Madded Map Collection
for Project Zomboid

I have opened up copy permissions, however, they are for personal use only. Do not distribute or repost elsewhere.

Make a copy of this sheet. There are two sections below, maps and dependencies). Select which map mods and dependencies you are using (be mindful that it will not automatically decide the dependencies for you). If you are using all of the map mods, you will need all of the dependencies. If you are not, you'll need to double-check their dependencies individually.

The Workshop ID, Mod ID and Map Folders will populate below. The load order is correct if you do not rearrange the list.
