White Sox CBT History
The White Sox payroll has never exceeded the threshold for MLB's competitive balance tax.

Notes on Competitive Balance Tax
 * Unofficial payroll for purposes of the Competitive Balance Tax under Article XXIII of MLB collective bargaining agreement. Estimated figures in italics.
 * Figures include the average annual values of contracts for players on the 40-man roster, plus about \$15M per club for health and pension benefits.
 * Tax Thresholds: Tax is assessed on amount above \$195M in 2017, \$197M in 2018, \$206M in 2019, \$208M in 2020, and \$210M in 2021.
 * Tax Rate: 20% for first-time payors, 30% for second-time payors, 50% for payors for 3 or more times. Rate resets if payroll falls below tax threshold for a season.
 * 12% surtax for exceeding threshold by \$20M-\$40M.
 * 42.5% surtax for first time exceeding threshold by more than \$40M. 45% surtax for exceeding threshold by more than \$40M the following season(s).
 * Club exceeding threshold by \$40M has its first selection in the next Rule 4 draft moved back 10 places. Club picking in top 6 has its second pick moved back.
