***Members looking for projects to be done at the Tuesday morning work days***

Review the projects listed on the sheets below: **Tuesday Projects**

Contact Project Lead for additional information and to sign-up for the projects

**Click on TABS below to select different Project Group**

#	Project	Range / Area	Schedule	Project Lead	Contact #	Tools / Equipment Needed	Supplies Required	Notes
	Gun Shows			Frank Allen	5036689331	None	None	
	Sort Brass	Clubhouse	Tuesdays 8AM - Noon	Pete Fernald	503.913.2250	None	None	This could be done anytime, but depending on the physical ability it might be best on a Tuesday when someone can help move the buckets of brass. This is NOT as simple as it sounds! All steel and aluminum cases must be removed and a magnet needs to be run thru so we can discard brass plated steel. Obviously damaged cases will need to be separated and sold as scrap. It will also save time later on if cases are sorted by caliber and with .223 there are several foreign headstamps that are scrap only!
	Clean Brass	Clubhouse				Tumbler		If we sort by caliber, clean and decap brass it could be sold at gun shows or to members with a proper disclaimer!
	File Membership Application	Clubhouse	Before Member or Board Meetings	Frank Womack	503.970.3196	None	None	
	Water riparian area (after July 4)	ditch pipe	Before 9:00 AM on weekends.	Pete Fernald	503-913-2250			
	High Power Score Keeper	Clubhouse	High Power Matches	Barry Mogus	503.709.2675			High Power Match, Computer Exel & Access
	Merchandise Sales	Clubhouse	Varies	Ty Gebhardt	503.201.2846			Man sales table at New Member Orientation and various shooting events. Usually 1-2 hours commitment per time.

#	Project	Range / Area	Schedule	Project Lead	Contact #	Crew Size	Tools / Equipment Needed	Supplies Required	Notes
1	Trim Riparian area for replant	Ditch pipe discharge to fenceline		Pete Fernald	503-913-2250	2-3	Trimmer	Don't cut plants with white ribbons!	(at discharge end of pipe)
2	Cut firewood at 16"			Pete Fernald	503-913-2250		Chain saws, cutting chaps, goggles, gloves, hearing protection, peavy		If personal saw, chain brake must work. Wear cutting chaps at all times and trip chain brake when out of the cut.
3	Split firewood; stack in 1 cord piles			Pete Fernald	503-913-2250	4-5 people. Person supervising will run splitter!	Club log splitter	Gloves, ear protection	Stack in 4 x 4 x 8 ft. piles (1 cord)
4	Cut limbs and trees above 1,000 yd. target board			Pete Fernald	503-913-2250		Chain saw, loppers		
5	Trim overhanging limbs at clubhouse			Pete Fernald	503-913-2250		Pole saw: gas or extended pole		
6	Run magnet over shotgun ground cloth before removing lead	Shotgun curtain		Pete Fernald	503-913-2250				
7	Clear 10 ft. wide strip at LH fenceline to upper survey stake			Pete Fernald	503-913-2250				
8	Sort brass in clubhouse			Pete Fernald	503-913-2250				
9	Plant designated trees and bushes in riparian area	Discharge end of ditch pipe		Pete Fernald	503-913-2250				
10	Build plant protective cages and coat area with garlic oil/blood meal/coyote urine	End of ditch pile		Pete Fernald	503-913-2250				
11	Haul limbs and brush to burn pile			Pete Fernald	503-913-2250		Rakes, tractor		
12	Add RR tie steps from lower pits (burn pile) to top of berm			Pete Fernald	503-913-2250				
13	Trim around all trees in archery and fairway/paved road along fairway (DO NOT cut bark!)			Pete Fernald	503-913-2250				
14	Spray around all trimmed out trees	Archery & fairway trees		Pete Fernald	503-913-2250				
16	Paint downspout at L side of Silhouette range with high-vis paint			Pete Fernald	503-913-2250				
17	Replace Shotgun Shack chimney with stainless steel pipe			Pete Fernald	503-913-2250				
19	Realign and repair 200 yd. target popup frames	At burn pile turn-in		Pete Fernald	503-913-2250				
20	Replace 200 yd. target boards	Same as above		Pete Fernald	503-913-2250				
21	Replace dump trailer tongue jack with 2-spd. type			Pete Fernald	503-913-2250				
22	Plant row of trees at BPA right of way for noise control (giant Sequoia?)			Pete Fernald	503-913-2250				
23	Till and level areas between berms (do between 500 and 600 yd. berms first)			Pete Fernald	503-913-2250				
24	Build drive-off ramps at both ends for 100 yd. berm			Pete Fernald	503-913-2250				
25	Trim 1,000 yd. impact area	Below 1000 yd. number boards		Pete Fernald	503-913-2250		Bladed trimmer		
26	Trim 200 yd. impact area			Pete Fernald	503-913-2250		Bladed trimmer		
27	Trim impact area below lower number boards			Pete Fernald	503-913-2250		Bladed trimmer		
28	Blow off pavement: clubhouse to burn pile turn-in.			Pete Fernald	503-913-2250
