

DISCLAIMER:

The list doesn't take center skills into consideration, before making any rash decisions please make sure you take these into account when building your teams. This list includes both Scorer and Healer URs for both groups.

Healer gauge boost is excluded as it requires considering the full team.

The settings used to calculate the scores are:

Note Count: 550

% of Perfects: 98% (539 Perfects, 11 Greats)

Considering a Full Combo

Please note: If you are not capable of scoring 95%+ Perfects, majority of Perfect based scorers become much worse, do take that into account with your own skill level.

The ranking order is sorted by Skill Level 5.

The song type is optimized for their groups. This means for μ 's girls, μ 's song was used For Aqours girls, Aqours song was used.

The center bonus is not applied.

- Year based tier lists for optimum team building.
- Mixed master list for both Healer and Scorer URs together and separately
- Chart to see just exactly how strong scorers are compared to healers ----->
- Icon borders 'cause ain't nobody got time to remember attributes
- Scoring by +1 standard deviation instead of average.

The list is updated within 24 hours of a newly released card for either Aqours or μ 's.

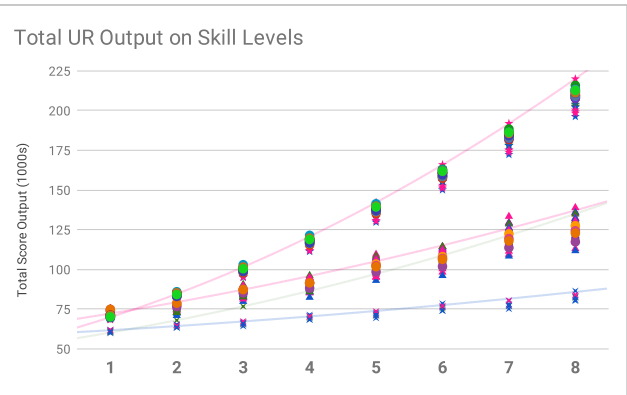

For mobile users:

Google Drive app doesn't show card icons so you'll need to either use the google sheets app or access the sheet from your browser.

The raw numbers and data used in the sheet were produced via SIF Kirara:

Fractional activations have been taken into consideration when making this list.
