Survey of Departments of Corrections Preparedness for the	COVID-19	Pandemic		Created:	April 10, 2020		
				Updated:	April 23, 2020		
Prepared by the Prison Policy Initiative and published at: https://docs.goog	le.com/sprea	dsheets/d/1Llh	JFVsfN46uDT	/EI75YiNj9Qfz	m_spxB3NizX9	99j5M/edit?usp	=sharing
Please read the companion briefing at: https://www.prisonpolicy.org/blog/20	020/04/10/pre	pared/					
These are the results of a telephone and email survey of state departments of corrections	during April 3-1	0 2020					
These are the results of a telephone and email survey of state departments of corrections		0 2020.					
Responses for each question are located on separate tabs of this spreadsheet.							
Some states did not respond to our survey, as indicated on each tab of this spreadsheet.							
Please contact virusresponse@prisonpolicy.org with questions.							
Survey questions:							
CAPACITY AND HEALTH SERVICES: Does each facility have a plan in place for							
separating suspected COVID cases, especially vulnerable individuals, and the rest of the population? How has existing and planned medical capacity changed due to COVID-19?							
HOSPITALIZATION: What is the pathway for getting incarcerated people necessary hospital-level care, for instance if they may need a ventilator? What is the security protocol? Has it been adapted for this pandemic?							
EQUIPMENT: Does the facility have access to ventilators or respiratory support on site? Have facilities ordered or received additional medical-grade PPE in preparation for an outbreak? If so, what supply does the DOC/facility anticipate having? How many COVID-19 tests are available within the DOC and how long will it take to get results? Where will they be processed?							
STAFFING: What is the usual ratio of healthcare staff to the incarcerated population? How much has the usual ratio changed due to COVID-19, for example because of staff calling out sick? How is the DOC preparing for a significant portion of the staff to be exposed and likely needing to take sick leave?							
PRIORITIES: What are the DOC's most immediate priorities in preparing or planning for a COVID-19 outbreak? Are there additional concerns I have not asked about that we should know about?							

State	Response	Dute of contact	HEALTH FACELITES CAMACITY: Does each facility have a plan is glace for separating suspected COVID cases, especially valuerable individuals, and the rest of the population?
