A table summarizing the Federal public access policies resulting from the US Office of Science and Technology Policy memorandum of February 2013

This is a work in progress. The table is subject to change. The table is intended to be used as a reference for the public access policies of the research funded within each agency. These "Public Access Plans" are the result of a US Office of Science and Technology Policy (OSTP) memorandum that was published in February 2013. The spreadsheet is kept updated by updates from the OSTP memorandum, but it is not updated in real time.
