How-To	Updates 8/21
If you have a duplicate, do not post it twice. Just post the second recipe. Post all new dyes into "unsorted". Unsorted dyes will not be listed on main page. If you are ISO a dye, post it in the discord or PM Pyxis CTRL+F on the information page to quickly find a dye and what category it is in. Join the discord for updates: <a href="https://discord.gg/6yNN5Q2HbT">https://discord.gg/6yNN5Q2HbT</a>	Hello!!! We are launching a new Discord server to help streamline the ISO process, as well as provide better updates and support <a href="https://discord.gg/6yNN5Q2HbT">https://discord.gg/6yNN5Q2HbT</a> xo Pyxis

**PURE COLOR CHARTS OVERVIEW [WIP!!!]**

(Notes: The numbers tell how many of said ingredient was used. The numbers in the brackets are still missing. For example: Carrots (4) means that the entry ( + hex code) for 4 Carrots is still missing.)  
 ("/" means end of color chart. The end is reached when adding more of the same ingredient won't change the color anymore. (Or at least it's not advised to add further))  
 (If you see the last one of a color chart missing, for example: 10 Dragonblood, it is likely because it's Black (#000000))

ETA \*\* Pyxis edit: I am adding black at the end of all purity charts for added clarity
