t/api-to-get-list	yes	n/a	2020-04-03			
content-index	https://github.com/WICG/content-index	Storage			yoav				https://discourse.wicg.io/t/proposal-cont	yes	n/a	2020-04-08			The content index allows websites to register their offline enabled content in the browser.
idle-detection	https://github.com/WICG/idle-detection	Performance			cwilso				https://discourse.wicg.io/t/idle-detection	yes	n/a	2020-05-07			
digital-goods	https://github.com/WICG/digital-goods/	Sharing	WebPayments		mjpusa				https://discourse.wicg.io/t/proposal-web	yes	n/a	2020-05-15			
webmonetization	https://github.com/WICG/webmonetization	Privacy/Ads	WebPayments		adrianhopebailie		Coil		https://discourse.wicg.io/t/proposal-wet	yes	n/a	2020-05-27		https://github.com/mozilla/standards-positions/issues/349	
pwa-url-handler	https://github.com/WICG/pwa-url-handler	Sharing	WebAppsWG		travislethead	Microsoft	Microsoft		https://discourse.wicg.io/t/proposal-pwa	yes	n/a	2020-05-27			
display-override	http://github.com/WICG/display-override	PWA	WebAppsWG		various				https://discourse.wicg.io/t/wanting-the-b	yes	n/a	2020-07-06			
turtledove	https://github.com/WICG/turtledove	Privacy/Ads	WebAppSec??		yoav		Google		https://discourse.wicg.io/t/advertising-tu	yes	n/a	2020-07-06			
sparrow	https://github.com/WICG/Sparrow	Privacy/Ads	??		marcosc				https://discourse.wicg.io/t/advertising-s	yes	n/a	2020-07-07			
window-controls-overlay	https://github.com/WICG/window-controls-ove	PWA	WebAppsWG	continue iterating on explainer	various	Microsoft	Microsoft		https://discourse.wicg.io/t/proposal-title	yes	?	2020-07-08			Configure availability of the "window overlay" (top UI) in OS with overlapping window management UIs
raw-sockets	https://github.com/WICG/raw-sockets	Networking	??		cwilso				https://discourse.wicg.io/t/filling-the-ope	yes		2020-07-08			
storage-buckets	https://github.com/WICG/storage-buckets	Storage	WebAppsWG??		cwilso				https://discourse.wicg.io/t/proposal-stor	yes		2020-08-06			
responsive-image-client-hints	https://github.com/WICG/responsive-image-cl	Performance	??		yoav		Cloudinary		https://discourse.wicg.io/t/spec-for-resp	yes		2020-09-09			
canvas-formatted-text	https://github.com/WICG/canvas-formatted-te	Graphics	WHATWG HTML	Refine the design; harmonize w/C travislethead		Microsoft	Microsoft		https://github.com/WICG/proposals/iss	yes		2020-09-23			
urlpattern	https://github.com/WICG/urlpattern	Networking			yoav				https://github.com/WICG/proposals/iss	yes		2020-10-12			
webcomponents	https://github.com/WICG/webcomponents	DOM	WHATWG		cwilso		Google		(moved from WHATWG)	yes		2020-11-05			
handwriting-recognition	https://github.com/WICG/handwriting-recognit	Input	WebAppsWG		cwilso		Google		https://github.com/WICG/proposals/iss	yes	yes	2020-11-16

LargestContentfulPaint	2/2/2022	WebPerfWF							

Repository	Archived Date	Description													
aspect-ratio		This is a repo to explore and hopefully define a way to maintain aspect ratio													
async-append		A way to create DOM and add it to the document without blocking the main thread.													
budget-api		Proposal for a Budget API													
ContentPerformancePolicy		A set of policies that a site guarantees to adhere to browsers enforce and embedders can count on													
EventListenerOptions		An extension to the DOM event pattern to allow authors to disable support for preventDefault													
gesture-delegation		Gesture Delegation API proposal													
historical-a11yapi		Accessibility API													
historical-paymentrequest		Payment Request proposal													
hsts-priming															
img-conversion		Asynchronously convert between HTMLImageElement ImageData and Blob													
isolation															
modality		Experimenting with being explicit about user modality													
overscroll-behavior		CSS property to control scroll chaining													
performance-memory															
time-to-interactive		Repository for hosting TTI specification and discussions around it.													
user-gesture-nav		API to control user gesture navigations (swipe to navigate pull-to-refresh)													
transfer-size															
logical-sizing-properties		Specification for defining logical sizing in CSS													
memory-pressure		Proposal to expose memory pressure events to the Web.													
intrinsicsize-attribute	https://github.con					yes					Will be archived soon... Proposal to add an intrinsicsize attribute to media elements				
directory-upload	https://github.con	This spec aims to enable directory uploading by allowing a developer to read directory contents (files and sub-directories) asynchronously and be able to identify the directory structure.													
encrypted-media-encryption-scheme		Proposal to add encryption scheme support to Encrypted Media Extensions.													
frame-timing		Frame Timing API - no longer being persued													
kv-storage	3/9/2022	https://github.con
