See Snow/Fords page for updates on Snow & Creek crossings & Road Closures in Oregon.

Never rely on water caches!!! Beware of contaminated water. Purify backcountry water.

Send email updates to water@pctwater.com or phone/text 619-734-7289 or 619-734-PCTW [voice mail/text only, no one will answer]. Mileages and waypoint names used in this water report are from Halfmile's PCT maps [www.pctmap.net]. Please send photos & videos of water sources, fires, passes, **Poodle Dog Bush**, and stream creek crossings to our **Facebook page** called "**PCT Water,Fire,Passes,Fords Update Group**"

Take fire safety seriously. Alcohol stoves start fires – go stoveless or carry a stove with a contained fuel source and a shut-off valve.

Water sources with blue text [marked with * or **] have historically been more reliable. Sources marked with ** are more likely to have water year-round than those marked with a single *. Water described as seasonal, usually dry, early spring, etc. are less reliable.

| Map | 2015 Mile Halfmile App | Mile | Waypoint | Location | Report | Date | Reported By |
|--|------------------------|--------|---------------------|---|---|----------|---------------|
| | 1716.4 | 1718.9 | Ashland | 13 miles NW of the PCT on I-5 | | | |
| B2 | 1725.6 | 1728.1 | WA1728 | Piped spring | A few small spring-fed pools will yield a little clean water if you're careful not to muck them up, but they take a while to refill. | 10/25/18 | Jeffo |
| B2 | 1727.6 | 1730.1 | WA1730 | Dipsite Spring. Piped spring near a small pond, 100 yards NW of PCT. | The pipe is dry and there is only an inch or so in the spring box. There's plenty of mucky water in the pond. | 10/25/18 | Jeffo |
| B3 | 1738.7 | 1741.2 | LittleHyattOutlet | Little Hyatt Reservoir outlet, bridge | plenty of water, flowing well | 9/21/18 | Morning Angel |
| B4 | 1740.3 | 1742.8 | WA1743 | Water fountain and spigot. | Dry. | 8/25/18 | Lickity Split |
| | 1743.34 | 1745.8 | | Seasonal stream | Dry. | 7/26/18 | Shepherd |
| B5 | 1747.9 | 1750.4 | KlumLanding Park | Klum Landing Park Campground, 3/10 mi W of PCT. | spigots are off, bathrooms are locked, lake is nasty & you'd have to get your feet muddy to access water | 9/21/18 | Morning Angel |
| B5 | 1748.6 | 1751.1 | HowardPrairie Canal | Howard Prairie Canal and bridge | plenty of water, there was a cow walking around in the water and pooping | 9/22/18 | Morning Angel |
| B5 | 1748.7 | 1751.2 | GrizzlyCreek | Grizzly Creek with wooden bridge. | pretty good flow | 9/22/18 | Morning Angel |
| B6 | 1752.7 | 1755.2 | WA1755 | Piped spring | nearly dry. Unreliable now. | 8/26/18 | Lickity Split |
| There are 2 junctions, sign to the spring at 2nd junction. If you accidentally take the 1st junction then turn left at the jeep road, walk ~0.15 miles to the trail on right | | | | | | | |
| B7 | 1760.8 | 1763.3 | BrownMtn Shelter | * <i>South Brown Mountain Shelter, cabin, picnic table, water pump.</i> | 9/22/18 (Morning Angel) : good water from pump, notice from 9/15 says water has coliform bacteria but it's not dangerous. 9/4/18 (Thibaud) : Pump gives clear ice cold water. 8/24/18 (Lickity Split) : Pump is delivering plenty of clear water. 8/17/18 (Ryan) : pump on and flowing. 7/26/18 (Shepherd) : pump is on and water is cold! 7/23/18 (Deuce) : Pump operational. 7/15/18 (Spice Cat & Big Dog) : Water pump is now operational, nice cold water! 7/8/18 (Campfinder) : Need a cup to collect the water from the small spring referenced in Phoenix 6/30/18 report below. 6/30/18 (Phoenix) : Water pump is off. You can get water from a small spring 0.2 mile North of the junction that leads to the shelter. The spring is just by a dirt road and is flowing at 1 l/min. Bring something to scoop water out. | 9/22/18 | Morning Angel |
| | 1760.97 | | | Seasonal Spring | At road, look right (northbound) and there is a pool from a seasonal spring. | 6/6/18 | Prince |
| B7 | 1763.1 | 1765.6 | ButteCreek | Usually dry Butte Creek with bridge | 7/26/18 (Shepherd) : creek is dry. I did not find any water upstream. 6/6/18 (Prince) : Just northbound from the bridge, look for a tree with a silver PCT marker with "H2O water" written on it. Follow the social trail approx. 200ft. At least three small, shallow, clear pools with water flowing a bit. | 7/26/18 | Shepherd |
| | 1770.9 | 1773.4 | Fish Lake Resort | 2 miles W of PCT on Hwy 140 | | | |
| C1 | 1771 | 1773.5 | CascadeCanal | Cascade Canal, Seasonal creek, wooden bridge. | Some damp mud, but no visible water. | 8/24/18 | Lickity Split |
| C1 | 1771.3 | 1773.8 | | Summit trail #3732 junction, stream nearby. | | | |
| C2 | 1782.4 | 1784.9 | ChristisSpring | * <i>Christi's Spring.</i> | light flow, easy to collect | 9/23/18 | Morning Angel |
| C5 | 1796.8 | 1799.3 | WACS1799 | Seasonal Creek | light flow, easy to collect | 9/24/18 | Morning Angel |
| C5 | 1797.2 | 1799.7 | WA1800 | Small creek | no water | 9/24/18 | Morning Angel |
| C5 | 1798.2 | 1800.7 | WA1801 | Small creek | light flow, easy to collect | 9/24/18 | Morning Angel |
| C5 | 1798.5 | 1801.0 | GrassLake Creek | Creek above Grass Lake | light flow, scoopable from pools | 9/24/18 | Morning Angel |
| C5 | 1799.6 | 1802.1 | Honeymoon Creek | Honeymoon Creek, often muddy, water is often better at mile 1798.2 | not flowing but pretty big pools to scoop from | 9/24/18 | Morning Angel |
| C5 | 1801.8 | 1804.3 | RangerSpring TR | Trail to Ranger Spring (0.8 miles west of PCT) | 15 foot wide torrent of cool, clear water gushing out of the earth. There are also standing pools at the horse camp, half a mile from the pct, but I would go all the way to the spring - the path is easy. If you are planning to stock up for the whole 19-mile stretch south of Mazama Village, I would do it here rather than honeymoon creek, or further south. | 8/7/18 | Devilfish |

