[1] All Pokemon on this list have a perfect 5IV spread, Perfect IVs with a beneficial 0 IV, or Perfect Hidden power IVs.

[2] Each Pokemon listed here that is marked as available can be bred for 5IVs within a relatively short period of time and bred for 4IVs in even less. See the on hand column for how many 5IVs I have right now.

[3] It is possible for me to breed additional Pokemon that are on my list. If a Species, Ability, or Nature you want is not currently available, please ask.

[4] All 5IV Pokemon come exactly as described here. They will all be Kalos born, untouched level 1, and know all egg moves listed.

[5] Evolution: Volt Absorb / Water Absorb / Flash Fire / Synchronize / Synchronize / Leaf Guard / Snow Cloak / Cute Charm

[6] Genderless

[7] Evolution: Technician

[8] All Pokemon on this list will be traded as females. Any nature can be bred, though I'm unlikely to breed for anything else outside of special circumstances.

[9] Remember that only Pokemon in Dream Balls can have their Hidden Ability.

[10] This list is primarily for documentation purposes. I do not often trade away shiny Pokemon.

[11] Generally when a shiny is marked as available, it means I have doubles of it. I do not typically part with my unique shinies.

[12] From Soul Silver

[13] From Black 2

[14] Note that unless specifically stated, event Pokemon are not for trade. They are here for documentation purposes only.
