This course is designed to give MATC students additional instruction and practice to prepare to pass the skills and written portion of the Utah Nursing Assistant Registry State Test. Students may register for as many eight-hour blocks as they would like to. Students register and pay for the course at Student Services. Student Services gives the information to the Nurse Assistant (CNA) department and they will schedule what is best for instructors, lab space, and students.  
 Registered students will receive four hours of lab time with an instructor to go over necessary skills for state skills testing and four hours of time in the computer lab taking practice tests to prepare for the written portion of the exam.

\*\*\*\*\* Additional Information \*\*\*\*\*

MATC provides training for students to prepare to take and/or receive MATC or 3rd party licensures and certifications such as state, national or industry certifications. MATC does not guarantee MATC or 3rd party licensures and certifications such as state, national or industry certifications upon completion of MATC Programs. State/national licensure or industry certifications are required for employment in some occupations and it is the responsibility of the student to obtain them. In order to receive an MATC certificate students must demonstrate all competencies.

Financial Aid availability may be based on program locations and/or scheduling requirements.

High school students must approve enrollment start and end dates with their high school counselor before registering with MATC. Please Note: If high school students or their high school class graduates and they have not finished all program hours prior to their high school graduation date, tuition will be charged for the remaining hours needed for completion.

The time it takes to complete this program is based on clock hours. Based on how many hours per day and how many days per week your program meets you can determine your targeted completion date.

Classes not meeting the minimum enrollment may be cancelled or rescheduled. Minimum enrollment requirements vary per program.