| | | | | | | | |
|--|--------|--------|---------------------|--|--|---------|---------------|
| C6 | 1806.4 | 1808.9 | JackSpringTR | Seasonal Jack Spring, 7/10 mile W of PCT, may be dry, difficult to find. | Jack Spring (1808.9) is dry as a bone, but two of the three ponds in the immediate vicinity of the jack spring trail's junction with the pct have water. The southernmost pond, covered by lily pads, has receded to maybe 20 square feet. To reach it go 0.1 miles north of the trail junction, to a green oasis in the burn zone, and look for a "candle" (a lower-case "l" carved into a tree). Go northwest up between the two rock outcroppings you see on your left just before you reach the "candle" (northbound), and you will find the first pond in 200 feet. The second pond, larger than the first and clear of lily pads, has hardly receded at all from its maximum extent. From the first pond, looking northwest you will see two dry, interconnected basins topped by a low rock wall. Go to the top of that rock wall and you will see the second pond. The third pond on the map is dry, and looks to be much smaller at its maximum extent. | 8/7/18 | Devilfish |
| 7/10/18 (Christopher) : Number of places in the burn zone 1806 to Crater Lake it's hard to find trail and footprints are misleading. It's important to have a GPS apps to help you stay on trail. One concern is 1810.5 were all trail marking burnt away at the intersection and wrong trail goes straight and the PCT goes to the right. | | | | | | | |
| C8 | 1818.4 | 1820.9 | MazamaVillage | Mazama Store, restaurant, 1 mile SE of PCT | in front of the store is a sink with two faucets that have spring water | 7/31/18 | Shepherd |
| C9 | 1820.2 | 1822.7 | CastleCreekTrib | Small seasonal tributary of Castle Cr | no flow, no pools evident at trail crossing | 8/8/18 | Opa |
| C9 | 1820.5 | 1823.0 | CastleCreek2 | Castle Creek | great flow | 9/28/18 | Morning Angel |
| C9 | | RimAlt | DuttonCreek | Dutton Creek | good flow | 9/28/18 | Morning Angel |

Dead horse is still in the water, downstream from crossing. 8/6/18 (Shepherd) : flowing fast with very silty water; follow the small cairns upstream for a rock hop crossing. 7/8/18 (Phoenix) : Lots of gallons per second of silty water are flowing. 7/5/18 (Cuddles) : There is a dead horse in the water, not far from the crossing. (not kidding, confirmed with a ranger later.) Make sure to gather water from UPstream quite a ways. Upstream ~25 yards is also where i found a safe place to cross dry. Could be a sketchy and definitely wet crossing where the trail meets the river. | 9/18/18 | Thibaud |

7/26/18 (PCTA) : The Pacific Crest Trail is OPEN again! Yahoo! To protect public safety, it is illegal for hikers and horseback riders to venture off the newly reopened trails. The Eagle Creek Trail and other trails west of the PCT remain closed. Please take the PCT rather than the Eagle Creek side trail. But trust us – our volunteers are working on it.
