| VMTH COVID-19 Questions and Concerns | | | | | | | | | | | | | | | |
|--|--|---|--|---|--------------------|---|------------------------------|------------------------|--------------------|------------------------|--------------------------|-----------------------------|---------------------------|------------------------|--------------------|
| Is large animal poing to move to emergency only, or are we going to continue to do elective cases? | | | | | | | | | | | | | | | |
| Can we screen employees? It's nonsensical to not screen employees when we're all gathering so closely in large snimal. | | | | | | | | | | | | | | | |
| is the SA still open 24 hr, and if we have an after hour case are we still following the same day procedure? | | | | | | | | | | | | | | | |
| If we come into contact with a staff member who is THEN out for having or being suspect to having COVID19, do we all still follow self quarantine practices that the CDC recommends? | | | | | | | | | | | | | | | |
| the CUC recommence? The President of the USA recommended no more than 10 people in an area at the same time. Is the hospital planning on implimenting that, and if so, how will | | | | | | | | | | | | | | | |
| large animal work? | | | | | | | | | | | | | | | |
| Can we get a clear answer about what emergency only means? The staff is very frustrated and confused. | | | | | | | | | | | | | | | |
| If staff is missing work for an extended period of time because of lack of childcare is there a payment system or paid emergency leave time available? Some services are not being allowed to work from home | | | | | | | | | | | | | | | |
| services are not paing anower to work from norms. To limit large comprompositions of mornia, wall staff the notices of the natural to have minimum nearlest and have others excellable as nearleston nat? | | | | | | | | | | | | | | | |
| I an owner wants to visit a critical set that will be in the hospital for extended time, how will visits work? Will owners be denied seeing their set, especially if they | * | | | | | | | | | | | | | | |
| are declining rapidly in hospital? | | | | | | | | | | | | | | | |
| For Student workers, since we do not get Health Care from the hospital. If one of us gets sick from COVID19 from contact at the Hospital will the hospital be covering any medical expenses/worker's compensation or are we on our own for medical expenses? | | | | | | | | | | | | | | | |
| weering any resolution activities a compensation of the resolution control insolution expenses. | | | | | | | | | | | | | | | |
| 4102 | 22 | | | | | | | | | | | | | | |
| What is the AVMA stance on completion of 4VM core rotations? With multiple schools closing, was there a decision made? | | | | | | | | | | | | | | | |
| Now that a case has been diagnosed in the Brazos county, what other changes will be implemented to keep staff and students safe? | | | | | | | | | | | | | | | |
| fay I suggest a town half for technicians. Many techs do not have time to stop and read through the large volume of emails we are getting due to patient care. his is so moortant because the techs are the ones coming face to face with clients and are at the greatest risk of contracting COVID 19. | | | | | | | | | | | | | | | |
| his is so important declause the sector are the ones coming sect to race with cleants and are at the greatest risk or contracting COVID to. WILUPD make their presence known during the night shifts in the parking lot? | | | | | | | | | | | | | | | |
| Who needs to be contacted to add the Blinn Veterinary Technology Program to the list of emails? We are located on campus, but are unable to require any | | | | | | | | | | | | | | | |
| pdates/policy changes. | | | | | | | | | | | | | | | |
| that is the purpose of dividing SA techs into "teams?" We have yet to be told what the teams would be doing and where help would be needed. It seems like imping the gun without having knowledge of where are staffing needs really lie. | | | | | | | | | | | | | | | |
| Mhile the VMTH has | | | | | | | | | | | | | | | |
| taken great strides to increase social distancing and taken measures to protect employees physical health, has admin thought about how to protect the mental | | | | | | | | | | | | | | | |
| health of those on the frontline who are physically on the clinic floor keeping | | | | | | | | | | | | | | | |
| the hospital afloat? Has the increased stress placed on these individuals and how it can affect their mental status been addressed? | Agree with op | | 22 | | | | | | | | | | | | |
| Please make sure the fown half Zoom rooms have enough space in them for everyone. Many of us couldn't loo into the last one because of limited space. Using | | | | | | | | | | | | | | | |
| he host TAMU ID and logging in through TAMU.zoom will help. | | | | | | | | | | | | | | | |
| Can we have more info regarding the recent COVID-19 cases in the vet school? | | | | | | | | | | | | | | | |
| | | | | | | | | | | | | | | | |
| | | | | | | | | | | | | | | | |
| The hospital has gathered PPE from many sources across the college and have begun distributing PPE to TAMU entities. Given the limited supply of PPE, what form of protection will be distributed (if any) and to whom specifically (what qualifies)? | The hospital has ga PPE, what form of r | thered PPE from a protection will be r | many sources ac datributed (if any) | ross the college and have begun distributing PF and to whom specifically (what qualifies)? | E to TAMU entition | es. Given the limited supply of | | | | | | | | | |
| What precautionary measures will be made to clinicians, technicians, and student workers to ensure their safety when coming into contact (e.g. diagnostic | | | | rs. technicians, and student workers to ensure t | | | | | | | | | | | |
| procedures that require close proximity) with patients with suspected or confirmed zoonotic disease? What will happen if a member of the veterinary worldorce | diagnostic procedur | res that require do | ose proximity) wit | patients with suspected or confirmed zoonotic | disease? What v | coming into contact (e.g. vill happen if a member of the | | | | | | | | | |
| ontracts a zoonotic disease because they are not granted a source of protection? | veterinary workforo | e contracts a zoon | notic disease bec | use they are not granted a source of protection | 17 | | | | | | | | | | |
