PEN AMERICA'S INDEX OF SCHOOL BOOK BANS

PEN America's Index of School Book Bans lists instances occurring from July 1, 2022 through June 30, 2023, where students' access to books in school libraries and classrooms in the United States was restricted or diminished, for either limited or indefinite periods of time. Some of these bans have since been rescinded and some remain in place. PEN America's definition of school book bans and detailed methodology can be found in the tab below and here.

Title	Author	Secondary Author(s)	Illustrator(s)	Translator(s)	Series Name	State	District	Date of Challenge/Removal	Ban Status	Origin of Challenge

How to Read Italian Renaissance Painting	Zuffi, Stefano				Missouri	Wentville School District	September 2022	Banned Pending Investigation	Legislative Action

PEN AMERICA'S INDEX OF SCHOOL BOOK BANS, July 2022 - June 2023

PEN America's Index of School Book Bans lists instances where students' access to books in school libraries and classrooms in the United States was restricted or diminished for either limited or indefinite periods of time, from July 1, 2022 through June 30, 2023. Some of these bans have since been rescinded and some remain in place.

PEN America defines a school book ban as any action taken against a book based on its content and as a result of parent or community challenges, administrative decisions, or in response to direct or threatened action by lawmakers or other governmental officials, that leads to a previously accessible book being either completely removed from availability to students, or where access to a book is restricted or diminished. Read more [here](#).

PEN America analyzed all relevant local and national news stories on challenges, restrictions, and bans to school library books, curriculum, and classroom libraries anywhere in the United States during the 2022-23 school year. We consulted school district websites, School Board minutes, corresponded with librarians, authors, and teachers, received public records request from partner organizations, and reviewed letters to school districts organized by the [National Coalition Against Censorship](#) (NCAC).

PEN America's Index of School Book Bans does not include every instance in which a book has been challenged, as not all such challenges have ended in bans. Rather, it offers a count of books banned in accordance with the definitions and categories described below.

Key for Index - Sorted by Author & Title and by State & District

General Book and Ban Information

<i>Title</i>	The publisher given title of a banned book.
<i>Primary Author</i>	First author listed on a banned book.
<i>Secondary Author(s)</i>	Additional authors listed on a banned book.
<i>Illustrator(s)</i>	All illustrators listed on a banned book.
<i>Series Name</i>	The publisher defined name of a collection of titles that are often thematically or sequentially related.
<i>State</i>	State where a ban has taken place.
<i>School District</i>	District where a ban has taken place.

Challenge Information

<i>Date of Challenge/Removal</i>	The approximate month and year when a book was first noted as removed or prohibited based on available public documents.
<i>Type of Ban</i>	Indicates one of four types of bans, including 'Banned from Libraries and Classrooms,' 'Banned from Libraries,' 'Banned from Classrooms,' or 'Banned Pending Investigation.'
<i>Banned from Libraries and Classrooms</i>	These represent instances where individual titles were placed off-limits for students in either some or all libraries and classrooms.
<i>Banned from Libraries</i>	These represent instances in which administrators or school boards have removed individual titles from school libraries where they were previously available. Books in this category are not necessarily banned from classroom curriculum. This category includes decisions to ban a book from one school-level library (e.g. a middle school) even if it is included in libraries for higher grades (e.g. a high school), or other forms of grade-level restrictions.
<i>Banned from Classrooms</i>	These represent instances where school boards or other school authorities have barred individual titles from classroom libraries, curriculum, or optional reading lists. These constitute bans on use in classrooms, even in cases where the books may still be available in school libraries.
<i>Banned Pending Investigation</i>	These are instances where a title was removed from access and no final decision has been made on the availability of the material. The Index records these bans, even if only temporarily enforced and even if books have ultimately been returned to shelves.
<i>Origin of Challenge</i>	The approximate initial action that led to the removal/reduction of access to a title.
