Build Availability Tool

The only limit on your reservation is what is allowed in the Evara setting! This tool checks if someone else has already chosen the same thing (in case you want a completely unique character).

Race Subrace Base Class Subclass

This combination is already in use. Are you sure you want to reserve it?

The Battle Rager & Bladesinger subclasses are not restricted by race

- [1] Used Refocus Ticket to swap Religion Prof to Arcana 8/23/24
- [2] Used TDH on 10/06/2023
- [3] Artwork that is made at the pixel level, similar in style to classic video games.
- [4] Quick, rough-and-dirty art. Art in this category may be a simple sketch, a rough painting, a drawing with some color or shading, or some combination thereof. Artk in this category may lack clean lines, shading, or clearly defined objects. Typically about 30 min 3 hours of work.
- [5] Art in this category appears visubly more complete than sketches, drafts, and generally unrefined artwork. It could be a clean line drawing (without or without colors; with or without shading), or a lineless drawing with some shading. Typically about 1 10 hours of work.
- [6] Lineless art that is painted or in the splash art style. "Masterpiece" quality: Art that falls into this category should be the best of the best that you can produce. Quality-wise, masterpieces often look really different from the rest of your gallery. Typically about 10+ hours of work.
- [7] +5 gp for every additional character. Applies to visual artwork only (not to writing). Does not work with Dump or Panels
- [8] Use this modifier when submitting comics. Can't be stacked with the "Dump" modifier.
- [9] Only counts if you are submitting something DURING the event period
- [10] For Art Dumps. Apply this multiplier instead of calculating gp for each individual drawing. Can't be stacked with the Panels multiplier or Additional Character add-on.
- [11] for rps consisting of 4 or more participants