| n some Depts, there are still almost full staff. Unless we have requested to do AWL, the others are in the office either due to they aren't high risk or are feeling self-service and string white or depth we are not fift from our coverder. | | | | | | | | | | | | | | | |
| is this pandemic goes on with no end in sight currently, how are we going to move foward? There has been news where cases could continue until july and | | | | | | | | | | | | | | | |
| uguat. Are we going to be under this system for that long? Do we have a long term plan? | | | | | | | | | | | | | | | |
| Some departments are having people work from home doing CE due to overstaffing for the case load they have. Instead of having them doing CE at home, why not use these people to try and fill apots where there are a shortage of people, such as screening clients in the parking lot or being an ER name. | Agree with op | | | | | | | | | | | | | | |
| | | | | Lamps . If we are all essential amplitudes | | | | | | | | | | | |
| The technicans that are still working their normal amount of hours, and in most cases, more, are beginning to suffer a loss of morale. It is disheartening to see other equally competent technical staff receive 2 weeks per month paid work time from home. There is nothing being done to even the playing field or incentivise | a . | | | why aren't we all being held to the same | | | | | | | | | | | |
| he amount of work being put forth by the individuals still working in the hospital. I understand that not everything in life is "fair" but it seems like a real disservice o not compensate them for their efforts in one way or another. | agree with original p | post, have same o | suestion. | standard? Why are some employees' health more expendible than others? | agree with origin | nal post, have same question. | Agree with op. Those | of us working our fu | shifts are getting | very worn down as | most of us have also cov | ered other shifts. For exam | ole, weekend technician w | orking shifts for week | day or weekday tec |
| ince the AWL staff is not being compensated on an hour per hour basis (i.e.1 hour of CE counting for more than one hour of paid time) this creates a large | | | | | | | | | | | | | | | |
| Separity not only between the amount of time being required by them but also is essentially increasing their hourly pay as compared to those who are still sorking 8-13 hours per day at their "normal" pay rate. | agree with original p | | | agree with original post, have same question. | forms with on | | | | | | | | | | |
| lains that the Emergency service technicians have had to completely waitch and educat different unds schart day to exceed the average tables to exceed the average tables to exceed the average tables to exceed the experiment of the | | AUR. HAVE SALIS Q | pesson. | agree was organic post, name same question | Agree was up. | | | | | | | | | | |
| hospital, it seems like the next logical steps to have other services with lighter work loads and extra technical staff adapt to fill the daily gaps that are still occurring in numer and screening positions. | | agree with original post, have same question. | | agree with original post, have same question. | | | otto a state | | | | | | | | |
| After its it that some services are offering student workers AWL capabities while it has not been offered across the board to all student workers? | agree with original p | | | agree win orginal post, nave same question. | Agree with op | Agree with Oir ALAKEE W | IIIOM | | | | | | | | |
| It is understandable that certain staff members are unable to work during the day due to a lack of child care but if they have another adult there at alternate time | | AUR. MATTE QUEEK | on . | | | | | | | | | | | | |
| such as in the evenings and overnight, would it be feasible for them to cover needed shifts during night hours? It is unequal to have those members of staff that | | | | | | | | | | | | | | | |
| to not have children (for whatever reason that may be) carry the burden of supporting the hospital workload while others are permitted to work from home on Cl | acree with original o | post, have same o | suestion. | agree with original post, have same question. | | | | | | | | | | | |
| Why were the questions asked in this google doc not addressed in the town half as promised? Why are these concerns being overlooked? | Agree with op! | | | | | | | | | | | | | | |
| in recards to the case sitting in the parking lot for 20 min It sounds like IM recieved the initial call about the case - If there was any question about stability of | | | | | | | | | | | | | | | |
| | | | | | | | | | | | | | | | |
| he patient, why wasn't a runner sent to evaluate the situation immediately, regardless of what service was going to take the case? If there were multiple calls to. M as well as CC wouldn't that cateint's welfare lie with both services equality. | Agree with op. | | | | | | | | | | | | | | |
| M as well as CC wouldn't that patient's welfare lie with both services equally? Teferring back to the two unresponsive patients presenting at the same time - I have no doubt that ER did play a big role in that process of trying to triage and | Agree with op. | | | | | | | | | | | | | | |
| M as well as CC wouldn't that patient's welfare ils with both services equally? Inferring back to the two unresponsive patients presenting at the same lime -1 have no doubt that ER did play a big role in that process of trying to triage and behalte the patients. But I trink ER wann't the only reason it worked. During this time ICU and Onco both willing abscred up and ran over to the emergency. | Agree with op. | | | | | | | | | | | | | | |
| M as well as CC wouldn't that patient's welfare lie with both services equally? Referring back to the two unresponsive patients presenting at the same time -1 have no doubt that ER did play a big role in that process of trying to triage and stabilize the cellatins. But I think ER wasn't the only reason it worked. During this time ICU and Onco both willno staceed up and ran over to the emissions. | Agree with op. | situation would no | ot have gone as r | moothly had those patients come in an hour ea | rier when it was | still only overnight staff.
