TODO:

testing with different wallets - Backpack, WalletConnect, Coinbase

Open issues in wormhole-connect GitHub:

#611	[QA] Space is missing in FAQ "What types of assets does Connect support?"								
#689	[QA] [Sui] Incorrect wallet icon								
#1423	[QA] Incorrect destination address in Wormholescan								
#2160	[QA] Asset name is "MATICpo" instead of "WMATIC" on Wormholescan								
#2300	[QA] [Redesign] Some options from "Select a network" dropdown cannot be selected on small screens								
#2501	[QA] Display available route by default if Automatic route is unavailable					added on Sep 16		important	
#2557	[QA] Amount should have more decimals after comma					added on Sep 16			
#2573, #1057	[QA] Increment/decrement artifact shows up in Amount input field								
#2476	[QA] [Improvement] Show a warning message when user clicks on "Start a new transaction" button and transaction has not completed yet								
#2575	[QA] Show POL as native currency of Polygon network								
#2576	[QA] Transaction fails on claim on Mantle with error message: Error: execution reverted: "invalid emitter"						assignee: sebastianscatularo		
#2577	[QA] Improvements for "Transaction history" screen							OK on build b1f3c5115d , reproducible only on https://wormhole-connect-mainnet.netlify.app/	
#2578	[QA] Transaction is shown as still in progress even after asset has been received and timer is not displayed on Transaction screen								
#2579	[QA] [Improvement] Use the same error message format when amount is below minimum								
#2580	[QA] "Gas price" value should have more decimals after comma								
#2581	[QA] "Native gas on destination" amount is not shown								
#2582	[QA] [Feature] Increase balances to 5-6 decimal places to support smaller balances that appear as 0								
#2590	[QA] [Improvement] Native USDT token should display above Wrapped USDT token								
#2597	[QA] Ethereum icon is not displayed on iOS								
#2602	[QA] Loading icon is not displayed						new		
#2603	[QA] Transaction fails with "Error: missing revert data" error						new		
#2604	[QA] Balance is not loading for Klaytn network						new		
#2606	[QA] [NTT: Wormhole + Axelar] Transaction fails with "Error: execution reverted (unknown custom error)"						new		
#2607	[QA] [Improvements] Add network name for ETH token						new		
#2609	[QA] Infinite loading in "Time to destination" field after resuming the transfer						new		
#2610	[QA] Gas price amount changes significantly when user moves the slider						new		important

Open issues in Portal Bridge GitHub:

#1058	[bug] Wallet address has inconsistent font style						assignee: danielisaacgeslin		
#1059	[bug] "Transactions" option has inconsistent margin						assignee: danielisaacgeslin		
#1061	[Improvement] Highlight the toggle when option is enabled						reopened on Sep 16		
#1063	[Improvement] Prevent negative amount input						assignee: danielisaacgeslin		
#1067	[bug] Inconsistent display of "USDC Transfer" header								
#1077	[bug] CTA and other accent elements are grey vs the theme style						new		
#1078	[bug] Default dark background for container can be hard to see against Portal background						new		
#1079	[bug] Tokens on Aptos network are not displaying						new		
#1080	[bug] Unable to connect wallet to any network on ../btc-bridge/ page						new		
#1081	[bug] Error "Wormhole Connect: error completing transfer" when sending USDC from Base						new		
#1082	[bug] Incorrect token is displayed for "Gas price"						new		important
