

CS21 lecture swaps									
Lecture switching instructions:									
<p>This form is for students looking to switch from one CS21 lecture to another. Check back frequently to see if there is someone who can swap with you. If so, you can email the student directly. Once you have agreed to swap, please send Lauri an email with all of the information (both student names, the lab for which each student was pre-registered and the lab for which each student wants to move into). Make sure both students are copied on the email.</p>									
<p>**** DO NOT use this form if you are not currently registered for CS21. If this is the case, please contact Lauri at lcourte1@swarthmore.edu ****</p>
