4/2014 11:41	Suzanne Wilkins	Planner	CDM Smith	Tahoe City/Placer	wilkinssm@cdmsmith.com		545-2563	Institute for Sustainable Infrastructure Sierra Watershed Education Partnerships CDM Smith American Planning Association	Environmental Education, Resource Planning, Stewardship, Tahoe-Truckee Specific, Water Issues	Environmental Education, Environmental Policy and Regulations, Resource Planning, Stewardship, Tahoe-Truckee Specific, Water Issues, Wildlife and Fish	Resource Planning, Stewardship, Water Issues		I have experience working with the Institute for Sustainable Infrastructure's (ISI) Envision Sustainability Rating System for public infrastructure projects. Envision is similar to what LEED is for buildings. I was part of a project team that prepared the design and Envision application for the Placer County DPW Snow Creek SEZ Restoration Project in Tahoe Vista. The project was awarded the 1st Platinum Rating through Envision and is the second project to be rated. I would like to discuss the rating system and how it can be applied to local infrastructure projects to make them more sustainable for quality of life, resource allocation, natural world and climate and risk. You can find more information about ISI and Envision on <a href="http://www.sustainableinfrastructure.org">www.sustainableinfrastructure.org</a> .
