Note 1 - Gay - Unit M3 whiteware	I will probably bring my old microwave and my recently purchased fridge/freezer, and am assuming there are standard sized cavities for both appliances – which I would like. My kitchen has the standard ss bench, but the rest of it was designed by Sam at Architype. Maria will have it on record. I will want to choose my oven and range hood closer to the time. Again, standard sized cavity for under bench oven and standard electrical work for both. The reason for this is there seems to be some rapid developments in ovens and I am having floating shelves either side of my range hood so want flexibility in choosing one which "goes" with the shelves. I am having the dishwasher put in the island bench and that will depend on size but I think it will be a 450 wide one but the agreement was that those having island benches would contract for them separately. Finally I don't want an induction cook top				
Note 2 - Gay - Unit M3 flooring	I'm not getting the vinyl and carpet options as I intend to have timber overlay in all rooms except the bathroom, which is to be tiled. Laying tiles is part of my agreed pricing but I am to provide the tiles; the extra cost of timber on other floors is to be adjusted from cost of standard vinyl/carpet. This was confirmed in an email from Maria on 17/6/18 and I think Tim, Catherine and Reiner were copied in. "Floor will be discussed later, we'll keep vinyl option quoted by SW for now and add it as upgrade to laminated wood if decided later. Part of vinyl floor is extras A as basic units have vinyl in living areas & carpet in bedroom areas."				
Note 3 - Wilson - Unit M2	Rangehood we aren't having upper cupboards but don't want a visible rangehood, sam from tim's made a few suggestions when we tweaked plans but mostly no longer available
