First Name	Topic Idea	What about that topic are you most interested in?	What kind of information are you looking for?	Keywords & Synonyms (expands your keywords by overtime)	Sample Search String	What database did you use?	Paste in the URL of a resource you may use for your research.
		Use this column to focus on one aspect of your topic or narrow it down if the idea for your topic feels too broad	Based on your topic or individual aspect that you're investigating, what type of information are you looking for? This could be original research articles, books, data, or something else. Often the type of information that we are looking for impacts where we might start searching.	Use this column to list the big concepts found in your topic. It can also be helpful to list out synonyms or phrases that describe your topic. For example: car, automobile, "self driving car"	Build a search in this column. Something that you might copy/paste into a database or the library catalog to start your search. Remember to use "OR" to connect similar ideas and "AND" to connect dissimilar ideas.	You can use one of the databases that we've talked about today or another one found on our databases page here: https://libguides.com/az/databases.php	
Jen	Briefly describe your general topic idea						https://web.s.ebscohost.com/ehost/detail/detail?vid=0&sid=0e63c3be-2e16-43f1-b1bd-3276173af7a5%40redis&bdata=#db=a9h&AN=...
